CECIL F. P. BANCROFT, LL.D.	1873—

TRUSTEES

PRESIDENT,

Rev. DANIEL T. FISKE, D.D.,	Newburyport

CLERK,

Rev. CECIL F. P. BANCROFT, LL.D., L.H.D.,	Andover

TREASURER,

ALPHEUS H. HARDY, B.A.,	Boston

Rev. JOSHUA W. WELLMAN, D.D.,	Malden
THOMAS H. RUSSELL, M.A.,	Boston
Hon. JOSEPH S. ROPES, M.A.,	Norwich, Ct.
Rev. ALEXANDER McKENZIE, D.D.,	Cambridge
Rev. WILLIAM H. WILLCOX, D.D., LL.D.,	Malden
Hon. ROBERT R. BISHOP, M.A.,	Newton Centre
Pres. FRANKLIN CARTER, Ph.D., LL.D.,	Williamstown
Rev. JAMES G. VOSE, D.D.,	Providence, R. I.
Hon. ROWLAND HAZARD, M.A.,	Peacedale, R. I.
THEODORE M. OSBORNE, B.A.,	Salem

FACULTY

CECIL F. P. BANCROFT, PH.D., LL.D., PRINCIPAL,
On the Peter Smith Byers Memorial Foundation

MATTHEW S. McCURDY, M.A.,
Instructor in Mathematics

WILLIAM B. GRAVES, M.A.,
Professor of Natural Sciences on the George Peabody Foundation

GEORGE T. EATON, M.A.,
Instructor in Mathematics

GEORGE D. PETTEE, M.A.,
Instructor in Mathematics and Registrar

WILLIAM H. TERRILL, M.A.,
Instructor in Greek and Latin

CHARLES E. STONE, PH.B.,
Instructor in French

CHARLES H. FORBES, B.A.,
Professor of Latin on the John C. Phillips Foundation

HENRY W. BOYNTON, M.A.,
Instructor in English

WALTER R. NEWTON, M.A.,
Instructor in German

ARCHIBALD FREEMAN, M.A.,
Instructor in History

ALLEN R. BENNER, B.A.,
Instructor in Greek

JAMES C. GRAHAM, B.S.,
Instructor in Chemistry

BERNARD M. ALLEN, B.A.,
Instructor in Latin

JOHN L. PHILLIPS, B.A.,
Instructor in Latin

FREDERICK E. NEWTON, Ph.B.,
Instructor in Mathematics

HENRY W. BUNN, PH.D.,
Instructor in English

ROBERT S. McCLENAHAN, B.A.,
Instructor in Greek and Latin

GILBERT N. LEWIS, B.A.,
Assistant in Chemistry and Physics

PROF. JOHN WESLEY CHURCHILL, M.A.,
Instructor in Elocution

PHILLIPS ACADEMY

The Phillips Academy was founded at Andover on the twenty-first of April, 1778, by the gifts of Hon. Samuel Phillips and his brother Hon. John Phillips, consisting of about 141 acres of land in Andover purchased for the purpose, and about 200 acres of land in Jaffrey, N. H., together with the sum of one thousand six hundred and fourteen pounds. The deed of gift which is known as "The Constitution of Phillips Academy" was drawn up, as appears from contemporary documents, largely under the influence of Samuel Phillips, jr., and Eliphalet Pearson, two young men whose friendship in school and college, and whose sympathy in the religious and patriotic movements of the times made them mutually helpful in the project of founding a new institution of learning, and, as it proved, a new type of institution. Dr. Pearson became the first principal, and Judge Phillips fostered the institution till his death in 1802 with assiduous devotion.

The main purpose and scope of the school are shown in the opening paragraphs of the constitution, as follows:

"A short reflection upon the grand design of the great Parent of the Universe in the creation of mankind, and the improvements of which the mind is capable, both in knowledge and virtue, as well as upon the prevalence of ignorance and vice, disorder and wickedness, and upon the direct tendency and certain issue of such a course of things, must occasion, in a thoughtful mind, an earnest solicitude to find the source of these evils and their remedy; and a small acquaintance with the qualities of young minds,— how susceptible and tenacious they are of impressions, evidences that youth is the important period, on the improvement or neglect of which depend the most important consequences to individuals themselves and the community.

A serious consideration of the premises, and an observation of the growing neglect of youth, have excited in us a painful anxiety for the event, and determined us to make, in the following Conveyance, a humble dedication to our Heavenly Benefactor of the ability, wherewith he hath blessed us, to lay the foundation of a public free school or academy for the purpose of instructing Youth, not only in English and Latin Grammar, Writing, Arithmetic, and those Sciences, wherein they are commonly taught; but more especially to learn them the great end and real business of living.

Earnestly wishing that this Institution may grow and flourish; that the advantages of it may be extensive and lasting; that its usefulness may be so manifest, as to lead the way to other establishments on the same principles; and that it may finally prove an eminent means of advancing the Interest of the great Redeemer, to His patronage and blessing we humbly commit it."

The first trustees were Samuel Phillips of Andover, John Phillips of Exeter, William Phillips of Boston, Oliver Wendell of Boston, John Lowell of Boston, Rev. Josiah Stearns of Epping, Rev Elias Smith of Middleton, Rev. William Symmes, Rev. Jonathan French, Samuel Phillips jr., and Nehemiah Abbot of Andover.—men whose services and benefactions, at Andover and elsewhere, were to become memorable in the history of American education.

Provision having been made for the organization and succession of the trustees, the management of the property, the appointment of teachers and the admission of pupils, the constitution continues:

It shall ever be considered as the first and principal duty of the Master to regulate the tempers, to enlarge the minds, and form the Morals of the Youth, committed to his care.

There shall be taught in this Seminary the English, Latin and Greek Languages, Writing, Arithmetic, Music and the Art of Speaking; also practical Geometry, Logic, and any other of the liberal Arts and Sciences, or Languages, as opportunity and ability may hereafter admit, and as the Trustees shall direct.

The Master is to give special attention to the health of the Scholars, and ever to urge the importance of a habit of Industry. But, above all, it is expected, that the Master's attention to the disposition of the Minds and Morals of the Youth under his charge will exceed every other care; well considering that, though goodness without knowledge (as it respects others) is weak and feeble; yet knowledge without goodness is dangerous; and that both united form the noblest character, and lay the surest foundation of usefulness to mankind.

It is therefore required that he most attentively and vigorously guard against the earliest irregularities; that he frequently delineate, in their natural colours, the deformity and odiousness of vice, and the beauty and amiableness of virtue; that he spare no pains, to convince them of their numberless and indispensable obligations to abhor and avoid the former, and to love and practice the latter; of the several great duties they owe to God, their country, their parents, their neighbor and themselves; that he critically and constantly observe the variety of their natural tempers, and solicitously endeavor to bring them under such discipline, as may tend most effectually to promote their own satisfaction and the happiness of others; that he early inure them to contemplate the several connexions and various scenes, incident to human life; furnishing such general maxims of conduct, as may best enable them to pass through all with ease, reputation, and comfort.

And, in order to prevent the smallest perversion of the true intent of this Foundation, it is again declared, that the *first* and *principal* object of this Institution is the promotion of true Piety and Virtue; the *second* instruction in the English, Latin and Greek Languages, together with Writing, Arithmetic, Music, and the Art of Speaking; the *third*, practical Geometry, Logic, and Geography; and the *fourth*, such other of the liberal Arts and Sciences or Languages, as opportunity and ability may hereafter admit, and as the Trustees shall direct.

The school was opened for instruction April 30, 1778, with a group of thirteen pupils. On Oct. 4, 1780, it was incorporated in the last act of the "Great and General Court" previous to the organization of the new state government. The powers of the trustees have been enlarged by the legislature from time to time, notably in the acts conferring the power to hold additional funds, and in the act of June 19, 1807, whereby the Trustees were empowered to receive and hold real and personal estate for the purpose of a separate "Theological Institution." The Andover Theological Seminary, the first of the many theological schools, was accordingly established in the following year.

In 1830 the "Teachers Seminary" was established as another distinct school, an anticipation of the normal schools, and to a less degree, of the scientific schools which have since been planted elsewhere. In 1842 this was merged into the parent Academy and is the present Scientific Department.

By the generous gifts of numerous benefactors, in sums large and small, the original foundations have been greatly enlarged. The school has been "equally open to youth, of requisite qualifications, from every quarter." It has done a useful work in the education of boys who have not gone to college, and in its time has prepared boys for colleges and scientific schools in unprecedented numbers.

The very prosperity of the school has increased the demands made upon it, and constitutes the appeal for gifts for the maintenance of its efficiency under the demands of "the new education," and for its improvement and advancement in its own appropriate and important field.

The legal name of the corporation is "The Trustees of Phillips Academy," and gifts and bequests should be made to them.

ANNOUNCEMENTS

Terms of Admission

Candidates for admission to the Academy are required to present testimonials of good moral character and certificates of standing in the school which has the latest record of their scholarship.

The Academy is not a suitable school for boys who are idle, insubordinate, or lacking in self-control, or for such as require the supervision of a teacher and the routine of a school-room in order to enforce industry and fidelity. Students who are found to be unable or unwilling to meet the school requirements, and those whose influence is injurious, must be withdrawn from the school. As maturity is not always to be measured by years, the school makes no specific requirements as to the age of the candidate. It has been found that boys of fourteen are usually able to meet the responsibilities of the academic life.

Registration

The school year begins in September, and while new students may be admitted later, by special examination, it is most advisable that they present themselves promptly at the beginning of the Fall Term. The student registers on the first day of each term as announced in the Calendar, reporting first at the Treasurer's office, to make payment for the dues of the term, and, secondly, to his class officer, who will arrange his schedule of work for the term.

Classification

Each successful candidate is enrolled in one of the regular classes and is required to pursue the prescribed work of that class. Deficiencies in preparation, and occasionally other considerations, sometimes make it necessary for the student to do some work in other classes than his own; but such arrangements should be considered as temporary and exceptional.

The Academy makes no provision for partial students; nor for special students not candidates for graduation from the Academy or for entrance to some reputable college, scientific school, or professional school.

When a student, through failure to maintain his regular classification, loses from his schedule eight or more recitation hours per week, he is assigned to the lower class.

Class Officers

Each student is by his classification assigned to the special care of one of the eight members of the Faculty who are known as class officers. This officer arranges the studies of each member of the class of which he is in charge, keeps particular record of the student's standing and progress, advises him in the choice of his elective studies, conducts correspondence with parents relating to the boy's school life, and exercises general supervision of his welfare, while he remains in the class.

Entrance Examinations

The examinations for the coming school year will be held on Friday, June 25, 1897, at 9 o'clock A. M.; on Wednesday, September 15, 1897, at the same hour, and on the first day of the second and third terms. For examinations held at other times a fee of three dollars will be charged. In order to discover possible deficiencies of preparation, candidates should if possible present themselves in June. The schedule of examinations on page 20 indicates in detail the requirements for admission to the several classes.

Appointments

Morning Chapel, 7.50 A. M.
Recitation and Study Hours, 8 to 12 A. M., 2 to 4 P. M.
Evening Study Hours begin at 8 P. M.
Sunday Chapel Services, 10.30 A. M., and 4.30 P. M.
Half holidays, Wednesday and Saturday afternoons.
Anniversary Holidays, 8 A. M. to 7.30 P. M.

Religious Exercises Students are uniformly required to be present at morning chapel. After the devotional exercises opportunity is given for special announcements, brief school meetings, or other business preliminary to the work of the day. Sunday services for the students are held in the Chapel which is used in common by the Theological Seminary and the Academy. Regular members of the Protestant Episcopal, Baptist, or Roman Catholic congregations may be excused to attend the local churches of these denominations. The Society of Inquiry holds voluntary devotional meetings at 6.45 o'clock on Wednesday and Sunday evenings.

Study Hours During the Recitation and Study Hours, when not engaged in the class-room, students are required to occupy themselves with the preparation of school exercises, or with attendant literary work.

Absences All absences from recitation, morning chapel, Sunday service, or from the student's room during study hours, are to be accounted for; and excuses should be secured in advance, whenever the necessity for such absence can be foreseen.

Holiday Excuses All out-of-town excuses must be obtained from the Principal. Such excuses are granted somewhat freely on half-holidays and the special holidays to those whose school standing is good. The student who goes out of town without permission, forfeits his connection with the school.

Examinations and Promotions Written examinations are held in each study at least once a term; but in most courses the term grading is made largely on the basis of daily work. Near the close of the year reviews are held, with special examinations to determine the student's fitness for promotion or graduation. By way of preparation for college tests these examinations are conducted with strict formality. In all the written exercises of the school year the absolute integrity of the student is assumed, and a student may not retain his connection with the school, who fails to comply with so essential a requirement. In addition to completing the class-room courses, each class is required to pass a satisfactory examination upon a supplementary course of reading. At the close of each term, and at other times when occasion requires, reports of the student's scholarship and attitude toward his work are sent to his parents or guardian.

EXPENSES

Parents can estimate approximately the necessary expenses of their sons here; and it is particularly requested that they do not furnish money beyond what is necessary for ordinary expenses. Pupils who are supplied with much spending money, or who are allowed to make debts, usually accomplish but little in their studies, and are liable to form habits which require their removal from school.

Term bills

The term-bills for tuition are as follows: for the Fall Term, $30.00; for the Winter Term, $25.00; for the Spring Term, $20.00. A laboratory fee of $5.00 a term is required of students in Chemistry or Physics. There is a graduation fee of $7.00. The term-bills are paid in person by the students, or (request to that effect being made) mailed to the parent or guardian. They are payable at the commencement of the term. Checks should be drawn in favor of the Trustees of Phillips Academy.

BOARD AND LODGINGS

I. Private Houses

About forty private houses in the vicinity of the Academy, under license from the Trustees, provide board and lodgings for students, and no student may occupy a house not thus sanctioned by the School.

Some of these houses provide furnished rooms only; others provide rooms and board, and some of the latter furnish board for students rooming in neighboring houses.

The price of table board in Commons is $3.00, and in private families from $4.00 to $7.00 per week. The price of furnished rooms, including ordinary service, is from $3.00 to $6.00 per week and upwards.

Engagements for rooms in private families continue to the end of the Academic year. Care should, therefore, be exercised in the selection of rooms. Engagements for table board may, on permission and suitable notice, be terminated at the close of any term.

II. Cottages

By the gifts of Mr. Melville C. Day, class of 1858, Mr. Warren F. Draper, class of 1843, and of many citizens of Andover, aided by a few friends outside of Andover, four small dormitories have been built, called respectively, "The Taylor," "The Andover," "The Draper," and "The Bancroft." They are built of brick with granite trimmings, and careful attention has been given to the warming, ventilation, water supply, bath and toilet arrangements, and the drainage. Each building contains apartments for a resident teacher. The Taylor and the Draper contain five double suites for students; the Andover has five double suites and three single rooms; the Bancroft has four double suites, two single suites, and one single room. Each suite has separate bedrooms, an open fireplace, ample closet room, and a storage locker in the attic. Table board for students in these dormitories may be secured in Commons at $3.00, or in private families at $4.00, $5.00, $6.00, or $7.00 per week. Students in the Draper are regarded as rooming in Commons.

These accomodations for four teachers and forty-five pupils are a partial realization of a plan to replace, as fast as funds are provided for the purpose, the present Latin and English Commons with modern buildings, as favorable as possible to the best student life. The income derived from the fees is applied first to maintenance, second to certain life annuities attached the deeds of gifts, and third to the aid of deserving students who need pecuniary aid.

Students who use tobacco in any form, occasionally or habitually, must not apply for these rooms. No furniture is supplied by the school. The fees include the charge for heat and for the care of the rooms.

Price of Rooms for 1897–98.

For a double suite in the Taylor, the Andover, or the Bancroft, each student,	$80.00
For a double suite in the Draper (not including service), each student,	$40.00
For a single suite in the Bancroft,	$100.00
For a single room in the Andover,	$45.00
For a single room in the Bancroft,	$35.00

III. Commons There are fifty-six rooms in Commons for pupils, and four for teachers. Each room is designed for two persons and has two single bedrooms connected with it. The price of rooms is $3.00 per term for each student. The accomodations provided in Commons are very plain, and intended expressly for those who wish to make their expenses small. The rooms are supplied only with tables, and bedsteads for single beds. Bedding is usually brought from home. Stoves and other articles necessary to furnish a room can be obtained here at reasonable prices. Plans of the rooms and other information may be had by addressing the Registrar. Persons who use tobacco, occasionally or habitually, must not apply for rooms in Commons.

Persons who room in Commons are not permitted to pay more than $4.00 per week for table board. Students rooming, without board, in private houses, may board in Commons if there are vacant places. The price of table board by the term is at present $3.00 per week, payable monthly in advance. The rate for the short vacations, and for fractions of a term, is $4.00 a week. The house opens September 13, 1897.

ENDOWMENT AND SCHOLARSHIPS

Beneficiary Aid The *Farrar Fund*, a legacy from the late Treasurer Samuel Farrar, Esq., amounts, with additions from income, to Twenty-Two Thousand Dollars.

The *Students' Educational Fund*, begun with a gift of $100 from the Senior Class of 1854, and enlarged by their efforts to $1,800, now amounts to $5,700. The Trustees desire to increase this fund to at least $25,000, in order to meet the opportunity for assisting worthy young men, ambitious to secure a liberal education.

Scholarships

The following scholarships have been established:

The *Clarke Scholarship* of $1,200, established in 1870 in memory of Mrs. Jane Aiken Clarke.

The Jonathan Taylor Scholarship of $1000, established in 1878 by the late Edward Taylor, in memory of his father.

The *Peter Smith Byers Scholarship* of $500, established in 1878 by the late John Byers.

The *French Scholarship* of $1000, established in 1879 by the bequest of Hiram W. French.

The *Class of 1878 Scholarship* of $500, established by the Classical class of 1878.

The *Caroline Parker Taylor Scholarship* of $1000, eslablished in 1880 by Mrs. Alpheus Hardy.

The *Gerald Sumner Wiggin Scholarship* of $1000, established in 1882 by the bequest of Lady Elizabeth Sumner Buckley-Mathew Fleming.

The *Charles L. Flint Scholarship* of $5000, established in 1890 by the bequest of Hon. Charles L. Flint.

The *Emma Lane Smyth Scholarship* of $1000, established in 1890 by Ex-Gov. Frederick Smyth.

The *James and Persis Taylor Scholarship* of $1000, established in 1890 by Mrs. Mary E. Fairbanks.

The *Henry P. Haven Scholarship* of $1000, established in 1890, by the estate of Henry P. Haven.

The *Dowe Scholarship Fund* of $3000, established in 1892 by the bequest of John Dowe.

The *John Cornell Scholarship Fund* of $5000, established in 1894 by the bequest of the late John Cornell.

The *James Calvin Taylor Scholarship* of $1000, established in 1895 by his sister, Mrs. Mary E. Fairbanks.

A limited number of deserving students who intend to complete the classical course preparatory for college can be admitted free of tuition, or at a reduced rate, on furnishing to the Principal satisfactory evidence that their circumstances are such as to render the aid necessary. A high grade of scholarship is necessary to the continuance of this aid. Careful preliminary correspondence should be conducted by those who desire this assistance. Students of the Scientific Department are not admitted free of tuition, but in special cases they may receive aid from the beneficiary funds.

Besides remitting the tuition fees, the Academy has been able to aid a few young men during the past year from the income of the above funds, in sums varying from $10.00 to $50.00, according to their circumstances. Conduct and scholarship, as well as pecuniary necessities, are considered in the distribution.

Endowment In addition to the early endowments by Hon. Samuel Phillips, Dr. John Phillips, Hon. Wm. Phillips, Lieut.-Gov. Samuel Phillips, His Honor William Phillips, and others, and the Scholarship Prizes, and Charity-funds mentioned elsewhere, gifts for buildings and for general purposes amounting to $71,000 have been more recently received (1878–96), and endowments have been made as follows: George Peabody Foundation for Natural Sciences (1866), $25,000; Samuel H. Taylor Fund (1871), $3.700; John C. Phillips Foundation of the Latin Department (1878), $25,000; Peter Smith Byers Foundation for the Principalship (1879), $40,000; Alden Educational Fund (1881), $5,000; Stone Educational Fund (1884), $25,000 W. F. Draper Fund (1887), $2,500.

Libraries The "Samuel H. Taylor Memorial Library" contains about 2,500 books, including the valuable classical library of the late Principal, Dr. Taylor, which was presented to the school (1876) by his sister, Mrs. Horace Fairbanks of St. Johnsbury, Vt.

The "Associate Library" belongs jointly to the Philomathean Society and the Society of Inquiry, and contains 800 volumes. There are small special libraries in English, Classics, History, and Natural Science. The library of the Theological Seminary, and the Memorial Hall Public Library, aggregating 60,000 volumes, are accessible for consultation daily.

School Organizations

Among the School Organizations, maintained by the students, are the following: RELIGIOUS, The Society of Inquiry; DEBATING, The Philomathean Society, Forum; SCHOOL PAPERS, The Phillipian (semi-weekly), The Mirror (monthly), The Pot Pourri (annual); MUSICAL, The Glee Club, Banjo Club, Mandolin Club; THE ATHLETIC UNION, comprising the Base Ball, Foot Ball, Athletic and Tennis Associations; also the Camera Club, Chess Club, Dramatic Club, Gun Club, Skating Association, etc.

Location, etc.

Andover is a town of six thousand inhabitants, situated on the Western Division of the Boston and Maine Railroad, twenty miles north of Boston. It is the seat of the Andover Theological Seminary, Prof. George Harris, D. D., President of the Faculty, and of the Abbot Academy for young ladies, Miss Laura S. Watson, Principal. For convenience the following additional addresses are given: John Tyler Kimball, Cashier of the Andover National Bank; John Kimball, Station Agent, Boston and Maine Railroad; E. P. Hitchcock, proprietor of the "Mansion House," the local hotel connected with the institutions; Warren F. Draper, the "Andover Publications;" George A. Higgins, the Andover Bookstore; John N. Cole, the *Townsman*, and the Andover Press.

ENTRANCE EXAMINATIONS, 1897

JUNE 25, OCCUPYING ONE DAY; ALSO SEPT. 15 AND 16, OCCUPYING TWO DAYS. REGISTRATION AT 9 A.M.

CLASSICAL DEPARTMENT

JUNIOR CLASS:

Arithmetic, complete, except the Metric System.
English Grammar, elementary.
Reading and Spelling.
Geography, Modern Political.

JUNIOR MIDDLE CLASS:

Arithmetic, complete, including the Metric System.
Algebra, complete.
English Grammar.
Latin Grammar and Exercises.
Caesar, Gallic War, Books II and III.

MIDDLE CLASS:

Arithmetic, complete, including the Metric System.
Algebra, complete.
English Composition.
Latin Grammar and Exercises.
Caesar, Gallic War, five books.
Nepos, five lives.
Ovid, 1500 verses.
Latin Prosody.
Greek Grammar and Exercises.
French or German, Exercises and translation, covering a full year's work.

SENIOR CLASS:

Arithmetic, complete, including the Metric System.
Algebra, complete.
English Composition.
Latin Grammar and Exercises.
Caesar, Gallic War, five books.
Cicero, seven orations.
Latin Composition.
Latin Prosody.
Greek Grammar and Exercises.
Xenophon, Anabasis, four books.
Greek Composition.
French *or* German, a full year's work.
Greek History.
Roman History.

(See note on following page.)

SCIENTIFIC DEPARTMENT

JUNIOR CLASS:

Arithmetic, to Percentage.
English Grammar, elementary.
Reading and Spelling.
Geography, Modern Political.

JUNIOR MIDDLE CLASS:

Arithmetic, complete.
Algebra, to Equations.
English Grammar, complete.
Latin Grammar and Exercises.
Translation of simple selections, from the Latin.

MIDDLE CLASS:

- Arithmetic, complete.
- Algebra, complete.
- English Composition.
- Latin Grammar and Exercises.
- Caesar, Gallic War, four books.
- French or German, Exercises and translation, covering a full year's work.

SENIOR CLASS:

- Arithmetic, complete.
- Algebra, complete.
- Plane Geometry, complete.
- English Composition.
- Latin Grammar and Exercises.
- Caesar, Gallic War, four books.
- French or German, a full year's work.
- English History.
- Botany.
- Chemistry (as a substitute for Latin authors only), General Chemistry and Elementary Qualitative Analysis.

NOTE.—College certificates in the various subjects are accepted in place of the above examinations, and are required of all candidates for the Senior Classes. A college certificate is not sufficient for admission to these classes, unless the number of subjects passed is above the minimum and well distributed over the full list offered by the college.

Candidates may present testimonials and term reports as collateral evidence of their attainments and proficiency.

COURSE OF STUDY

SYNOPSIS

	CLASSICAL	HOURS	SCIENTIFIC	HOURS
JUNIOR YEAR	Algebra, complete	4	Arithmetic, followed by Algebra, second term	4
	Geometry, elementary and constructive	2	Geometry, elementary and constructive	2
	Latin	6	Latin	6

CLASSICAL DEPARTMENT

The course of study is designed to furnish adequate preparation for any college. It is decidedly advantageous for students to take the entire course in the Academy. The languages are taught with a view to the student's progressive development. In the early study emphasis is laid upon the thorough knowledge of the forms and ordinary usages of the language. Composition work is insisted upon from the beginning. Later, effort is directed toward accuracy and nicety of translation, accompanied by critical study of syntax. In the study of poetry attention is called to the differences between poetic and prose diction. In the higher classes the elements of style and of literary criticism are studied and the student is trained to facility in reading at sight. Throughout the course he is taught to notice and to value thoughts as well as words. An especially selected library affords opportunity for students to acquire the habit of supplementary reading.

Harvard or Yale preliminary certificates, at the discretion of the instructors in charge of the various departments, are accepted as equivalents for courses passed. Candidates for the Senior Class must take a college preliminary examination and obtain a certificate.

A variety of optional and extra studies is offered, especially in the Senior year, to meet the wants of students who are fitting for definite college requirements, or are to enter advanced divisions at the colleges, and also to provide for ambitious students who may wish to broaden their preparation. Members of the Senior Class select such subjects as are needed to complete their preparation for college and for the remainder of their schedule may elect any subjects in the Course of Study, of either department, not already completed. The classes in Physics and Chemistry have excellent facilities for practical work in the laboratories.

CLASSICAL COURSE

CLASS IV

JUNIOR

FIRST TERM:

LATIN.—Lessons. 6 hours.

MATHEMATICS.—Algebra, begun. 4 hours. Elementary Geometry. 2 hours.

ENGLISH.—Grammar and Analysis. 4 hours.

SECOND TERM:

LATIN.—Lessons completed. Grammar. Viri Romae, selections, 25 pages. Exercises in writing. 6 hours.

MATHEMATICS.—Algebra, continued. 4 hours. Elementary Geometry. 2 hours.

ENGLISH.—Reading. Study of words. Composition. 4 hours.

THIRD TERM:

LATIN.—Caesar. Gallic War, Books II, III. Composition (Daniell, Part I. § 56–90.) 6 hours.

MATHEMATICS.—Algebra, completed. 4 hours. Elementary Geometry. 2 hours.

ENGLISH.—Reading. Correction. Composition. 4 hours.

NOTE.—The amount of Latin reading done in the Junior year must be estimated on the basis of six recitations a week, full hour periods, and involving a large amount of drill as well as instruction. The course in Elementary Geometry includes rule and compass practice and constant use of the Metric System. The construction and the measurement of simple geometrical figuyes are emphasized rather than the theory of demonstration.

CLASS III

JUNIOR MIDDLE

FIRST TERM:

LATIN.—Caesar, Gallic War, Books I, IV and V. Nepos, selections, six lives. Reading at sight. Composition (Jones, 15 lessons.) 6 hours.

GREEK.—White's First Greek Book. 4 hours.

MODERN LANGUAGES.—French or German. 4 hours.

ENGLISH.—Readings. College requirements. Compositions. 2 hours.

SECOND TERM:

LATIN.—Caesar, Nepos. Ovid, begun. Prosody. Composition (Jones, through lesson 35). 6 hours.

GREEK.—White's First Greek Book. 4 hours.

MODERN LANGUAGES.—French or German. 4 hours.

ENGLISH.—Readings. Punctuation. 2 hours.

THIRD TERM:

LATIN.—Ovid, 1,500 verses. Composition (Jones, completed. Collar, 16 lessons.) Written Translations. 6 hours.

GREEK.—White's First Greek Book. Xenophon, Anabasis, Book I, Chaps. I--V. 4 hours.

MODERN LANGUAGES.—French or German. 4 hours.

ENGLISH.—Reading. Exercises in Composition. 2 hours.

CLASS II

MIDDLE

FIRST TERM:

LATIN.—Cicero, Catiline Orations. Reading at sight. Composition (Collar, 10 lessons, or Moulton, 20 chapters on Cicero). 5 hours.

GREEK.—Xenophon, Anabasis, Book I, Chaps. VI--X, Book II. Composition. 5 hours.

MODERN LANGUAGES.—French or German. 1 hour.

HISTORY.—Greek History. 3 hours.

MATHEMATICS.—Algebra. 2 hours.

ENGLISH —Readings. Narrative and Descriptive Composition. 2 hours.

SECOND TERM:

LATIN.—Cicero, Manilian Law, Archias, Marcellus. Written Translations. Composition (Collar, 16 lessons, or Daniell, Part II, 12 written exercises, or Moulton, on Manilian Law and Archias.) 5 hours.

GREEK.—Xenophon, Anabasis, Books III, IV. Composition. 5 hrs.

MODERN LANGUAGES.—French or German; prose selections. 1 hour.

HISTORY.—Greek and Roman History. 3 hours.

MATHEMATICS.—Algebra. 2 hours.

ENGLISH.—Readings. Narrative and Descriptive Composition. 2 hours.

THIRD TERM:

LATIN.—Cicero, Milo, Caesar. Gallic War, reviewed. Nepos, selections at sight. Composition. 5 hours.

GREEK.—Hellenica, selections. Composition. Reviews. 5 hours.

MODERN LANGUAGES.—French or German, prose selections. 1 hour.

HISTORY. Roman History. 3 hours.

MATHEMATICS.—Algebra. 2 hours.

ENGLISH.—Readings. Augmentative Composition. 2 hours.

NOTE.—An opportunity is given by an increasing number of colleges to pass a preliminary examination in a part of the subjects required for admission. June examinations, both preliminary and final, are held in Andover, by Harvard, Yale and Princeton colleges.

In order to define the work of the pupil in his last year, it is required that he pass one of these preliminary examinations.

CLASS I

SENIOR

FIRST TERM:

LATIN.—Vergil, Æneid. Books I–III. Prosody. Idioms. Composition. Reading at sight. Roman Antiquities. 4 hours.

GREEK.—Homer, 1200 verses. Composition. 4 hours.

MATHEMATICS.—Plane Geometry or Trigonometry. 4 hours.

NATURAL SCIENCE.—Physics. 4 hours, or

MODERN LANGUAGES.—French or German, Class III or Class A. 4 hours or

HISTORY.—Political Economy. 2 hours.

ENGLISH.—Reading in College Requirements. Extempore Composition. 2 hours.

SECOND TERM:

LATIN.—Vergil, Æneid. Books IV–VI, VIII. Composition. Reading at sight. Roman Antiquities. 4 hours.

GREEK.—Homer, 1800 verses. Greek Antiquities (Mahaffy). Composition. 4 hours.

MATHEMATICS.—Plane Geometry or Solid Geometry. 4 hours.

NATURAL SCIENCE.—Physics. 4 hours, or

MODERN LANGUAGES.—French or German, Class III, or Class A. 4 hours, or

HISTORY.—Political Economy. 2 hours.

ENGLISH.—Reading in College Requirements. Extempore Composition. 2 hours.

THIRD TERM:

LATIN.—Vergil, Æneid, Book IX. Cicero, reviews. Reading at sight. Latin Literature. Composition. 4 hours.

GREEK.—Homer, 2000 verses. Introduction to Study of Homer (Jebb). Reviews. Composition. 4 hours.

MATHEMATICS.—Plane Geometry or Analytical Geometry. 4 hours.

NATURAL SCIENCE.—Physics, 4 hours, or

MODERN LANGUAGES.—French or German, Class III, or Class A. 4 hours, or

HISTORY.—Political Economy. 2 hours.

ENGLISH.—Essays. 2 hours.

CLASSICAL COURSE—NOTES

GREEK

Junior Middle Year.—The first year is devoted mainly to memoizing the forms of the language and fixing a few important principles of syntax. The class is constantly drilled to reproduce paradigms accurately and rapidly, as well as to inflect new words. The importance of review work is emphasized at every recitation. Black-board work occupies much of the time; this work the class is called upon to criticize. By an equal share of oral work the ear is trained to detect inaccuracy in accent or pronunciation. A ready command of the vocabularies is required; to secure this, there is both oral and written work, and writing Greek words at dictation is practiced.

The hours are varied with frequent exercises in translation, English into Greek as well as Greek into English, and occasional talks about Greek life. During the third term a simplified text of the first book of the Anabasis is used.

Middle Year.—The second year is occupied with reading Xenophon's Anabasis, Books I–IV, sight reading, translation from English into Greek, and grammar reviews. Great effort is made to secure simple, idiomatic English in both oral and written work. A portion of the following day's lesson is often translated at sight, and towards the end of the year, other works, particularly Xenophon's Hellenica, are used with special reference to sight reading.

Grammar and composition are studied through the year, the method being the same as during the first year; skill in writing Greek is made a chief object of this year's work.

SENIOR YEAR.—The third year is spent mainly in reading selected books from the Iliad and Odyssey. The work of the year is much broader in scope, however, than before. After the dialect is thoroughly mastered, more attention is given to the literary side of the poems; the art of translation is discussed; carefully prepared renderings in prose and metre are made by the class and read aloud. Much attention is paid to the translation of sight passages; in this there is almost daily practice, the object being to acquire ability to read large portions of Homer rapidly and with pleasure.

The study of antiquities and literature introduced during the second and third terms is intended to give a general survey of these subjects, and stimulate an interest in further reading.

LATIN

JUNIOR YEAR.—The Latin work of the Junior year consists of strict, unremitting drill in the essentials of the grammar, with the view to securing accuracy and ease in the use of forms. Careful training is given in methods of study. The student is taught from the beginning to grasp the concepts as well as the English equivalents of Latin terms, and to notice the order of thought in sentences. There is daily practice in the writing of Latin.

JUNIOR MIDDLE YEAR.—In the Latin of the Junior Middle year exceptional stress is laid upon a study of the grammatical relation of words in sentences. Case constructions are accurately discriminated and explained; the ordinary uses of the subjunctive and the infinitive are interpreted; and the more common idioms of Caesar are noticed.

The composition course is specially adapted to furnish ample practice in syntax, and to fit the student for the writing of simple connected narrative.

MIDDLE YEAR.—In the Middle year the course in Cicero aims towards the mastery of an extended vocabulary, an elementary knowledge of

synonyms, an accurate discrimination of grammatical constructions, and facility in reading the Latin. The student is encouraged to notice and appreciate beauty of thought and of expression. In rendering Latin into English carelessness in diction is not tolerated. Special efforts are made to render the student familiar with the chief characteristics of Cicero's oratory and with the history of his time.

The work in prose composition is devoted to connected narrative.

Senior Year.—In this year the Latin study broadens with the view to promoting a scholarly ease in the reading of the literature prescribed. Poetical constructions and peculiar uses of words are subjects of special study. Practice in reading the hexameter rhythmically forms an essential feature of the study of Virgil. No effort is spared to induce a thorough understanding of the thought read, and an appreciation of its literary expression. Linguistic study is directed towards a wider knowledge of word-formation, and of the principles of syntax. Examinations are set largely from passages not previously seen by the student.

The study of Roman life aims to give a general survey of the subject.

MATHEMATICS

Senior Year.—The course in Plane Geometry provides not only for drill in logical demonstration but for the original and intelligent solution of a large number of exercises. The course in Trigonometry, Solid Geometry and Analytical Geometry is open only to those who have completed a thorough course in Plane Geometry.

SCIENTIFIC DEPARTMENT

The object in this department, established in 1830, is to afford a substantial course of study, chiefly on the basis of Mathematics and the Natural Sciences, with History, Latin, Modern Languages and Literature.

The Course of Study is designed to furnish thorough preparation for the Lawrence Scientific School of Harvard University, the Sheffield Scientific School of Yale University, the Massachusetts Institute of Technology, and other scientific schools and colleges.

For illustrating the principals of Natural Philosophy the school is provided with excellent apparatus, which is used in lectures given in connection with the text-books. There is a well-equipped Physical Laboratory, for experimental work. An appropriation of $300 is made each year to procure the latest and best instruments.

The Academy is provided with a full set of instruments for courses in practical surveying, consisting of a solar transit, surveyor's compasses, levels, and other appliances.

The Science Building furnishes ample accommodations for the departments of Physics and Chemistry. The building contains, besides recitation rooms, a lecture room, a draughting room, a Physical and a Chemical Laboratory, thoroughly equipped for individual work.

The Newton Cabinet contains several thousand specimens of rocks, minerals, fossils, insects, shells, and other illustrations of Natural History, and a small collection of coins, stone implements, and other valuable antiquities.

SCIENTIFIC COURSE

CLASS D

JUNIOR

FIRST TERM:

MATHEMATICS.—Arithmetic, including the Metric System, reviewed and completed. 4 hours. Elementary Geometry. 2 hours.

LATIN.—Lessons. 6 hours.

ENGLISH.—Grammar. Reading and Spelling. 4 hours.

SECOND TERM:

MATHEMATICS.—Algebra, to Fractions. 4 hours. Elementary Geometry. 2 hours.

LATIN.—Lessons, continued. 6 hours.

ENGLISH.—Grammar, continued. Reading and Spelling. 4 hours.

THIRD TERM:

MATHEMATICS.—Algebra, to Equations. 4 hours. Elementary Geometry. 2 hours.

LATIN.—Gradatim, selections. Exercises in writing Latin. 6 hours.

ENGLISH.—Parsing and Analysis. Reading and Spelling. 4 hours.

CLASS C

JUNIOR MIDDLE

FIRST TERM:

MATHEMATICS.— Algebra, to Quadratic Equations. 4 hours.

ENGLISH.— Readings. Exercises in Composition. 4 hours.

MODERN LANGUAGES.— French or German. 4 hours.

LATIN.— Nepos, selections. Caesar, Gallic War, begun. Composition. 4 hours.

NATURAL SCIENCE.— Chemistry, Non-metallic Elements. 2 hours.

SECOND TERM:

MATHEMATICS.— Algebra, to Progression. 4 hours.

ENGLISH.— Readings. Exercises in Composition. 4 hours.

MODERN LANGUAGES.— French or German. 4 hours.

LATIN.— Caesar, Gallic War, continued. Composition. 4 hours.

NATURAL SCIENCE.— Chemistry, Non-metallic Elements. 2 hours.

THIRD TERM:

MATHEMATICS.— Algebra, completed and reviewed. 4 hours.

ENGLISH.— Reading. Rhetoric. 4 hours.

MODERN LANGUAGES.— French or German. 4 hours.

LATIN.— Caesar, Gallic War, continued. Composition. 4 hours.

NATURAL SCIENCE.— Chemistry, Non-metallic Elements. 2 hours.

NOTE.— At least four books of the Gallic War are read during the year.

CLASS B

MIDDLE

FIRST TERM:

MATHEMATICS.—Plane Geometry, begun. 4 hours. Algebra. 2 hours.

NATURAL SCIENCE.—Chemistry, Metallic Elements and Elementary Qualitative Analysis. 4 hours, or

LATIN.—Caesar, Gallic War, completed. 2 hours, and

BOTANY.—2 hours.

MODERN LANGUAGES.—French or German. 2 hours.

HISTORY.—English History. 4 hours.

ENGLISH.—Literature and Themes. 2 hours.

SECOND TERM:

MATHEMATICS.—Plane Geometry. 4 hours. Algebra. 2 hours.

NATURAL SCIENCE.—Chemistry, Metallic Elements and Elementary Qualitative Analysis. 4 hours, or

LATIN.—Caesar, Gallic War, reviewed. 2 hours, and

BOTANY.—2 hours.

MODERN LANGUAGES.—French or German. 2 hours.

HISTORY.—English History. 4 hours.

ENGLISH.—Literature and Themes. 2 hours.

THIRD TERM:

MATHEMATICS.—Plane Geometry, completed. 4 hours. Algebra. 2 hours.

NATURAL SCIENCE.—Chemistry, Metallic Elements and Elementary Qualitative Analysis. 4 hours, or

LATIN.—Caesar, Gallic War, reviewed. Composition. 2 hours, and

BOTANY.—2 hours.

MODERN LANGUAGES.—French or German. 2 hours.

HISTORY.—English History. 4 hours.

ENGLISH.—Literature and Themes. 2 hours.

NOTE.—An opportunity is given by many scientific schools to pass preliminary examination in a part of the subjects required for admission. The course of study is arranged with this in view, and pupils are required to pass this examination as a preparation also for the Senior Year. Candidates for the Lawrence Scientific School of Harvard University, the Sheffield Scientific School of Yale University, the John C. Green School of Science of Princeton University, and the Rensselaer Polytechnic Institute. Troy, N. Y., may be examined in Andover.

CLASS A

SENIOR

FIRST TERM:

MATHEMATICS.— Plane Trigonometry. 4 hours.
PHYSICS.— 4 hours, or
LATIN.— Vergil, Æneid. 4 hours.
MODERN LANGUAGES.—Advanced French or German. 4 hours, or
CHEMISTRY.— See Class B. 4 hours.
HISTORY.— United States, or Political Economy. 2 hours.
ENGLISH.— English Literature. 2 hours.
DRAWING.— Mechanical. 2 hours.

SECOND TERM:

MATHEMATICS.— Solid Geometry. 4 hours.
PHYSICS.— 4 hours, or
LATIN.— Vergil, Æneid. 4 hours.
MODERN LANGUAGES.—Advanced French or German. 4 hours, or
CHEMISTRY.— See Class B. 4 hours.
HISTORY.— United States, or Political Economy. 2 hours.
ENGLISH.— English Literature. 2 hours.
DRAWING.— Mechanical. 2 hours.

THIRD TERM:

MATHEMATICS.— Reviews. 4 hours.
PHYSICS.— 4 hours, or
LATIN.— Vergil, Æneid. Reviews. 4 hours.
MODERN LANGUAGES.—Advanced French or German. 4 hours, or

Woolsey, Convers Buckingham	*Englewood, N. J.*	Mr. Ellis's
Young, Arthur Jewett	*Brunswick, Me.*	Mr. McCurdy's

SENIORS, 68

NOTE.—The following members of the class of 1896 have entered college the present year:

HARVARD.—

Frederick William Aldred
William Galliford Bale
Edward Clark Carter
Marlborough Churchill
Harry Gilman Clough
Harry Justin Colburn
Wingate Franklin Cram (1895)
Charles Willoughby Dayton (1895)
Arthur Drinkwater
Walter Prichard Eaton
James Pike Ellicott
William Blair Flandrau
Roger Sawyer Forbes
Foster Regnier Greene
William Jones
Robert Morrill McCurdy
James Francis Morrison
Frederic Palmer, jr.
Henry George Parchen
John Madison Raynolds
James Austin Richards
Philip Sands
Irving Wilder Sargent
Frederick Henry Steenstra
John Taylor Williams

YALE.—

Benjamin Stearns Adams
Frederic Winthrop Allen
Edwin Carlos Andrews
Harold Sears Arnold
Ralph Kirk Askew
Frank Marion Atterholt, jr.
Harry Woodruff Babcock
Leonard Albert Hochstadter
Ralph Emerson Hutchinson
Harry Otis Johnson
John Everett Keach
Vincent Paddock Lobdell
George Sterling McCartin
Robert McCormick

Alanson Judson Baker
Frederick Pomeroy Bassett
Harry Judson Beardsley
Hugh Taylor Birch, jr.
Ferdinand William Blumenthal
Kenneth Bruce
Kenneth Lovejoy Burns
Robert Woods Chandler
Moses Fowler Chase (1895)
George Musalas Colvocoresses
Louis Aldrich Cook
Henry Hamlin Craig (1894)
Frank Taylor Crawford
Jesse Dwight Dana
Malcolm Douglas
Gayton Ballard Ellis
Thomas Emlen Franklin
David Edgar French, jr.
Arthur Stanley Goodwin
Harrison Gray
Edward Chace Greene
James Cowan Greenway
Parker Ross Grubb (1895)
Andrew Burt Heiskell
Burns Henry
Reuben Henry Hilton
Ernest Clare McGouldrick
William Raymond Maloney, jr.
Jesse Wright Miller
Charles Monson, jr.
Joy Leslie Moore
Albert Cardoza Newcombe
Walter Sharp Page
Edwards Albert Park
Charles Max Perry
John Cleveland Phillips
Horace Martin Poynter
Richard Jewett Schweppe
Rollin Aaron Spalding, jr.
Thomas Henry Spence (1895)
Garrett Stevens
Robert Stevenson, jr.
Warner Varnum Taylor
David Ogle Thomas
Charles Terry Treadway
Carlisle Bronson Tuttle
Roger Pierpont Tyler
Albert William Van Buren
George Hoyt Whipple
Henry Parmelee Wickes
Herbert Gilman Williams
Harry Parker Wood
George Ludington Young

AMHERST.—
Albert Barnes Franklin, jr.
Hamilton Griswold Merrill

BROWN.—Harry Irving Gaskill

DARTMOUTH.—
Ralph Martin Barton
Natt Waldo Emerson
Arthur Stanley Roberts

PRINCETON.—
Walter Cowles Booth
Edwin Doddridge DeWitt
Arthur Ralph Thomas Hillebrand

ST JOHN'S ECCLESIASTICAL SEMINARY, BRIGHTON.—
Daniel Joseph Heffernan

WILLIAMS.—
Harrison Morgan Brown
George Montgomery Chadwell
Franklin Boyd Edwards
James Barbour Richardson
Everett Edwin Risley

UNIVERSITY OF ROCHESTER.—Newton Mott Sibley Morse

CLASS II — MIDDLERS

NAMES	RESIDENCES	ROOMS
X Abbot, Gardner	*Cleveland, O.*	Mrs. Foster's
X Ames, Adelbert, jr.	*Lowell*	Miss Cheever's
X Amsden, Gilbert Traver	*Rochester, N. Y.*	Andover 7
X Babcock, George Wheeler	*Neenah, Wis.*	Mr. W. T. Jackson's
Ballard, Alvan Roswell	*Fall River*	Mrs. Wilde's
X Bancroft, Phillips	*Andover*	Dr. Bancroft's
X Boynton, Eleazar Bradley	*Malden*	Mr. C. L. Carpenter's
X Bullock, Edward Jarvis Cushing	*Warren, R. I.*	Mr. Ellis's
X Burdick, Julian Winsor	*Albany, N. Y.*	Miss Cheever's
Callahan, John Laurence	*North Andover*	L. C. 4. 2
X Carpenter, George Boone	*Chicago, Ill.*	Mrs. E. A. Whitney's
X Chapman, Charles Edward	*Franklin Falls, N. H.*	L. C. 5. 5

CANDIDATE FOR CLASS ______________________

PHILLIPS ACADEMY, ANDOVER, MASS.

Candidates for admission to the Academy are requested to fill out the following blank, giving as minute and accurate answers to the questions as possible. The items of information furnished will assist the school officers to determine the proper classification of the student. All new students will take the entrance examinations, as scheduled on page 16 of the annual catalogue, in subjects already pursued by the class which they propose to enter. These examinations are waived only in case of subjects already passed for admission to college and then at the discretion of the instructors in charge of the various departments. Candidates are required to furnish certificates of standing in their last schools, and also testimonials that they sustain a good moral character.

LIST OF STUDIES PREVIOUSLY PURSUED.

FACULTY

CECIL F. P. BANCROFT, PH.D., LL.D., PRINCIPAL,
On the Peter Smith Byers Memorial Foundation

MATTHEW S. McCURDY, M.A.,
Instructor in Mathematics

WILLIAM B. GRAVES, M.A.,
Professor of Natural Sciences on the George Peabody Foundation

GEORGE T. EATON, M.A.,
Instructor in Mathematics

GEORGE D. PETTEE, M.A.,
Instructor in Mathematics and Registrar

WILLIAM H. TERRILL, M.A.,
Instructor in Greek and Latin

C. EMERSON STONE, PH.B.,
Instructor in French

CHARLES H. FORBES, B.A.,
Professor of Latin on the John C. Phillips Foundation

HENRY W. BOYNTON, M.A.,
Instructor in English

WALTER R. NEWTON, M.A.,
Instructor in German

ARCHIBALD FREEMAN, M.A.,
Instructor in History

ALLEN R. BENNER, B.A.,
Instructor in Greek

JAMES C. GRAHAM, B.S.,
Instructor in Chemistry

BERNARD M. ALLEN, B.A.,
Instructor in Latin

JOHN L. PHILLIPS, B.A.,
Instructor in Latin

HOWARD I. FORD, B.A.,
Instructor in English

FREDERICK E. NEWTON, Ph.B.,
Instructor in Mathematics

ARTHUR W. RYDER, B.A.,
Instructor in Latin

EDWIN T. BREWSTER, M.A.,
Assistant in Natural Sciences

Prof. JOHN WESLEY CHURCHILL, M.A.,
Instructor in Elocution

ALFRED E. STEARNS, B.A.,
Athletic Director

PHILLIPS ACADEMY

The Phillips Academy was founded at Andover on the twenty-first of April, 1778, by the gifts of Hon. Samuel Phillips and his brother Hon. John Phillips, consisting of about 141 acres of land in Andover purchased for the purpose, and about 200 acres of land in Jaffrey, N. H., together with the sum of one thousand six hundred and fourteen pounds. The deed of gift which is known as "The Constitution of Phillips Academy" was drawn up, as appears from contemporary documents, largely under the influence of Samuel Phillips, jr., and Eliphalet Pearson, two young men whose friendship in school and college, and whose sympathy in the religious and patriotic movements of the times made them mutually helpful in the project of founding a new institution of learning, and, as it proved, a new type of institution. Dr. Pearson became the first principal, and Judge Phillips fostered the school till his death in 1802 with assiduous devotion.

The main purpose and scope of the school are shown in the opening paragraphs of the constitution, as follows:

> "A short reflection upon the grand design of the great Parent of the Universe in the creation of mankind, and the improvements of which the mind is capable both in knowledge and virtue, as well as upon the prevalence of ignorance and vice, disorder and wickedness, and upon the direct tendency and certain issue of such a course of things, must occasion, in a thoughtful mind, an earnest solicitude to find the source of these evils and their remedy; and a small acquaintance with the qualities of young minds,—how susceptible and tenacious they are of impressions, evidences that youth is the important period, on the improvement or neglect of which depend the most important consequences to individuals themselves and the community.
>
> A serious consideration of the premises, and an observation of the growing neglect of youth, have excited in us a painful anxiety for the event, and determined us to make, in the following Conveyance, a hum-

ble dedication to our Heavenly Benefactor of the ability, wherewith he hath blessed us, to lay the foundation of a public free school or academy for the purpose of instructing Youth, not only in English and Latin Grammar, Writing, Arithmetic, and those Sciences, wherein they are commonly taught; but more especially to learn them the great end and real business of living.

Earnestly wishing that this Institution may grow and flourish; that the advantages of it may be extensive and lasting; that its usefulness may be so manifest, as to lead the way to other establishments on the same principles; and that it may finally prove an eminent means of advancing the Interest of the great Redeemer, to His patronage and blessing we humbly commit it."

The first trustees were Samuel Phillips of Andover, John Phillips of Exeter, William Phillips of Boston, Oliver Wendell of Boston, John Lowell of Boston, Rev. Josiah Stearns of Epping, Rev. Elias Smith of Middleton, Rev. William Symmes, Rev. Jonathan French, Samuel Phillips, jr., and Nehemiah Abbot of Andover, — men whose services and benefactions, at Andover and elsewhere, were to become memorable in the history of American education.

Provision having been made for the organization and succession of the trustees, the management of the property, the appointment of teachers and the admission of pupils, the constitution continues:

"It shall ever be considered as the first and principal duty of the Master to regulate the tempers, to enlarge the minds, and form the Morals of the youth, committed to his care.

There shall be taught in this Seminary the English, Latin and Greek Languages, Writing, Arithmetic, Music and the Art of Speaking; also practical Geometry, Logic, and any other of the liberal Arts and Sciences, or Languages, as opportunity and ability may hereafter admit, and as the Trustees shall direct.

The Master is to give special attention to the health of the Scholars, and ever to urge the importance of a habit of Industry. But, above all, it is expected, that the Master's attention to the disposition of the Minds and Morals of the Youth under his charge will exceed every other care; well considering that, though goodness without knowledge (as it respects others) is weak and feeble; yet knowledge without goodness is dangerous; and that both united form the noblest character, and lay the surest foundation of usefulness to mankind.

It is therefore required that he most attentively and vigorously guard against the earliest irregularities; that he frequently delineate, in their natural colours, the deformity and odiousness of vice, and the beauty and amiableness of virtue; that he spare no pains, to convince them of their numberless and indispensable obligations to abhor and avoid the former, and to love and practice the latter; of the several great duties they owe to God, their country, their parents, their neighbor and themselves; that he critically and constantly observe the variety of their natural tempers, and solicitously endeavor to bring them under such discipline, as may tend most effectually to promote their own satisfaction and the happiness of others; that he early inure them to contemplate the several connexions and various scenes, incident to human life; furnishing such general maxims of conduct, as may best enable them to pass through all with ease, reputation, and cofort.

And, in order to prevent the smallest perversion of the true intent of this Foundation, it is again declared, that the *first* and *principal* object of this Institution is the promotion of true Piety and Virtue; the *second*, instruction in the English, Latin and Greek Languages, together with Writing, Arithmetic, Music, and the Art of Speaking; the *third*, practical Geometry, Logic, and Geography; and the *fourth*, such other of the liberal Arts and Sciences or Languages, as opportunity and ability may hereafter admit, and as the Trustees all direct."

The school was opened for instruction April 30, 1778, with a group of thirteen pupils. On Oct. 4, 1780, it was incorporated in the last act of the "Great and General Court" previous to the organization of the new state government. The powers of the trustees have been enlarged by the legislature from time to time, notably in the acts conferring the power to hold additional funds, and in the act of June 19, 1807, whereby the Trustees were empowered to receive and hold real and personal estate for the purpose of a separate "Theological Institution." The Andover Theological Seminary, the first of the many theological schools, was accordingly established in the following year.

In 1830, the "Teachers Seminary" was established as another distinct school, an anticipation of the normal schools, and to a less degree, of the scientific schools which have since been planted elsewhere. In 1842 this was merged into the parent Academy and is the present Scientific Department.

By the generous gifts of numerous benefactors, in sums large and small, the original foundations have been much enlarged. The school has been "equally open to youth, of requisite qualifications, from every quarter." It has done a useful work in the education of boys who have not gone to college, and in its time has prepared boys for colleges and scientific schools in unprecedented numbers.

The very prosperity of the school has increased the demands made upon it, and constitutes the appeal for gifts for the maintenance of its efficiency under the demands of "the new education," and for its improvement and advancement in its own appropriate and important field.

The legal name of the corporation is "The Trustees of Phillips Academy," and gifts and bequests should be made to them.

ANNOUNCEMENTS

Terms of Admission Candidates for admission to the Academy are required to present testimonials of good moral character and certificates of standing in the school which has the latest record of their scholarship.

The Academy is not a suitable school for boys who are idle, insubordinate, or lacking in self-control, or for such as require the supervision of a teacher and the routine of a school-room in order to enforce industry and fidelity. Students who are found to be unable or unwilling to meet the school requirements, and those whose influence is injurious, must be withdrawn from the school. As maturity is not always to be measured by years, the school makes no specific requirements as to the age of the candidate. It has been found that boys of fourteen are usually able to meet the responsibilities of the academic life.

Registration The school year begins in September, and while new students may be admitted later, by special examination, it is most advisable that they present themselves promptly at the beginning of the Fall Term. The student registers on the first day of each term as announced in the Calendar, reporting first at the Treasurer's office, to make payment for the dues of the term, and, secondly, to his class officer, who will arrange his schedule of work for the term.

Classification Each successful candidate is enrolled in one of the regular classes and is required to pursue the prescribed work of that class. Deficiencies in preparation, and occasionally other-considerations, sometimes make it necessary for the student to do some work in other classes than his own; but such arrangements should be considered as temporary and exceptional.

The Academy makes no provision for partial students; nor for special students not candidates for graduation from the Academy or for entrance to some reputable college, scientific school, or professional school.

When a student, through failure to maintain his regular classification, loses from his schedule eight or more recitation hours per week, he is assigned to the lower class.

Class Officers

Each student is by his classification assigned to the special care of one of the eight members of the Faculty who are known as class officers. This officer arranges the studies of each member of the class of which he is in charge, keeps particular record of the student's standing and progress, advises him in the choice of his elective studies, conducts correspondence with parents relating to the boy's school life, and exercises general supervision of his welfare, while he remains in the class.

Entrance Examinations

The examinations for the coming school year will be held on Friday, June 24, 1898, at 9 o'clock A. M.; on Wednesday, September 14, 1898, at the same hour, and on the first day of the second and third terms. For examinations held at other times a fee of three dollars will be charged. In order to discover possible deficiencies of preparation, candidates should if possible present themselves in June. The schedule of examinations on page 20 indicates in detail the requirements for admission to the several classes.

Appointments

Morning Chapel, 7.50 A. M.
Recitation and Study Hours, 8 to 12 A. M., 2 to 4 P. M.
Evening Study Hours begin at 8 P. M.
Sunday Chapel Services, 10.30 A. M., and 4.30 P. M.
Half holidays, Wednesday and Saturday afternoons.
Anniversary Holidays, 8 A. M., to 7.30 P. M.

Religious Exercises Students are uniformly required to be present at morning chapel. After the devotional exercises opportunity is given for special announcements, brief school meetings, or other business preliminary to the work of the day. Sunday services for the students are held in the Chapel which is used in common by the Theological Seminary and the Academy. Regular members of the Protestant Episcopal, Baptist, or Roman Catholic congregations may be excused to attend the local churches of these denominations. The Society of Inquiry holds voluntary devotional meetings at 6.45 o'clock on Wednesday and Sunday evenings.

Study Hours During the Recitation and Study Hours, when not engaged in the class-room, students are required to occupy themselves with the preparation of school exercises, or with attendant literary work.

Absences All absences from recitation, morning chapel, Sunday service, or from the student's room during study hours, are to be accounted for; and excuses should be secured in advance, whenever the necessity for such absence can be foreseen.

Holiday Excuses All out-of-town excuses must be obtained from the Principal. Such excuses are granted somewhat freely on half-holidays and the special holidays to those whose school standing is good. The student who goes out of town without permission, forfeits his connection with the school.

Examinations and Promotions Written examinations are held in each study at least once a term; but in most courses the term grading is made largely on the basis of daily work. Near the close of the year reviews are held, with special examinations to determine the student's fitness for promotion or graduation. By way of preparation for college tests these examinations are conducted with strict formality. In all the written exercises of the school year the absolute integrity of the student is assumed, and a student may not retain his connection with the school, who fails to comply with so essential a requirement. In addition to completing the class-room courses, each class is required to pass a satisfactory examination upon a supplementary course of reading. At the close of each term, and at other times when occasion requires, reports of the student's scholarship and attitude toward his work are sent to his parents or guardian.

EXPENSES

Parents can estimate approximately the necessary expenses of their sons here; and it is particularly requested that they do not furnish money beyond what is necessary for ordinary expenses. Pupils who are supplied with much spending money, or who are allowed to make debts, usually accomplish but little in their studies, and are liable to form habits which require their removal from school.

Term bills

The term-bills for tuition are as follows: for the Fall Term, $40.00; for the Winter Term, $30.00; for the Spring Term, $30.00. There is a graduation fee of $7.00. Laboratory fees of $5.00 a term are charged for the fall and winter terms in advanced Chemistry; of $2.50 a term for each term in elementary Chemistry; of $5.00 a term for each term in Physics; and of $2.50 for the winter term in Botany. The term-bills are paid in person by the students, or (request to that effect being made) mailed to the parent or guardian. They are payable at the commencement of the term. Checks should be drawn in favor of the Trustees of Phillips Academy.

BOARD AND LODGINGS

I. Private Houses

About forty private houses in the vicinity of the Academy, under license from the Trustees, provide board and lodgings for students, and no student may occupy a house not thus sanctioned by the School.

Some of these houses provide furnished rooms only; others provide rooms and board, and some of the latter furnish board for students rooming in neighboring houses.

The price of table board in Commons is $3.00, and in private families from $4.00 to $7.00 per week. The price of furnished rooms, including ordinary service, is from $3.00 to $6.00 per week and upwards.

Engagements for rooms in private families continue to the end of the Academic year. Care should, therefore, be exercised in the selection of rooms. Engagements for table board may, on permission and suitable notice, be terminated at the close of any term.

II. Cottages

By the gifts of Mr. Melville C. Day, class of 1858, Mr. Warren F. Draper, class of 1843, and of many citizens of Andover, aided by a few friends outside of Andover, four small dormitories have been built, called respectively, "The Taylor," "The Andover," "The Draper," and "The Bancroft." They are built of brick with granite trimmings, and careful attention has been given to the warming, ventilation, water supply, bath and toilet arrangements, and the drainage. Each building contains apartments for a resident teacher. The Taylor and the Draper contain five double suites for students; the Andover has five double suites and three single rooms; the Bancroft has four double suites, two single suites, and one single room. Each suite has separate bedrooms, an open fireplace, ample closet room, and a storage locker in the attic. Table board for students in these dormitories may be secured in Commons at $3.00, or in private families at $4.00, $5.00, $6.00, or $7.00 per week. Students in the Draper are regarded as rooming in Commons.

These accomodations for four teachers and forty-five pupils are a partial realization of a plan to replace, as fast as funds are provided for the purpose, the present Latin and English Commons with modern buildings, as favorable as possible to the best student life. The income derived from the fees is applied first to maintenance, second to certain life annuities attached to the deeds of gifts, and third to the aid of deserving students who need pecuniary aid.

Students who use tobacco in any form, occasionally or habitually, must not apply for these rooms. No furniture is supplied by the school. The fees include the charge for heat and for the care of the rooms.

Price of Rooms for 1898–99.

For a double suite in the Taylor, the Andover, or the Bancroft, each student,	$80.00
For a double suite in the Draper (not including service), each student,	$40.00
For a single suite in the Bancroft,	$100.00
For a single room in the Andover,	$45.00
For a single room in the Bancroft,	$35.00

III. Commons

There are fifty-six rooms in Commons for pupils, and four for teachers. Each room is designed for two persons and has two single bedrooms connected with it. The price of rooms is $3.00 per term for each student. The accomodations provided in Commons are very plain, and intended expressly for those who wish to make their expenses small. The rooms are supplied only with tables and bedsteads for single beds. Bedding is usually brought from home. Stoves and other articles necessary to furnish a room can be obtained here at reasonable prices. Plans of the rooms and other information may be had by addressing the Registrar. Persons who use tobacco, occasionally or habitually, must not apply for rooms in Commons.

Persons who room in Commons are not permitted to pay more than $4.00 per week for table board. Students rooming, without board, in private houses, may board in Commons if there are vacant places. The price of table board by the term is at present $3.00 per week, payable monthly in advance, The rate for the short vacations, and for fractions of a term, is $4.00 a week. The house opens September 12. 1898.

ENDOWMENT AND SCHOLARSHIPS

Beneficiary Aid

The *Farrar Fund*, a legacy from the late Treasurer Samuel Farrar, Esq., amounts, with additions from income, to Twenty-Two Thousand Dollars.

The *Students' Educational Fund*, begun with a gift of $100 from the Senior Class of 1854, and enlarged by their efforts to $1,800, now amounts to $5,700. The Trustees desire to increase this fund to at least $25,000, in order to meet the opportunity for assisting worthy young men, ambitious to secure a liberal education.

Scholarships

The following scholarships have been established:

The *Clarke Scholarship* of $1,200, established in 1870 in memory of Mrs. Jane Aiken Clarke.

The *Jonathan Taylor Scholarship* of $1000, established in 1878 by the late Edward Taylor, in memory of his father.

The *Peter Smith Byers Scholarship* of $500, established in 1878 by the late John Byers.

The *French Scholarship* of $1000, established in 1879 by the bequest of Hiram W. French.

The *Class of 1878 Scholarship* of $500, established by the Classical class of 1878.

The *Caroline Parker Taylor Scholarship* of $1000, established in 1880 by Mrs. Alpheus Hardy.

The *Gerard Sumner Wiggin Scholarship* of $1000, established in 1882 by the bequest of Lady Elizabeth Sumner Buckley-Mathew Fleming.

The *Charles L. Flint Scholarship Fund* of $5000, established in 1890 by the bequest of Hon. Charles L. Flint.

The *Emma Lane Smyth Scholarship* of $1000, established in 1890 by Ex-Gov. Frederick Smyth.

The *James and Persis Taylor Scholarship* of $1000, established in 1890 by Mrs. Mary E. Fairbanks.

The *Henry P. Haven Scholarship* of $1000, established in 1890 by the estate of Henry P. Haven.

The *Dowe Scholarship Fund* of $3000, established in 1892 by the bequest of John Dowe.

The *John Cornell Scholarship Fund* of $5000, established in 1894 by the bequest of the late John Cornell.

The *James Calvin Taylor Scholarship* of $1000, established in 1895 by his sister, Mrs. Mary E. Fairbanks.

A limited number of deserving students who intend to complete the classical course preparatory for college can be admitted free of tuition, or at a reduced rate, on furnishing to the Principal satisfactory evidence that their circumstances are such as to render the aid necessary. A high grade of scholarship is necessary to the continuance of this aid. Careful preliminary correspondence should be conducted by those who desire this assistance. Students of the Scientific Department are not admitted free of tuition, but in special cases they may receive aid from the beneficiary funds.

Besides remitting the tuition fees; the Academy has been able to aid a few young men during the past year from the income of the above funds, in sums varying from $10.00 to $50.00, according to their circumstances. Conduct and scholarship, as well as pecuniary necessities, are considered in the distribution.

Endowment

In addition to the early endowments by Hon. Samuel Phillips, Dr. John Phillips, Hon. Wm. Phillips, Lieut.-Gov. Samuel Phillips, His Honor William Phillips, and others, and the Scholarships, Prizes, and Charity-funds mentioned elsewhere, gifts for buildings and for general purposes amounting to $71,000 have been more recently received (1878–96), and endowments have been made as follows: George Peabody Foundation for Natural Sciences (1866), $25,000; Samuel H. Taylor Fund (1871), $3,700; John C. Phillips Foundation of the Latin Department (1878), $25,000; Peter Smith Byers Foundation for the Principalship (1879), $40,000; Alden Educational Fund (1881). $5,000; Stone Educational Fund (1884), $25,000; W. F. Draper Fund (1887), $2,500.

Libraries

The "Samuel H. Taylor Memorial Library" contains about 2,500 books, including the valuable classical library of the late Principal, Dr. Taylor, which was presented to the school (1876) by his sister, Mrs. Horace Fairbanks of St. Johnsbury, Vt.

The "Associate Library" belongs jointly to the Philomathean Society and the Society of Inquiry, and contains 800 volumes. There are small special libraries in English, Classics, History, and Natural Science. The library of the Theological Seminary, and the Memorial Hall Public Library, aggregating 60,000 volumes, are accessible for consultation daily.

School Organizations

Among the School Organizations, maintained by the students, are the following: RELIGIOUS, The Society of Inquiry; DEBATING, the Philomathean Society, Forum; SCHOOL PAPERS, The Phillipian (semi-weekly), the Mirror (monthly), the Pot Pourri (annual); MUSICAL, the Glee Club, Banjo Club, Mandolin Club; THE ATHLETIC UNION, comprising the Base Ball, Foot Ball, Athletic and Tennis Associations; also the Camera Club, Chess Club, Dramatic Club, Gun Club, Skating Association, etc.

Location, etc.

Andover is a town of six thousand inhabitants, situated on the Western Division of the Boston and Maine Railroad, twenty miles north of Boston. It is the seat of the Andover Theological Seminary, Prof. George Harris, D. D., President of the Faculty, and of the Abbot Academy for young ladies, Miss Emily A. Means, Principal. For convenience the following additional addresses are given: John Tyler Kimball, Cashier of the Andover National Bank; John Kimball, Station Agent, Boston and Maine Railroad; E. P. Hitchcock, proprietor of the "Mansion House," the local hotel connected with the institutions; Warren F. Draper, the "Andover Publications;" George A. Higgins & Co., the Andover Bookstore; John N. Cole, the *Townsman*, and the Andover Press.

ENTRANCE EXAMINATIONS, 1898

JUNE 24, OCCUPYING ONE DAY; ALSO SEPT. 14 AND 15, OCCUPYING TWO DAYS. REGISTRATION AT 9 A.M.

CLASSICAL DEPARTMENT

JUNIOR CLASS:

Arithmetic, complete, except the Metric System.
English Grammar, elementary.
Reading and Spelling.
Geography, Modern Political.

JUNIOR MIDDLE CLASS:

Arithmetic, complete, including the Metric System.
Algebra, complete.
English Grammar.
Latin Grammar and Exercises.
Caesar, Gallic War, Books II and III.

MIDDLE CLASS:

Arithmetic, complete, including the Metric System.
Algebra, complete.
English Composition.
Latin Grammar and Exercises.
Caesar, Gallic War, five books.
Nepos, five lives.
Ovid, 1500 verses.
Latin Prosody.
Greek Grammar and Exercises.
French or German, Exercises and translation, covering a full year's work.

Senior Class:

Arithmetic, complete, including the Metric System.
Algebra, complete.
English, College Requirements (English A).
Latin Grammar and Exercises.
Caesar, Gallic War, five books.
Cicero, seven orations.
Latin Composition.
Latin Prosody.
Greek Grammar and Exercises.
Xenophon, Anabasis, four books.
Greek Composition.
French or German. a full year's work.
Greek History.
Roman History.

(See note on following page).

SCIENTIFIC DEPARTMENT

Junior Class:

Arithmetic, to Percentage.
English Grammar, elementary.
Reading and Spelling.
Geography, Modern Political.

Junior Middle Class:

Arithmetic, complete.
Algebra, to Equations.
English Grammar, complete.
Latin Grammar and Exercises.
Translation of simple selections from the Latin.

MIDDLE CLASS:

Arithmetic, complete.
Algebra, complete.
English Composition.
Latin Grammar and Exercises.
Caesar, Gallic War, four books.
French or German, Exercises and translation, covering a full year's work.

SENIOR CLASS:

Arithmetic, complete.
Algebra, complete.
Plane Geometry, complete.
English, College Requirements (English A).
Latin Grammar and Exercises.
Caesar, Gallic War, four books.
French or German, a full year's work.
English History.
Botany.
Chemistry (as a substitute for Latin authors only), General Chemistry and Elementary Qualitative Analysis.

NOTE.— College certificates in the various subjects are accepted in place of the above examinations, and are required of all candidates for the Senior Classes. A college certificate is not sufficient for admission to these classes, unless the number of subjects passed is above the minimum and well distributed over the full list offered by the college.

Candidates may present testimonials and term-reports as collateral evidence of their attainments and proficiency.

COURSE OF STUDY

SYNOPSIS

	Classical	HOURS	Scientific	HOURS
Junior Year	Algebra, complete	4	Arithmetic, followed by Algebra, second term	4
	Geometry, elementary and constructive	2	Geometry, elementary and constructive	2
	Latin	6	Latin	6

CLASSICAL DEPARTMENT

The course of study is designed to furnish adequate preparation for any college. It is decidedly advantageous for students to take the entire course in the Academy. The languages are taught with a view to the student's progressive development. In the early study emphasis is laid upon the thorough knowledge of the forms and ordinary usages of the language. Composition work is insisted upon from the beginning. Later, effort is directed toward accuracy and nicety of translation, accompanied by critical study of syntax. In the study of poetry attention is called to the differences between poetic and prose diction. In the higher classes the elements of style and literary criticism are studied and the student is trained to facility in reading at sight. Throughout the course he is taught to notice and to value thoughts as well as words. An especially selected library affords opportunity for students to acquire the habit of supplementary reading.

Harvard or Yale preliminary certificates, at the discretion of the instructors in charge of the various departments, are accepted as equivalents for courses passed. Candidates for the Senior Class must take a college preliminary examination and obtain a certificate.

A variety of optional and extra studies is offered, especially in the Senior year, to meet the wants of students who are fitting for definite college requirements, or are to enter advanced divisions at the colleges, and also to provide for ambitious students who may wish to broaden their preparation. Members of the Senior Class select such subjects as are needed to complete their preparation for college and for the remainder of their schedule may elect any subjects in the Course of Study, of either department, not already completed. The classes in Physics and Chemistry have excellent facilities for practical work in the laboratories.

CLASSICAL COURSE

CLASS IV

JUNIOR

FIRST TERM:

LATIN.— Lessons. 6 hours.

MATHEMATICS.—Algebra, begun. 4 hours. Elementary Geometry. 2 hours.

ENGLISH.— Review of Grammar. Composition. Irving's Sketch Book. 4 hours.

SECOND TERM:

LATIN.— Lessons completed. Grammar. Viri Romae, selections, 25 pages. Exercises in writing. 6 hours.

MATHEMATICS.— Algebra, continued. 4 hours. Elementary Geometry. 2 hours.

ENGLISH.— Composition. Lockwood's lessons. American authors. 4 hours.

THIRD TERM:

LATIN.—Caesar, Gallic War, Books II. III. Composition (Daniell, Part I. § 56–90). 6 hours.

MATHEMATICS.—Algebra, completed. 4 hours. Elementary Geometry. 2 hours.

ENGLISH.— Composition. Study of words. Readings. 4 hours.

NOTE.—The amount of Latin reading done in the Junior year must be estimated on the basis of six recitations a week, full hour periods, and involving a large amount of drill as well as instruction. The course in Elementary Geometry includes rule and compass practice and constant use of the Metric System. The construction and the measurement of simple geometrical figures are emphasized rather than the theory of demonstration.

CLASS III

JUNIOR MIDDLE

FIRST TERM:

LATIN.—Caesar, Gallic War, Books I, IV and V. Nepos, selections, six lives. Reading at sight. Composition (Jones, 15 lessons). 6 hours.

GREEK.—White's First Greek Book. 4 hours.

MODERN LANGUAGES.—French or German. 4 hours.

ENGLISH.—Elementary Composition. Readings. 2 hours.

SECOND TERM:

LATIN.—Caesar, Nepos. Ovid, begun. Prosody. Composition (Jones, through lesson 35). 6 hours.

GREEK.—White's First Greek Book. 4 hours.

MODERN LANGUAGES.—French or German. 4 hours.

ENGLISH.—Elementary Composition. Midsummer Night's Dream. 2 hours.

THIRD TERM:

LATIN.—Ovid, 1,500 verses. Composition (Jones, completed. Collar, 16 lessons). Written Translations. 6 hours.

GREEK.—White's First Greek Book. Xenophon, Anabasis, Book I, Chaps. I--V. 4 hours.

MODERN LANGUAGES.—French or German. 4 hours.

ENGLISH.—Elementary Composition. Twelfth Night. 2 hours.

CLASS II

MIDDLE

FIRST TERM:

LATIN.—Cicero, Catiline Orations. Reading at sight. Composition (Collar, 10 lessons, or Moulton, 20 chapters on Cicero). 5 hours.

GREEK.—Xenophon, Anabasis, Book I, Chaps. VI--X, Book II. Composition. 5 hours.

MODERN LANGUAGES.—French or German. 1 hour.

HISTORY.—Greek History. 3 hours.

MATHEMATICS.—Algebra. 2 hours.

ENGLISH.—Readings in Poetry. Themes. 2 hours.

SECOND TERM:

LATIN.—Cicero, Manilian Law, Archias, Marcellus. Written Translations. Composition (Collar, 16 lessons, or Daniell, Part II, 12 written exercises, or Moulton, on Manilian Law and Archias). 5 hours.

GREEK.—Xenophon, Anabasis, Books III, IV. Composition. 5 hrs.

MODERN LANGUAGES.—French or German; prose selections. 1 hour.

HISTORY.—Greek and Roman History. 3 hours.

MATHEMATICS.—Algebra. 2 hours.

ENGLISH.—Readings in Prose Narrative. Themes. 2 hours.

THIRD TERM:

LATIN.—Cicero, Milo, Caesar, Gallic War, reviewed. Nepos, selections at sight. Composition. 5 hours.

GREEK.—Hellenica, selections. Composition. Reviews. 5 hours.

MODERN LANGUAGES.—French or German, prose selections. 1 hour.

HISTORY. Roman History. 3 hours.

MATHEMATICS.—Algebra. 2 hours.

ENGLISH.—Readings; the Essay. Themes. 2 hours.

NOTE.—An opportunity is given by an increasing number of colleges to pass a preliminary examination in a part of the subjects required for admission. June examinations, both preliminary and final, are held in Andover, by Harvard, Yale and Princeton colleges.

In order to define the work of the pupil in his last year, it is required that he pass one of these preliminary examinations.

CLASS I

SENIOR

FIRST TERM:

LATIN.—Vergil, Æneid. Books I–III. Prosody. Idioms. Composition. Reading at sight. Roman Antiquities. 4 hours.

GREEK.—Homer, 1200 verses. Composition. 4 hours.

MATHEMATICS.—Plane Geometry or Trigonometry. 4 hours.

NATURAL SCIENCE.—Physics. 4 hours, or

MODERN LANGUAGES.—French or German, Class III or Class A. 4 hours, or

HISTORY.—American. 2 hours. Modern Spanish. 2 hours.

ENGLISH.—Reading in College Requirements. Extempore Composition. 2 hours.

SECOND TERM:

LATIN.—Vergil, Æneid. Books IV–VI, VIII. Composition. Reading at sight. Roman Antiquities. 4 hours.

GREEK.—Homer, 1800 verses. Greek Antiquities (Mahaffy). Composition. 4 hours.

MATHEMATICS.—Plane Geometry or Solid Geometry. 4 hours.

NATURAL SCIENCE.—Physics. 4 hours, or

MODERN LANGUAGES.—French or German, Class III, or Class A. 4 hours, or

HISTORY.—American. 2 hours. Modern Spanish. 2 hours.

ENGLISH.—Extempore Composition. Shakespeare. 2 hours.

THIRD TERM:

LATIN.—Vergil, Æneid, Book IX. Cicero, reviews. Reading at sight. Latin Literature. Composition. 4 hours.

GREEK.—Homer, 2000 verses. Introduction to Study of Homer (Jebb). Reviews. Composition. 4 hours.

MATHEMATICS.—Plane Geometry or Analytical Geometry. 4 hours.

NATURAL SCIENCE.—Physics. 4 hours, or

MODERN LANGUAGES.—French or German, Class III, or Class A. 4 hours, or

HISTORY.—American. 2 hours. Modern Spanish. 2 hours.

ENGLISH.—Shakespeare. Essays. 2 hours.

CLASSICAL COURSE—NOTES

GREEK

JUNIOR MIDDLE YEAR.—The first year is devoted mainly to memorizing the forms of the language and fixing a few important principles of syntax. The class is constantly drilled to reproduce paradigms accurately and rapidly, as well as to inflect new words. The importance of review work is emphasized at every recitation. Black-board work occupies much of the time; this work the class is called upon to criticise. By an equal share of oral work the ear is trained to detect inaccuracy in accent or pronunciation. A ready command of the vocabularies is required; to secure this, there is both oral and written work, and writing Greek words at dictation is practiced.

The hours are varied with frequent exercises in translation, English into Greek as well as Greek into English, and occasional talks about Greek life. During the third term a simplified text of the first book of the Anabasis is used.

MIDDLE YEAR.—The second year is occupied with reading Xenophon's Anabasis, Books I–IV, sight reading, translation from English into Greek. and grammar reviews. Great effort is made to secure simple, idiomatic English in both oral and written work. A portion of the following day's lesson is often translated at sight. and towards the end of the year. other works. particularly Xenophon's Hellenica. are used with special reference to sight reading.

Grammar and composition are studied through the year, the method being the same as during the first year; skill in writing Greek is made a chief object of this year's work.

SENIOR YEAR.—The third year is spent mainly in reading selected books from the Iliad and Odyssey. The work of the year is much broader in scope, however, than before. After the dialect is thoroughly mastered, more attention is given to the literary side of the poems; the art of translation is discussed; carefully prepared renderings in prose and metre are made by the class and read aloud. Much attention is paid to the translation of sight passages; in this there is almost daily practice, the object being to acquire ability to read large portions of Homer rapidly and with pleasure.

The study of antiquities and literature introduced during the second and third terms is intended to give a general survey of these subjects, and stimulate an interest in further reading.

LATIN

JUNIOR YEAR.—The Latin work of the Junior year consists of strict unremitting drill in the essentials of the grammar, with the view to securing accuracy and ease in the use of forms. Careful training is given in methods of study. The student is taught from the beginning to grasp the concepts as well as the English equivalents of Latin terms, and to notice the order of thought in sentences. There is daily practice in the writing of Latin.

JUNIOR MIDDLE YEAR.—In the Latin of the Junior Middle year, exceptional stress is laid upon a study of the grammatical relation of words in sentences. Case constructions are accurately discriminated and explained; the ordinary uses of the subjunctive and the infinitive are interpreted; and the more common idioms of Caesar are noticed.

The composition course is specially adapted to furnish ample practice in syntax, and to fit the student for the writing of simple connected narrative.

MIDDLE YEAR.—In the Middle year the course in Cicero aims towards the mastery of an extended vocabulary, an elementary knowledge of

synonyms, an accurate discrimination of grammatical constructions, and facility in reading the Latin. The student is encouraged to notice and appreciate beauty of thought and of expression. In rendering Latin in English carelessness in diction is not tolerated. Special efforts are made to render the student familiar with the chief characteristics of Cicero's oratory and with the history of his time.

The work in prose composition is devoted to connected narrative.

SENIOR YEAR.—In this year the Latin study broadens with the view to promoting a scholarly ease in the reading of the literature prescribed. Poetical constructions and peculiar uses of words are subjects of special study. Practice in reading the hexameter rhythmically forms an essential feature in the study of Vergil. No effort is spared to induce a thorough understanding of the thought read, and an appreciation of its literary expression. Linguistic study is directed towards a wider knowledge of word-formation, and of the principles of syntax. Examinations are set largely from passages not previously seen by the student.

The study of Roman life aims to give a general survey of the subject.

MATHEMATICS

SENIOR YEAR.—The course in Plane Geometry provides not only for drill in logical demonstration but for the original and intelligent solution of a large number of exercises. The course in Trigonometry, Solid Geometry and Analytical Geometry is open only to those who have completed a thorough course in Plane Geometry.

SCIENTIFIC DEPARTMENT

The object of this department, established in 1830, is to afford a substantial course of study, chiefly on the basis on Mathematics and the Natural Sciences. with History, Latin, Modern Languages and Literature.

The Course of Study is designed to furnish thorough preparation for the Lawrence Scientific School of Harvard University, the Sheffield Scientific School of Yale University, the Massachusetts Institute of Technology, and other scientific schools and colleges of the higher grade.

For illustrating the principles of Natural Philosophy the school is provided with excellent apparatus, which is used in lectures given in connection with the text-books. There is a well-equipped Physical Laboratory, for experimental work. An appropriation of $300 is made each year to procure the latest and best instruments.

The Academy is provided with a full set of instruments for courses in practical surveying, consisting of a solar transit, surveyor's compasses, levels, and other appliances.

The Science Building furnishes ample accommodations for the departments of Physics and Chemistry. The building contains, besides recitation rooms, a lecture room, a draughting room, a Physical and a Chemical Laboratory, thoroughly equipped for individual work.

The Newton cabinet contains several thousand specimens of rocks, minerals, fossils, insects, shells, and other illustrations of Natural History, and a small collection of coins, stone implements, and other valuable antiquities.

SCIENTIFIC COURSE

CLASS D

JUNIOR

FIRST TERM:

MATHEMATICS.—Arithmetic, including the Metric System, reviewed and completed. 4 hours. Elementary Geometry. 2 hours.

LATIN.—Lessons. 6 hours.

ENGLISH. Review of Grammar. Composition. Irving's Sketch Book. 4 hours.

SECOND TERM:

MATHEMATICS.—Algebra, to Fractions. 4 hours. Elementary Geometry. 2 hours.

LATIN.—Lessons, continued. 6 hours.

ENGLISH.—Composition. Lockwood's Lessons. American Authors. 4 hours.

THIRD TERM:

MATHEMATICS.—Algebra, to Equations. 4 hours. Elementary Geometry. 2 hours.

LATIN.—Gradatim, selections. Exercises in writing Latin. 6 hours.

ENGLISH.—Composition. Study of words. Readings. 4 hours.

CLASS C

Junior Middle

FIRST TERM:

Mathematics.—Algebra, to Quadratic Equations. 4 hours.
English.—Readings. Composition and Rhetoric. 4 hours.
Modern Languages.—French or German. 4 hours.
Latin.—Caesar, Gallic War, begun. 4 hours.
Natural Science.—Chemistry, Non-metallic Elements. 2 hours.

SECOND TERM:

Mathematics.—Algebra, to Progressions. 4 hours.
English.—Shakespeare. Composition and Rhetoric. 4 hours.
Modern Languages.—French or German. 4 hours.
Latin.—Caesar, Gallic War, continued. 4 hours.
Natural Science.—Chemistry, Non-metallic Elements. 2 hours.

THIRD TERM:

Mathematics.—Algebra, completed and reviewed. 4 hours.
English.—Study of words. Readings. 4 hours.
Modern Languages.—French or German. 4 hours.
Latin.—Caesar, Gallic War, continued. 4 hours.
Natural Science.—Chemistry, Non-metallic Elements. 2 hours.

Note.—At least four books of the Gallic War are read during the year.

CLASS B

Middle

FIRST TERM:

Mathematics. — Plane Geometry, begun. 4 hours. Algebra. 2 hours.

Natural Science. — Chemistry. Metallic Elements and Elementary Qualitative Analysis. 4 hours, or

Latin.—Caesar. Gallic War, reviewed. 2 hours, and

Botany.—2 hours.

Modern Languages.—French or German. 2 hours.

History.—English History. 4 hours.

English.—Literature and Composition. 2 hours.

SECOND TERM:

Mathematics.—Plane Geometry. 4 hours. Algebra. 2 hours.

Natural Science.—Chemistry. Metallic Elements and Elementary Qualitative Analysis. 4 hours, or

Latin.—Caesar. Gallic War, reviewed. Composition. 2 hours, and

Botany.—2 hours.

Modern Languages.—French or German. 2 hours.

History.—English History. 4 hours.

English.—College Requirements. Composition. 2 hours.

THIRD TERM:

Mathematics.—Plane Geometry, completed. 4 hours. Algebra. 2 hours.

Natural Science.—Chemistry, Metallic Elements and Elementary Qualitative Analysis. 4 hours, or

Latin.—Caesar. Gallic War, reviewed. Composition. 2 hours, and

Botany.—2 hours.

Modern Languages.—French or German. 2 hours.

History.—English History. 4 hours.

English.—College Requirements. Composition. 2 hours.

Note.—An opportunity is given by many scientific schools to pass preliminary examinations in a part of the subjects required for admission The course of study is arranged with this in view, and pupils are required to pass this examination as a preparation also for the Senior Year. Candidates for the Lawrence Scientific School of Harvard University, the Sheffield Scientific School of Yale University, the John C. Green School of Science of Princeton University, and the Rensselaer Polytechnic Institute, Troy, N. Y., may be examined in Andover.

CLASS A

Senior

FIRST TERM:

Mathematics.—Plane Trigonometry. 4 hours.

Physics.—4 hours, or

Latin.—Vergil, Æneid. 4 hours.

Modern Languages.—Advanced French or German. 4 hours, or

Chemistry.—See Class B. 4 hours.

History.—United States, or Political Economy. 2 hours.

English.—English Literature. 2 hours.

Drawing.—Mechanical. 2 hours.

SECOND TERM:

Mathematics.—Solid Geometry. 4 hours.

Physics.—4 hours, or

Latin.—Vergil, Æneid. 4 hours.

Modern Languages.—Advanced French or German. 4 hours, or

Chemistry.—See Class B. 4 hours.

History.—United States, or Political Economy. 2 hours.

English.—English Literature. 2 hours.

Drawing.—Mechanical. 2 hours.

THIRD TERM:

Mathematics.—Reviews. 4 hours.

Physics.—4 hours, or

Latin.—Vergil, Æneid. Reviews. 4 hours.

Modern Languages.—Advanced French or German. 4 hours, or

Chemistry.—See Class B. 4 hours.

History.—United States, or Political Economy. 2 hours.

English.—English Literature. 2 hours.

Drawing.—Mechanical. 2 hours.

SUPPLEMENTARY READING

Examinations will be held, at the middle and near the close of each term, upon the following books:

CLASSES IV and D.

First Term.—Cooper's Last of the Mohicans; Anthony Hope's Prisoner of Zenda.

Second Term—Hughes's Tom Brown at Rugby; Stevenson's Kidnapped.

Third Term.—Dickens's Nicholas Nickleby.

CLASSES III and C.

First Term.—Scott's Talisman; Stevenson's New Arabian Nights.

Second Term.—Dickens's David Copperfield.

Third Term.—Irving's Alhambra.

CLASSES II and B

First Term.—Dickens's Tale of Two Cities; Longfellow's Tales of a Wayside Inn.

Second Term.—Blackmore's Lorna Doone; Mrs. Jackson's Ramona.

Third Term.—Mitchell's Hugh Wynne.

CLASSES I and A.

First Term.—Thackeray's Henry Esmond; Barrie's A Window in Thrums.

Second Term.—Hawthorne's Scarlet Letter; Tennyson's Idylls of the King.

Third Term.—Crawford's Roman Singer.

PRIZES

The following prizes are offered annually for proficiency in the work of several of the departments :—

IN ENGLISH

The Draper Prizes for *Selected Declamations*, founded by Mr. W. F. Draper, of the class of 1843, of Andover. The first prize is of twenty dollars, the second of twelve dollars, the third of eight dollars. The competition is open to students in either department. A preliminary trial before a committee is held early in May, the final competitors being chosen on the basis of the ten best rendered selections. The thirty-first competition occurred June 23, 1897. The Committee of Award were Hon. Wm. K. Townsend, New Haven, Conn., Hon. J. Sidney Howe, Methuen, Rev. Chas. H. Oliphant, Methuen.

The Means Prizes for *Original Declamations*, founded by the late Wm. G. Means, of Boston. The first prize is of twenty dollars, the second of twelve dollars, the third of eight dollars. Students in either department may compete. Compositions must be submitted before March 1st. Ten are selected for the final competition, by the same judges who act as committee of award, the prizes being given on the merits of both composition and delivery. The thirtieth competion was held May 14, 1897, the Committee of Award being John L. Brewster, M. A., Andover, Rev. George R. Dickinson, B. A., Zanesville, O., Bernard G. Mattson, Ph.B., Medina, Ohio.

The subjects for the thirty-second competition, March 1, 1899, are :—

1. The Secondary Advantages of School Life.
2. The Mistakes of the Century.
3. The "New Romance" of Kipling's Poetry.
4. Do the Rich or the Poor Bear the Burden of Taxation ?
5. Is the Exposition of a Moral Idea Desirable in Fiction ?

6. The Student and the Community.

7. The Ward Boss: the Professional vs. the Amateur in Municipal Government.

8. The Academic Theory of Honor.

9. What are "Entangling Alliances?"

10. A Remedy for "Yellow Journalism."

The Harvard–Andover Prizes, sustained by the Harvard–Andover Club. Two prizes are offered, one of fifteen dollars and one of ten dollars, for excellence in Elementary Rhetoric and English Composition. The competition is open to members of the Senior and Middle classes of both departments. The Committee of Award for the ninth competition, held in June, 1897, was Henry Harmon Chamberlain. M. A., Harvard University.

The Robinson Prizes for *Debate*, sustained by Mr. H. S. Robinson. of Andover, are open to members of the two debating societies, Philo and Forum. The first prize of twelve dollars, the second of eight dollars, are awarded to the students presenting the best arguments, irrespective of the merits of the question. Each society selects two men to represent their society. The second competition occurred in June, 1897. Committee of Award, Rev. Robt. A. MacFadden, Chelsea, Mr. Edwin H. Whitehill, Woodstock, Vt., and Rev. Frank W. Hodgdon, Greenville Mich.

IN GREEK

The Joseph Cook Greek Prizes, founded by Dr. Joseph Cook, class of 1857, of Ticonderoga, N. Y. The prizes are fifteen, ten, and five dollars respectively. The special topics included in the twentieth competition, May, 1899, will be:

1. Translations at sight from Homer, with questions suggested by the text.
2. Translation at sight from English into Greek.
3. Greek Literature and Antiquities.

The Committee of Award for the eighteenth competition, May, 1897, were Prof. F. E. Woodruff and Prof. Wm. A. Houghton, both of Bowdoin College.

IN LATIN

The Crane Prizes for *Excellence in Virgil*, the gift of the late Rev. Oliver Crane, D. D., LL.D., of copies of his translation of Virgil. Open to Seniors and Middlers.

The Dove Latin Prizes, founded by Mr. George W. W. Dove, class of 1853, of Andover. The prizes of twenty, fifteen and ten dollars, are awarded for excellence in Latin and are open to Seniors in the Classical Department.

The Committee of Award for the thirteenth competition, May, 1897, were Prof. John B. Greenough and Prof. F. B. Allen, both of Harvard University.

IN MATHEMATICS

The Convers Mathematical Prizes, founded by E. B. Convers, Esq. class of 1857, of Englewood, N. J. Three prizes of twenty dollars, twelve dollars and eight dollars, are awarded for excellence in the mathematics of the Classical Department, to be determined by an examination in May of the Senior Year.

IN THE CLASSICS

The Foster Classical Prizes, sustained by Mr. H. B. Foster of the class of 1892, as offered for '98.

I. A prize of fifteen dollars, for excellence in Latin Composition. This prize is open to members of the Senior, Middle and Junior Middle, Classical, and the Senior and Middle, Scientific classes.

II. A prize of eight dollars for excellence in Greek Geography. This prize is open to members of the Senior and Middle Classical classes only.

The Valpey Classical Prizes, founded by the late Rev. Thomas G. Valpey, of the class of 1854. Two prizes, of ten dollars each, are awarded, one for excellence in Latin Composition; one for excellence in Greek Composition. The competition is open to members of the Middle Class. The second competition occurred in June, 1897. Committee of Award, Prof. G. F. Moore and Dr. C. C. Torrey, both of Andover.

PRIZES AWARDED, 1896–'97

The Draper Prizes		(1) Zoeth Stanley Eldredge, *San Francisco, Cal.*
		(2) Edward Woods Hunt, *Tacoma, Wash.*
		(3) Francis Joseph O'Connor, *Lawrence, Mass.*
The Means Prizes		(1) James Ross Irvine, *Ross, Wyo.*
		(2) William Edwards Day, *Indianapolis, Ind.*
		(3) * Winston Trowbridge Townsend, *New Haven, Ct.*
The English Prizes		(1) Arthur Stanley Pease, *Andover, Mass.*
		(2) Frank Hollinger Lehman, *Lebanon, Pa.*
The Robinson Prizes		(1) Sanford Henry Eisner Freund, *New York, N. Y.*
		(2) Richard Henry Edwards, *Lisle, N. Y.*
The Cook Prizes		(1) Samuel Stickney, *E. Brownfield, Me.*
		(2) Michael Augustine Sullivan, *Lawrence, Mass.*
		(3) Sanford Henry Eisner Freund, *New York, N. Y.*
The Crane Prizes		(1) Arthur Stanley Pease, *Andover, Mass.*
		(2) Enos Kittredge Sawyer, *Franklin Falls, N. H.*
The Dove Prizes		(1) Michael Augustine Sullivan, *Lawrence, Mass.*
		(2) Arthur Jewett Young, *Brunswick, Me.*
		(3) Samuel Stickney, *E. Brownfield, Me.*
The Valpey Prizes	*Greek*	Arthur Stanley Pease, *Andover, Mass.*
	Latin	Arthur Stanley Pease, *Andover, Mass.* Hugh Satterlee, *Rochester, N. Y.*

JOHN L. PHILLIPS, B.A., *Instructor in Latin*	4 Locke Street
HOWARD I. FORD, B.A., *Instructor in English*	Draper 4
FREDERICK E. NEWTON, PH.B., *Instructor in Mathematics*	28 Salem Street
EDWIN T. BREWSTER, M.A., *Instructor in Natural Sciences*	44 Chestnut Street
THEODORE H. BACON, B.A., *Instructor in French and History*	L. C. 4. 4
PROF. JOHN WESLEY CHURCHILL, D.D., *Instructor in Elocution*	179 Main Street
ALFRED E. STEARNS, B.A., *Athletic Director*	23 Bartlet Hall

PHILLIPS ACADEMY

The Phillips Academy was founded at Andover on the twenty-first of April, 1778, by the gifts of Hon. Samuel Phillips and his brother Hon. John Phillips, consisting of about 141 acres of land in Andover purchased for the purpose, and about 200 acres of land in Jaffrey, N. H., together with the sum of one thousand six hundred and fourteen pounds. The deed of gift which is known as "The Constitution of Phillips Academy" was drawn up, as appears from contemporary documents, largely under the influence of Samuel Phillips, jr., and Eliphalet Pearson, two young men whose friendship in school and college, and whose sympathy in the religious and patriotic movements of the times made them mutually helpful in the project of founding a new institution of learning, and, as it proved, a new type of institution. Dr. Pearson became the first principal, and Judge Phillips fostered the school till his death in 1802 with assiduous devotion.

The main purpose and scope of the school are shown in the opening paragraphs of the constitution, as follows:

"A short reflection upon the grand design of the great Parent of the Universe in the creation of mankind, and the improvements of which the mind is capable both in knowledge and virtue, as well as upon the prevalence of ignorance and vice, disorder and wickedness, and upon the direct tendency and certain issue of such a course of things, must occasion, in a thoughtful mind, an earnest solicitude to find the source of these evils and their remedy; and a small acquaintance with the qualities of young minds,—how susceptible and tenacious they are of impressions, evidences that youth is the important period, on the improvement or neglect of which depend the most important consequences to individuals themselves and the community

A serious consideration of the premises, and an observation of the growing neglect of youth, have excited in us a painful anxiety for the event, and determined us to make, in the following Conveyance, a humble dedication to our Heavenly Benefactor of the ability, wherewith he hath blessed us, to lay the foundation of a public free school or academy for the purpose of instructing Youth, not only in English and Latin Grammar, Writing, Arithmetic, and those Sciences, wherein they are commonly taught; but more especially to learn them the great end and real business of living.

Earnestly wishing that this Institution may grow and flourish; that the advantages of it may be extensive and lasting; that its usefulness may be so manifest, as to lead the way to other establishments on the same principles; and that it may finally prove an eminent means of advancing the Interest of the great Redeemer, to His patronage and blessing we humbly commit."

The first trustees were Samuel Phillips of Andover, John Phillips of Exeter, William Phillips of Boston, Oliver Wendell of Boston, John Lowell of Boston, Rev. Josiah Stearns of Epping, Rev. Elias Smith of Middleton, Rev. William Symmes, Rev. Jonathan French, Samuel Phillips, jr., and Nehemiah Abbot of Andover,— men whose services and benefactions, at Andover and elsewhere, were to become memorable in the history of American education.

Provision having been made for the organization and succession of the trustees, the management of the property, the appointment of teachers and the admission of pupils, the constitution continues:

"It shall ever be considered as the first and principal duty of the Master to regulate the tempers, to enlarge the minds, and form the Morals of the youth, committed to his care.

There shall be taught in this Seminary the English, Latin and Greek Languages, Writing, Arithmetic, Music and the Art of Speaking; also practical Geometry, Logic, and any other of the liberal Arts and Sciences, or Languages, as opportunity and ability may hereafter admit, and as the Trustees shall direct.

The Master is to give special attention to the health of the Scholars, and ever to urge the importance of a habit of Industry. But, above all, it is expected, that the Master's attention to the disposition of the Minds and Morals of the Youth under his charge will exceed every other care; well considering that, though goodness without knowledge (as it respects others) is weak and feeble; yet knowledge without goodness is dangerous; and that both united form the noblest character, and lay the surest foundation of usefulness to mankind.

It is therefore required that he most attentively and vigorously guard against the earliest irregularities; that he frequently delineate, in their natural colours, the deformity and odiousness of vice, and the beauty and amiableness of virtue; that he spare no pains, to convince them of their numberless and indispensable obligations to abhor and avoid the former, and to love and practice the latter; of the several great duties they owe to God, their country, their parents, their neighbors and themselves: that he critically and constantly observe the variety of their natural tempers, and solicitously endeavor to bring them under such discipline, as may tend most effectually to promote their own satisfaction and the happiness of others; that he early inure them to contemplate the several connexions and various scenes, incident to human life: furnishing such general maxims of conduct, as may best enable them to pass through all with ease, reputation, and comfort.

And, in order to prevent the smallest perversion of the true intent of this Foundation, it is again declared, that the *first* and *principal* object of this Institution is the promotion of true Piety and Virtue; the *second*, instruction in the English, Latin and Greek languages, together with Writing, Arithmetic, Music, and the Art of Speaking: the *third*, practical Geometry, Logic, and Geography; and the *fourth*, such other of the liberal Arts and Sciences or Languages, as opportunity and ability may hereafter admit, and as the Trustees all direct."

The school was opened for instruction April 30, 1778, with a group of thirteen pupils. On Oct. 4, 1780, it was incorporated in the last act of the "Great and General Court" previous to the organization of the new state government. The powers of the trustees have been enlarged by the legislature from time to time, notably in the acts conferring the power to hold additional funds, and in the act of June 19, 1807, whereby the Trustees were empowered to receive and hold real and personal estate for the purpose of a separate "Theological Institution." The Andover Theological Seminary, the first of the many theological schools, was accordingly established in the following year.

In 1830, the "Teachers Seminary" was established as another distinct school, an anticipation of the normal schools, and to a less degree, of the scientific schools which have since been planted elsewhere. In 1842 this was merged into the parent Academy and is the present Scientific Department.

By the generous gifts of numerous benefactors, in sums large and small, the original foundations have been mnch enlarged. The school has been "equally open to youth, of requisite qualifications, from every quarter." It has done a useful work in the education of boys who have not gone to college, and in its time has prepared boys for colleges and scientific schools in unprecedented numbers.

ANNOUNCEMENT

Gifts received in the financial year ending April 30, 1899:

Mrs. Jonas Spaulding	$ 300
W. H. Gile	100
W. L. McClintock	10
Mrs. L. J. Blunt	100
Miss Lucia Merrill	5
A Friend	10
C. C. Carpenter	10
Miss E. T. Cheever	200

G. R. Widdicomb	10
Miss Elizabeth Clough	8
Charles G. Carter	10
Philip D. Armour, jr.	100
B. F. Schlesinger	100
H. B. Foster (prizes)	23
H. S. Robinson (prizes)	20
Class of '98. Portrait of Mr. M. S. McCurdy	

The very prosperity of the school has increased the demands made upon it, and constitutes the appeal for gifts for the maintenance of its efficiency under the demands of "the new education," and for its improvement and advancement in its own appropriate and important field.

The legal name of the corporation is "The Trustees of Phillips Academy," and gifts and bequests should be made to them.

THE ACADEMY

The administrative policy of the school assumes on the part of its students a definite educational purpose and the school traditions stand for moral responsibility, hearty coöperation, and worthy achievement.

The Academy is not a suitable school for boys who are idle, insubordinate, or lacking in self-control, or for such as require the supervision of a teacher and the routine of a school-room in order to enforce industry and fidelity. Students who are found to be unable or unwilling to meet the school requirements, and those whose influence is injurious, must be withdrawn from the school. As maturity is not always to be measured by years, the school makes no specific requirements as to the age of the candidate. It has been found that boys of fourteen are usually able to meet the responsibilities of the academic life.

REQUIREMENTS FOR ADMISSION

Testimonial

Candidates for admission to the Academy are required to present testimonials of good moral character and certificates of standing in the schools most recently attended. These certificates are required not later than the date of the entrance examinations and should be forwarded earlier if possible to the principal of the Academy.

Certificates of scholarship standing in other secondary schools are not accepted for admission to the several classes of the Academy, but records of proficiency and courses of study completed are of service to the school officers. Such certificates furnish valuable collateral evidence of the candidate's attainments and needs, and supplement but do not take the place of the regular entrance examinations.

Entrance Examinations. Senior Class

Harvard and Yale entrance certificates, and other college certificates of equivalent value, are accepted for admission to the Academy in place of the school entrance examinations. Candidates for the Senior class who expect to receive the diploma of the school at the end of one year's study should present certificates of the following value:

HARVARD (COLLEGE), 10 HOURS.

Including Elementary Greek, Latin, French or German, History, Algebra, Greek and Latin Composition, or their equivalents.

HARVARD (LAWRENCE SCIENTIFIC SCHOOL), 10 POINTS.

Following the definitions of the college catalogue.

YALE (COLLEGE), 12 SUBJECTS.

Including Latin Grammar, Caesar and Nepos, Ovid, Cicero or Vergil, Latin Composition, Greek Grammar, Xenophon, Greek at Sight, Greek Composition, Greek History, Algebra *a* and *b*, French or German, English *a*, or their equivalents.

YALE (SHEFFIELD SCIENTIFIC SCHOOL), 10 SUBJECTS.

Including English Grammar, English Literature *a*, English History, Latin Grammar and Exercises, Caesar, French or German, Algebra *a* and *b*, Plane Geometry, Botany, or their equivalents.

Certificates of fewer subjects. according to their value, may secure provisional admission to the Senior class, but such standing necessitates courses of study with the lower classes and either adds hours per week to the student's schedule of class work, or lengthens the time required for his preparation for college.

Candidates for admission to the Senior classes should indicate in their preliminary correspondence the subjects credited to them in their college examinations. In providing for deficiences in college certificates, subjects pursued with any class in the Academy count as full equivalents for Senior courses already accepted by the college. The course of study given in summary on page 25 shows in part the range of selection open to those who have secured certificates of superior value.

Entrance Examinations. Other Classes.

Candidates for admission to the Junior, Junior Middle and Middle Classes are examined as follows:

On Friday, June 23, 1899, at 9 o'clock A. M., in Andover, at the Academy building, Room 9, and on the same day at the same hour in New York City, at the rooms of the Young Men's Christian Association, on 23rd St.

Candidates intending to present themselves at these examinations should give seasonable notice to the Registrar of the Academy.

Examinations will be held in other of the larger cities, if the number of candidates in any vicinity is sufficient.

On *Wednesday, September 20, 1899,* at 9.00 A.M., in Andover only, according to a schedule of rooms and hours announced at that time.

On *Thursday, January 4,* and on *Thursday, April 5, 1900,* the first days of the second and third terms. These examinations provide for such candidates as are prepared to join regular school classes.

For examinations held in Andover on these regular dates no fees are charged. For examinations held in New York City, or elsewhere outside of Andover, and for special entrance examinations held at other times than those here given, there is a fee of $5.00.

The subjects upon which entrance examinations will be given in June and September, 1899, are as follows:

FOR ADMISSION TO THE

CLASSICAL DEPARTMENT

JUNIOR CLASS:

Arithmetic, complete, except the Metric System.
English Grammar, elementary.
Reading and Spelling.
Geography, Modern Political.

JUNIOR MIDDLE CLASS:

Arithmetic, complete, including the Metric System.
Algebra, to the subject of Radicals.

English Grammar, complete.
Latin Grammar and Exercises.
Caesar, Gallic war, Books II and III.

MIDDLE CLASS:

Arithmetic, complete, including the Metric System.
Algebra, complete, including Progressions, Permutations, and Undetermined Coefficients.
English Composition.
Latin Grammar and Exercises.
Caesar, Gallic War, four books.
Nepos, eight lives.
Ovid, 1500 verses.
Greek Grammar and Exercises.
French or German, Exercises and translation, covering a full year's work.

FOR ADMISSION TO THE

SCIENTIFIC DEPARTMENT

JUNIOR CLASS:

Arithmetic, complete.
English Grammar, elementary.
Reading and Spelling.
Geography, Modern Political.

JUNIOR MIDDLE CLASS:

Arithmetic, complete.
Algebra, to Fractions.
English Grammar, complete.
Latin Grammar and Exercises.
Translations of simple selections from the Latin.

MIDDLE CLASS:

Arithmetic, complete.
Algebra, to Quadratics.
English Composition.
Plane Geometry, complete.
Latin Grammar and Exercises.
Caesar, Gallic War, four books.
French or German, Exercises and translation, covering a full year's work.

APPOINTMENTS

Registration The school year begins in September, and while new students may be admitted later, by special examination, it is most advisable that they present themselves promptly at the beginning of the Fall Term. The student registers on the first day of each term as announced in the Calendar, reporting first at the Treasurer's office, to make payment for the dues of the term, and, secondly, to his class officer, who will arrange his schedule of work for the term.

Classification Each successful candidate is enrolled in one of the regular classes and is required to pursue the prescribed work of that class. Deficiencies in preparation, and occasionally other considerations, sometimes make it necessary for the student to do some work in other classes than his own; but such arrangements should be considered as temporary and exceptional.

The Academy makes no provision for partial students; nor for special students who are not candidates for graduation from the Academy or for entrance to college, scientific school, or professional school.

When a student, through failure to maintain his regular classification, loses from his schedule eight or more recitation hours per week, he is registered with a lower class.

Examinations and Promotions Written examinations are held in each study at least once a term; but in most courses the term grading is made largely on the basis of daily work. Near the close of the year reviews are held, with special examinations to determine the student's fitness for promotion or graduation. By way of preparation for college tests these examinations are conducted with strict formality. In all the written exercises of the school year the absolute integrity of the student is assumed, and a student may not retain his connection with the school, who fails to comply with so essential a requirement. In addition to completing the

class-room courses, each class is required to pass a satisfactory examination upon a supplementary course of reading. At the close of each term, and at other times when occasion requires, reports of the student's scholarship and attitude toward his work are sent to his parents or guardian.

Class Officers

Each student is by his classification assigned to the special care of one of the eight members of the Faculty who are known as class officers. This officer arranges the studies of each member of the class of which he is in charge, keeps particular record of the student's standing and progress, advises him in the choice of his elective studies, conducts correspondence with parents relating to the boy's school life, and exercises general supervision of his welfare, while he remains in the class.

Daily Appointments

Morning Chapel. 7.50 A. M.
Recitation and Study Hours, 8 to 12 A. M.. 2 to 4 P. M.
Evening Study Hours begin at 8 P. M.
Sunday Chapel Services, 10.30 A. M., and 4.30 P. M.
Half holidays, Wednesday and Saturday afternoons.
Anniversary Holidays, 8 A. M., to 7.30 P. M.

Study Hours

During the Recitation and Study Hours, when not engaged in the class-room, students are required to occupy themselves with the preparation of school exercises, or with other literary work.

Absences

All absences from recitation, morning chapel, Sunday service. or from the student's room during study hours, are to be accounted for; and excuses should be secured in advance. whenever the necessity for such absence can be foreseen.

Holiday Excuses

All out-of-town excuses must be obtained from the Principal. Such excuses are granted somewhat freely on half-holidays and the special holidays to those whose school standing is good. The student who goes out of town without permission, forfeits his connection with the school.

Religious Exercises Students are uniformly required to be present at morning chapel. After the devotional exercises opportunity is given for special announcements, brief school meetings, or other business preliminary to the work of the day. Sunday services for the students are held in the Chapel which is used in common by the Theological Seminary and the Academy. Regular members of the Protestant Episcopal, Baptist, or Roman Catholic congregations may be excused to attend the local churches of these denominations. The Society of Inquiry holds voluntary devotional meetings at 6.45 o'clock on Wednesday and Sunday evenings.

EXPENSES

Parents can estimate approximately the necessary expenses of their sons here; and it is particularly requested that they do not furnish money beyond what is necessary for ordinary expenses. Pupils who are supplied with much spending money, or who are allowed to make debts, usually accomplish but little in their studies, and are liable to form habits which require their removal from school.

Term Bills The term-bills for tuition are as follows: for the Fall Term, $40.00; for the Winter Term, $30.00; for the Spring Term, $30.00. There is a graduation fee of $7.00. Laboratory fees of $5.00 a term are charged for the fall and winter terms in advanced Chemistry; of $2.50 a term for each term in elementary Chemistry; of $5.00 a term for each term in Physics; and of $2.50 for the Winter Term in Botany. The term-bills are paid in person by the students, or (request to that effect being made) mailed to the parent or guardian. They are payable at the commencement of the term. Checks should be drawn in favor of the Trustees of Phillips Academy.

BOARD AND LODGINGS

I. Private Houses About forty private houses in the vicinity of the Academy, under license from the Trustees, provide board and lodgings for students, and no student may occupy a house not thus sanctioned by the School.

Some of the houses provide furnished rooms only; others provide rooms and board, and some of the latter furnish board for students rooming in neighboring houses.

The price of table board in Commons is $3.00, and in private families from $4.00 to $7.00 per week. The price of furnished rooms, including ordinary service, is from $3.00 to $6.00 per week and upwards.

Engagements for rooms in private families continue to the end of the Academic year. Care should, therefore, be exercised in the selection of rooms. Engagements for table board may, on suitable notice, be terminated at the close of any term.

II. Cottages

By the gifts of Mr. Melville C. Day, class of 1858, Mr. Warren F. Draper, class of 1843, and of many citizens of Andover, aided by a few friends outside of Andover, four small dormitories have been built, called respectively, "The Taylor," "The Andover," "The Draper," and "The Bancroft." They are built of brick with granite trimmings, and careful attention has been given to the warming, ventilation, water supply, bath and toilet arrangements, and the drainage. Each building contains apartments for a resident teacher. The Taylor and the Draper contain five double suites for students; the Andover has five double suites and three single rooms; the Bancroft has four double suites, two single suites, and one single room. Each suite has separate bedrooms, an open fireplace, ample closet room, and a storage locker in the attic. Table board for students in these dormitories may be secured in Commons at $3.00, or in private families at $4.00, $5.00, $6.00, and $7.00 per week. Students in the Draper are regarded as rooming in Commons.

These accommodations for four teachers and forty-five pupils are a partial realization of a plan to replace, as fast as funds are provided for the purpose, the present Latin and English Commons with modern buildings, as favorable as possible to the best student life. The income derived from the fees is applied first to maintenance, second to certain life annuities attached to the deeds of gifts, and third to the aid of deserving students who need pecuniary aid.

Students who use tobacco in any form, occasionally or habitually must not apply for these rooms. No furniture is supplied by the school. The fees include the charge for heat and for the care of the rooms.

PRICE OF ROOMS FOR 1899-1900

For a double suite in the Taylor, the Andover, or the Bancroft, each student,	$80.00
For a double suite in the Draper (not including service), each student,	$40.00
For a single suite in the Bancroft,	$100.00
For a single room in the Andover,	$45.00
For a single room in the Bancroft,	$35.00

III. Commons

There are fifty-six rooms in Commons for pupils, and four for teachers. Each room is designed for two persons and has two single bedrooms connected with it. The price of rooms is $3.00 per term for each student. The accomodations provided in Commons are very plain, and intended expressly for those who wish to make their expenses small. The rooms are supplied only with tables and bedsteads for single beds. Bedding is usually brought from home. Stoves and other articles necessary to furnish a room can be obtained here at reasonable prices. Plans of the rooms and other information may be had by addressing the Registrar. Persons who use tobacco, occasionally or habitually, must not apply for rooms in Commons.

Persons who room in Commons are not permitted to pay more than $4.00 per week for table board. Students rooming, without board, in private houses, may board in Commons if there are vacant places. The price of table board by the term is at present $3.00 per week, payable monthly in advance. The rate for the short vacations, and for small fractions of a term, is $4.00 a week. The house opens September 18, 1899.

ENDOWMENT AND SCHOLARSHIPS

Beneficiary Aid

The *Farrar Fuud*, a legacy from the late Treasurer Samuel Farrar, Esq., amounts, with additions from income, to Twenty-Two Thousand Dollars.

The *Students' Educational Fund*, begun with a gift of $100 from the Senior Class of 1854, and enlarged by their efforts to $1,800, now amounts to $5,700. The Trustees desire to increase this fund to at least $25,000, in order to meet the opportunity for assisting worthy young men, ambitious to secure a liberal education.

Scholarships

The following scholarships have been established:

The *Clarke Scholarship* of $1.200. established in 1870 in memory of Mrs. Jane Aiken Clarke.

The *Jonathan Taylor Scholarship* of $1000, established in 1878 by the late Edward Taylor. in memory of his father.

The *Peter Smith Byers Scholarship* of $500. established in 1878 by the late John Byers.

The *French Scholarship* of $1000. established in 1879 by the bequest of Hiram W. French.

The *Class of 1878 Scholarship* of $500, established by the Classical class of 1878.

The *Caroline Parker Taylor Scholarship* of $1000. established in 1880 by Mrs. Alpheus Hardy.

The *Gerard Sumner Wiggin Scholarship* of $1000. established in 1882 by the bequest of Lady Elizabeth Sumner Buckley-Mathew Fleming.

The *Charles L. Flint Scholarship Fund* of $5000. established in 1890 by the bequest of Hon. Charles L. Flint.

The *Emma Lane Smyth Scholarship* of $1000, established in 1890 by the late Ex-Gov. Frederick Smyth.

The *James and Persis Taylor Scholarship* of $1000. established in 1890 by Mrs. Mary E. Fairbanks.

The *Henry P. Haven Scholarship* of $1000. established in 1890 by the estate of Henry P. Haven.

The *Dowe Scholarship Fund* of $3000. established in 1892 by the bequest of John Dowe.

The *John Cornell Scholarship Fund* of $5000. established in 1894 by the bequest of John Cornell.

The *James Calvin Taylor Scholarship* of $1000. established in 1895 by his sister, Mrs. Mary E. Fairbanks.

Scholarship Aid

The income from these scholarships and other endowment funds, available for a limited number of students, is awarded to such as are in need of financial assistance and maintain a high grade of scholarship. The amount of aid most frequently awarded a student is the same as the tuition fee, which is thus remitted. This abatement is possible only after a student has been connected with the school for at least one term, during which time an opportunity is afforded the instructors and the school officers for determining the candidate's scholarship grade. Ordinarily forty scholarships may be awarded. Independently of the abatement of tuition charges, the school is able to award a limited number of small scholarships for excellence in special departments of school work.

Since the endowment funds of the Academy are insufficient to meet the demands even of the most worthy applicants, discrimination in favor of superior achievement is always made and satisfactory evidence must be furnished the Principal that the financial aid is necessary.

Candidates for admission to the Academy, dependent upon their own resources and in need of scholarship aid, should by careful preliminary correspondence indicate their sources of income, or their plans involving self-maintenance.

Endowment

In addition to the early endowments by Hon. Samuel Phillips, Dr. John Phillips, Hon. Wm. Phillips, Lieut.-Gov. Samuel Phillips, His Honor William Phillips, and others. and the Scholarships, Prizes, and Charity-funds mentioned elsewhere, gifts for buildings and for general purposes amounting to $71,000 have been more recently received (1878–99). and endowments have been made as follows: George Peabody Foundation for Natural Sciences (1866), $25,000; Samuel H. Taylor Fund (1871), $3,700; John C. Phillips Foundation of the Latin Department (1878), $25,000; Peter Smith Byers Foundation for the Principalship (1879), $40,000; Alden Educational Fund (1881), $5,000; Stone Educational Fund (1884), $25,000; W. F. Draper Fund (1887), $2,500; James S. Eaton Fund (1895), $500.

Libraries

The "Samuel H. Taylor Memorial Library" contains about 2,500 books, including the valuable classical library of the late Principal. Dr. Taylor, which was presented to the school (1876) by his sister, Mrs. Horace Fairbanks of St. Johnsbury, Vt. The "Associate Library" belongs jointly to the Philomathean Society and the Society of Inquiry, and contains 800 volumes. There are also special libraries in English, Classics, History, and Natural Science. The library of the Theological Seminary, and the Memorial Hall Public Library, aggregating 60,000 volumes, are accessible for consultation daily.

School Organizations

Among the School Organizations, maintained by the students, are the following: RELIGIOUS, The Society of Inquiry; DEBATING, the Philomathean Society, Forum; SCHOOL PAPERS, The Phillipian (semi-weekly), the Mirror (monthly), the Pot Pourri (annual); MUSICAL, the Glee Club, Banjo Club, Mandolin Club; THE ATHLETIC UNION, comprising the Base Ball, Foot Ball, Athletic and Tennis Associations; also the Camera Club, Chess Club, Dramatic Club, Gun Club, Skating Association, etc.

Location, etc.

Andover is a town of six thousand inhabitants, situated on the Western Division of the Boston and Maine Railroad, twenty miles north of Boston. It is the seat of the Andover Theological Seminary, Prof. George Harris, D. D., President of the Faculty, and of the Abbot Academy for young ladies, Miss Emily A. Means, Principal. For convenience the following additional addresses are given: John Tyler Kimball, Cashier of the Andover National Bank; John Kimball, Station Agent, Boston and Maine Railroad; E. P. Hitchcock, proprietor of the "Mansion House," the local hotel connected with the institutions; Warren F. Draper, the "Andover Publications;" George A. Higgins & Co., the Andover Bookstore; John N. Cole, the *Townsman*, and the Andover Press.

* Chemistry C	2
* Geometry B	3
Algebra B	3
* Botany B	2

* If alternate or equivalent subjects have been passed in college examinations.

Note.—Seniors arrange their schedules on the basis of the college certificates which they hold. Those studies are selected which best complete the student's preparation for his college or scientific school. The completion of the course, which secures the diploma of the Academy, requires a clear admission to the Senior Year and a schedule of eighteen hours per week of subjects not previously pursued.

CLASSICAL DEPARTMEMT

The course of study is designed to furnish adequate preparation for any college. It is decidedly advantageous for students to take the entire course in the Academy. The languages are taught with a view to the student's progressive development. In the early study emphasis is laid upon the thorough knowledge of the forms and ordinary usages of the language. Composition work is insisted upon from the beginning. Later, effort is directed toward accuracy and nicety of translation, accompanied by critical study of syntax. In the study of poetry attention is called to the differences between poetic and prose diction. In the higher classes the elements of style and literary criticism are studied and the student is trained to facility in reading at sight. Throughout the course he is taught to notice and to value thoughts as well as words. An especially selected library affords opportunity for students to acquire the habit of supplementary reading.

Harvard or Yale preliminary certificates, at the discretion of the Faculty, are accepted as equivalents for courses passed. Candidates for the Senior Class must take a college preliminary examination and obtain a certificate.

A variety of optional and extra studies is offered, especially in the Senior year, to meet the wants of students who are fitting for definite college requirements, or are to enter advanced divisions at the colleges, and also to provide for ambitious students who may wish to broaden their preparation. Members of the Senior Class select such subjects as are needed to complete their preparation for college and for the remainder of their schedule may elect any subjects in the Course of Study, of either department, not already completed. The classes in Physics and Chemistry have excellent facilities for practical work in the laboratories.

CLASSICAL COURSE

CLASS IV

JUNIOR

FIRST TERM:

15 LATIN.—Lessons. 6 hours.

4 MATHEMATICS.—Algebra, begun. 2 hours. Elementary Geometry. 2 hours.

7 → 16 ENGLISH.—Review of Grammar. Composition. Irving's Sketch Book. 4 hours.

12 NATURAL SCIENCE.—Physiography. 2 hours.

SECOND TERM:

LATIN.—Lessons, completed. Grammar. Viri Romae, selections, 25 pages. Exercises in writing. 6 hours.

MATHEMATICS.—Algebra, continued. 2 hours. Elementary Geometry. 2 hours.

ENGLISH.—Composition. Lockwood's lessons. American authors. 4 hours.

NATURAL SCIENCE.—Physiography. 2 hours.

THIRD TERM:

LATIN.—Caesar, Gallic War, Books II, III. Composition (Daniell, Part I. § 56-90). 6 hours.

MATHEMATICS.—Algebra, continued. 2 hours. Elementary Geometry. 2 hours.

ENGLISH.—Composition. Study of words. Readings. 4 hours.

NATURAL SCIENCE.—Physiography. 2 hours.

NOTE.—The amount of Latin reading done in the Junior year must be estimated on the basis of six recitations a week, full hour periods, and involving a large amount of drill as well as instruction. The course in Elementary Geometry includes rule and compass practice and constant use of the Metric System. The construction and the measurement of simple geometrical figures are emphasized, rather than the theory of demonstration.

Candidates for admission to the Junior Classical Class, who by their entrance examinations show sufficient maturity and ability, are encouraged to substitute a four hour course with a higher class, in place of the courses in Elementary Geometry and Natural Science of the Junior Year.

CLASS III

JUNIOR MIDDLE

FIRST TERM:

6 + 15 LATIN.—Caesar, Gallic War, Books I, IV and V. Nepos, selections, eight lives. Reading at sight. Composition (Jones, 15 lessons), 5 hours.

6 + 12 GREEK.—White's First Greek Book. 4 hours.

7 + 10 MODERN LANGUAGES.—French or German. 4 hours.

9 – ENGLISH.—Elementary Composition. Readings. 2 hours.

1 MATHEMATICS.—Algebra, continued. 2 hours.

SECOND TERM:

LATIN.—Caesar. Nepos. Ovid, begun. Prosody. Composition (Jones, through lesson 35). 5 hours.

GREEK.—White's First Greek Book. 5 hours.

MODERN LANGUAGES.—French or German. 4 hours.

ENGLISH.—Elementary Composition. Midsummer Night's Dream. 2 hours.

MATHEMATICS.—Algebra, continued. 2 hours.

THIRD TERM:

LATIN.—Ovid, 1,500 verses. Composition (Jones, completed. Collar, 16 lessons). Written Translations. 5 hours.

GREEK.—White's First Greek Book. Xenophon, Anabasis, Book I, Chaps. I--V. 4 hours.

MODERN LANGUAGES.—French or German. 4 hours.

ENGLISH.—Elementary Composition. Twelfth Night. 2 hours.

MATHEMATICS.—Algebra, completed. 2 hours.

CLASS II

MIDDLE

FIRST TERM:

LATIN.—Cicero, Catiline Orations. Reading at sight. Composition (Collar, 10 lessons, or Moulton, 20 chapters on Cicero). 5 hours.

GREEK.—Xenophon, Anabasis, Book I, Chaps. VI--X, Book II. Composition. 5 hours.

MODERN LANGUAGES.—French or German. 1 hour.

HISTORY.—Greek History. 3 hours.

MATHEMATICS.—Algebra, Reviews begun. 2 hours.

ENGLISH.—Readings in Poetry. Themes. 2 hours.

SECOND TERM:

LATIN.—Cicero, Manilian Law, Archias, Marcellus. Written Translations. Composition (Collar, 16 lessons, or Daniell, Part II, 12 written exercises, or Moulton, on Manilian Law and Archias). 5 hours.

GREEK.—Xenophon, Anabasis, Books III, IV. Composition. 5 hrs.

MODERN LANGUAGES.—French or German; prose selections 1 hour.

HISTORY.—Greek History. 3 hours.

MATHEMATICS.—Algebra. 2 hours.

ENGLISH.—Readings in Prose Narrative. Themes. 2 hours.

THIRD TERM:

LATIN.—Cicero, Milo. Caesar. Gallic War, reviewed. Nepos, selections at sight. Composition. 5 hours.

GREEK.—Hellenica, selections. Composition. Reviews. 5 hours.

MODERN LANGUAGES.—French or German, prose selections. 1 hour.

HISTORY. Greek History. 3 hours.

MATHEMATICS.—Algebra. 2 hours.

ENGLISH.—Readings; the Essay. Themes. 2 hours.

NOTE.—An opportunity is given by an increasing number of colleges to pass a preliminary examination in a part of the subjects required for admission. June examinations, both preliminary and final, are held in Andover, by Harvard, Yale and Princeton colleges.

In order to define the work of the pupil in his last year, it is required that he pass one of these preliminary examinations.

CLASS I

SENIOR

A schedule of not less than eighteen (18) hours per week, selected from the following subjects, according to college requirements. The courses are continuous, throughout the school year:

LATIN I.—Vergil, Æneid. Books I–VI, VIII, IX. Prosody. Roman Antiquities. 4 hours.

LATIN COMPOSITION I.—Advanced course. 1 hour.

GREEK I.—Homer, Iliad and Odyssey, 5000 verses. Greek Antiquities. 4 hours.

GREEK COMPOSITION I.—Advanced course. 1 hour.

MATHEMATICS I.—Plane Geometry. 4 hours. Geometry (Plane and Space). 4 hours.

HISTORY I.—Roman History. 3 hours.

ENGLISH I.—Readings in College Requirements. Extempore Composition. 2 hours.

PHYSICS I.—Text and Laboratory. 4 hours.

FRENCH A.—Advanced course. 4 hours. FRENCH III. 4 hours.

GERMAN A.—Advanced course. 4 hours. GERMAN III. 4 hours.

CHEMISTRY B.—4 hours. Chemistry C. 2 hours.

HISTORY A.—United States. 2 hours. HISTORY B.—English. 4 hours.

MATHEMATICS A.—Trigonometry. 2 hours. Advanced Algebra. 2 hours.

MECHANICAL DRAWING A.—2 hours.

ZOÖLOGY A.—2 hours.

GEOMETRY B.—Geometry of Space. 3 hours.

BOTANY B.—2 hours.

Any other courses, not previously pursued, in any class, of either department, of the school.

CLASSICAL COURSE—NOTES

GREEK

JUNIOR MIDDLE YEAR.—The first year is devoted mainly to memorizing the forms of the language and fixing a few important principles of syntax. The class is constantly drilled to reproduce paradigms accurately and rapidly, as well as to inflect new words. The importance of review work is emphasized at every recitation. Black-board work occupies much of the time; this work the class is called upon to criticise. By an equal share of oral work the ear is trained to detect inaccuracy in accent or pronunciation. A ready command of the vocabularies is required; to secure this, there is both oral and written work, and writing Greek words at dictation is practiced.

The hours are varied with frequent exercises in translation, English into Greek as well as Greek into English, and occasional talks about Greek life. During the third term a simplified text of the first book of the Anabasis is used.

MIDDLE YEAR.—The second year is occupied with reading Xenophon's Anabasis, Books I–IV, sight reading, translation from English into Greek, and grammar reviews. Great effort is made to secure simple, idiomatic English in both oral and written work. A portion of the following day's lesson is often translated at sight, and towards the end of the year, other works, particularly Xenophon's Hellenica, are used with special reference to sight reading.

Grammar and composition are studied through the year, the method being the same as during the first year; skill in writing Greek is made a chief object of this year's work.

SENIOR YEAR.—The third year is spent mainly in reading selected books from the Iliad and Odyssey. The work of the year is much broader in scope, however, than before. After the dialect is thoroughly mastered, more attention is given to the literary side of the poems; the art of translation is discussed; carefully prepared renderings in prose and metre are made by the class and read aloud. Much attention is paid to the translation of sight passages: in this there is almost daily practice, the object being to acquire ability to read large portions of Homer rapidly and with pleasure.

The study of antiquities and literature introduced during the second and third terms is intended to give a general survey of these subjects, and stimulate an interest in further reading.

LATIN

JUNIOR YEAR.—The Latin work of the Junior year consists of strict, unremitting drill in the essentials of the grammar, with the view to securing accuracy and ease in the use of forms. Careful training is given in methods of study. The student is taught from the beginning to grasp the concepts as well as the English equivalents of Latin terms, and to notice the order of thought in sentences. There is daily practice in the writing of Latin.

JUNIOR MIDDLE YEAR.—In the Latin of the Junior Middle year, exceptional stress is laid upon a study of the grammatical relation of words in sentences. Case constructions are accurately discriminated and explained; the ordinary uses of the subjunctive and the infinitive are interpreted; and the more common idioms of Caesar are noticed.

The composition course is specially adapted to furnish ample practice in syntax, and to fit the student for the writing of simple connected narrative.

MIDDLE YEAR.—In the Middle year the course in Cicero aims towards the mastery of an extended vocabulary, an elementary knowledge of

synonyms, an accurate discrimination of grammatical constructions, and facility in reading the Latin. The student is encouraged to notice and appreciate beauty of thought and of expression. In rendering Latin in English carelessness in diction is not tolerated. Special efforts are made to render the student familiar with the chief characteristics of Cicero's oratory and with the history of his time.

The work in prose composition is devoted to connected narrative.

SENIOR YEAR.—In this year the Latin study broadens with the view to promoting a scholarly ease in the reading of the literature prescribed. Poetical constructions and peculiar uses of words are subjects of special study. Practice in reading the hexameter rhythmically forms an essential feature in the study of Vergil. No effort is spared to induce a thorough understanding of the work read, and an appreciation of the literary art involved. Linguistic study is directed towards a wider knowledge of word-formation, and of the principles of syntax. Examinations are set largely from passages not previously seen by the student.

The study of Roman life aims to give a general survey of the subject.

MATHEMATICS

SENIOR YEAR.—The course in Geometry provides not only for drill in logical demonstration but for the original and intelligent solution of a large number of exercises. In different divisions of the class, the course is varied to meet the college requirements. The course in Trigonometry, as given in the schedule of the Scientific Department, is open only to those who have completed a thorough course in Plane Geometry.

JUNIOR YEAR.—The course in Geometry is devoted to an elementary consideration of the properties, and the mensuration of the simple Geometrical figures. Constant use is made of simple Algebraic processes and symbols.

SCIENTIFIC DEPARTMENT

The object of this department, established in 1830, is to afford a substantial course of study, chiefly on the basis of Mathematics and the Natural Sciences, with History, Latin, Modern Languages and Literature.

The Course of Study is designed to furnish thorough preparation for the Lawrence Scientific School of Harvard University, the Sheffield Scientific School of Yale University, the Massachusetts Institute of Technology, and other scientific schools and colleges of the higher grade.

For illustrating the principles of Natural Philosophy the school is provided with excellent apparatus, which is used in lectures given in connection with the text-books. There is a well-equipped Physical Laboratory, for experimental work. An appropriation of $300 is made each year to procure the latest and best instruments.

The Academy is provided with a full set of instruments for courses in practical surveying, consisting of a solar transit, surveyor's compasses, levels, and other appliances.

The Science Building furnishes ample accommodations for the departments of Physics and Chemistry. The building contains, besides recitation rooms, a lecture room, a draughting room, a Physical and a Chemical Laboratory, thoroughly equipped for individual work.

The Newton cabinet contains several thousand specimens of rocks, minerals, fossils, insects, shells, and other illustrations of Natural History, and a small collection of coins, stone implements, and other valuable antiquities.

SCIENTIFIC COURSE

CLASS D

JUNIOR

FIRST TERM:

MATHEMATICS.—Elementary Algebra. 2 hours. Elementary Geometry. 2 hours.

LATIN.—Lessons. 6 hours.

ENGLISH.—Review of Grammar. Composition. Irving's Sketch Book. 4 hours.

NATURAL SCIENCE.—Physiography. 2 hours.

SECOND TERM:

MATHEMATICS.—Elementary Algebra. 2 hours. Elementary Geometry. 2 hours.

LATIN.—Lessons, continued. 6 hours.

ENGLISH.—Composition. Lockwood's Lessons. American Authors. 4 hours.

NATURAL SCIENCE.—Physiography. 2 hours.

THIRD TERM:

MATHEMATICS.—Elementary Algebra. 2 hours. Elementary Geometry. 2 hours.

LATIN.—Gradatim, selections. Exercises in writing Latin. 6 hours.

ENGLISH.—Composition. Study of words. Readings. 4 hours.

NATURAL SCIENCE.—Physiography. 2 hours.

CLASS C

JUNIOR MIDDLE

FIRST TERM:

MATHEMATICS.—Algebra, to Equations. 3 hours. Plane Geometry, begun. 3 hours.

ENGLISH.—Readings. Composition and Rhetoric. 2 hours.

MODERN LANGUAGES.—French or German. 4 hours.

LATIN.—Caesar, Gallic War, begun. 4 hours.

NATURAL SCIENCE.—Chemistry, Non-metallic Elements. 2 hours.

SECOND TERM:

MATHEMATICS.—Algebra, to Radicals. 3 hours. Plane Geometry, continued. 3 hours.

ENGLISH.—Shakespeare. Composition and Rhetoric. 2 hours.

MODERN LANGUAGES.—French or German. 4 hours.

LATIN.—Caesar, Gallic War, continued. 4 hours.

NATURAL SCIENCE.—Chemistry, Non-metallic Elements. 2 hours.

THIRD TERM:

MATHEMATICS—Algebra, to Quadratics. 3 hours. Plane Geometry, completed. 3 hours.

ENGLISH.—Study of words. Readings. 2 hours.

MODERN LANGUAGES.—French or German. 4 hours.

LATIN.—Caesar, Gallic War, continued. 4 hours.

NATURAL SCIENCE.—Chemistry, Non-metallic Elements. 2 hours.

NOTE.—At least four books of the Gallic War are read during the year.

CLASS B

MIDDLE

FIRST TERM:

MATHEMATICS.—Geometry of Space, begun. 2 hours. Plane Geometry, review. 1 hour. Algebra, Quadratic Equations. 3 hours.

NATURAL SCIENCE.—Chemistry, Metallic Elements and Elementary Qualitative Analysis. 4 hours, or

LATIN.—Caesar, Gallic War, reviewed. 2 hours, and

BOTANY.—2 hours.

MODERN LANGUAGES.—French or German. 2 hours.

HISTORY.—English History. 4 hours.

ENGLISH.—Literature and Composition. 2 hours.

SECOND TERM:

MATHEMATICS.—Geometry of Space, continued. 2 hours. Plane Geometry, review. 1 hour. Algebra. Inequalities, Ratio and Proportion, Progression. 3 hours.

NATURAL SCIENCE.—Chemistry, Metallic Elements and Elementary Qualitative Analysis. 4 hours, or

LATIN.—Caesar, Gallic War, reviewed. Composition. 2 hours, and

BOTANY.—2 hours.

MODERN LANGUAGES.—French or German. 2 hours.

HISTORY.—English History. 4 hours.

ENGLISH.—College requirements. Composition. 2 hours.

THIRD TERM:

MATHEMATICS.—Geometry of Space, completed. 2 hours. Plane Geometry, review. 1 hour. Algebra, to the General Theory of Equations, completed. 3 hours.

NATURAL SCIENCE.—Chemistry, Metallic Elements and Elementary Qualitative Analysis. 4 hours, or

LATIN.—Caesar, Gallic War, reviewed. Composition. 2 hours, and

BOTANY.—2 hours.

MODERN LANGUAGES.—French or German. 2 hours.

HISTORY.—English History. 4 hours.

ENGLISH.—College Requirements. Composition. 2 hours.

CLASS A

SENIOR

A schedule of not less than eighteen (18) hours per week, selected from the following subjects, according to college requirements. The courses are continuous, throughout the school year :

MATHEMATICS A.—Plane Trigonometry. 2 hours. Advanced Algebra. 2 hours.

NATURAL SCIENCE A.—Physics I. 4 hours. Chemistry B. 4 hours.

LATIN A.—Cicero, Catiline Orations, Archias. 4 hours.

MODERN LANGUAGE A.—Advanced French. 4 hours. Advanced German. 4 hours.

HISTORY A.—United States. 2 hours. Political Economy. 2 hours.

DRAWING A.—Mechanical. 2 hours.

ENGLISH A.—College Requirements. Themes. 2 hours.

ZOÖLOGY A.—Text and Laboratory. 2 hours.

* GEOMETRY B.—Geometry of Space. 2 hours.

* BOTANY B.—2 hours.

* HISTORY B.—English. 4 hours.

* Algebra B.—3 hours.

Any other courses, not previously pursued, in any class, in either department, of the school.

* Courses counting as Senior work only as substitutes for Senior courses already accepted on college examinations.

SUPPLEMENTARY READING

Examinations will be held, at the middle and near the close of each term, upon the following books:

Classes IV and D.

First Term.—Cooper's Last of the Mohicans; Dickens's Cricket on the Hearth.

Second Term.—Hughes's Tom Brown at Rugby; Stevenson's Kidnapped.

Third Term.—Dickens's Nicholas Nickleby.

Classes III and C.

First Term.—Scott's Talisman; Stevenson's New Arabian Nights.

Second Term.—Dickens's David Copperfield.

Third Term.—Irving's Alhambra.

Classes II and B.

First Term.—Dickens's Tale of Two Cities; Longfellow's Tales of a Wayside Inn.

Second Term.—Blackmore's Lorna Doone; Mrs. Jackson's Ramona.

Third Term.—Mitchell's Hugh Wynne.

Classes I and A.

First Term.—Thackeray's Henry Esmond; Barrie's A Window in Thrums.

Second Term.—Hawthorne's Scarlet Letter; Tennyson's Idylls of the King.

Third Term.—Crawford's Roman Singer.

PRIZES

The following prizes are offered annually for proficiency in the work of several of the departments:

IN ENGLISH

The Draper Prizes for *Selected Declamations*, founded by Mr. W. F. Draper, of the class of 1843, of Andover. The first prize is of twenty dollars, the second of twelve dollars, the third of eight dollars. The competition is open to students in either department. A preliminary trial before a committee is held early in May, the final competitors being chosen on the basis of the ten best rendered selections. The thirty-second competition occurred June 22, 1898. The Committee of Award were Prof. Alexander R. Merriam, Hartford, Conn., Rev. Lewis Gregory, Lincoln, Neb., H. S. Robinson, Andover.

The Means Prizes for *Original Declamations*, founded by the late Wm. G. Means, of Boston. The first prize is of twenty dollars, the second of twelve dollars, the third of eight dollars. Students in either department may compete. Compositions must be submitted before March 1st. Ten are selected for the final competition, by the same judges who act as committee of award, the prizes being given on the merits of both composition and delivery. The thirty-first competition was held May 10, 1898, the Committee of Award being Rev. Frederick H. Page, M.A., Lawrence, Mr. Frederick H. Hedge, B.A., Lawrence, Rev. Henry E. Oxnard, B.A., LL.B., Lawrence.

The subjects for the thirty-third competition, March 1, 1900, are:

1. The Province of the Cheap Magazine.
2. Two Systems of School Government.
3. Ethics and Etiquette.
4. Are We a Musical People?
5. The Future of the Slavonic Race.

6. Some New Aspects of Trusts and Monopolies.
7. American Sentimentality.
8. The Era of the Short Story.
9. Does Machinery Displace Labor?
10. Birds and Bird Study.

The Harvard–Andover Prizes, sustained by the Harvard–Andover Club. Two prizes are offered, one of fifteen dollars and one of ten dollars, for excellence in Elementary Rhetoric and English Composition. The competition is open to members of the Senior and Middle classes of both departments. The Committee of Award for the tenth competition, held in June, 1898, was W. B. Parker, B. A., Harvard University.

The Robinson Prizes for *Debate*, sustained by Mr. H. S. Robinson, of Andover, are open to members of the two debating societies, Philo and Forum. The first prize of twelve dollars, the second of eight dollars, are awarded to the students presenting the best arguments, irrespective of the merits of the question. Each society selects three men to represent their society. The third competition occurred June 20, 1898. Committee of Award, Hon. R. R. Bishop, Newton, Mass., Rev. Lewis Gregory, Lincoln, Neb., and Hon. Appleton Park Williams, West Upton, Mass.

IN GREEK

The Joseph Cook Greek Prizes, founded by Dr. Joseph Cook, class of 1857, of Ticonderoga, N. Y. The prizes are fifteen, ten, and five dollars respectively. The special topics included in the twenty-first competition, May, 1900, will be:

1. Translations at sight from Homer, with questions suggested by the text.
2. Translation at sight from English into Greek.
3. Greek Literature and Antiquities.

The Committee of Award for the nineteenth competition, May, 1898, were Frank C. Babbitt, Ph. D., and Charles B. Gulick, Ph. D., both of Harvard University.

IN LATIN

The Crane Prizes for *Excellence in Virgil*, the gift of the late Rev. Oliver Crane, D. D., LL.D., of copies of his translation of Virgil. Open to Seniors and Middlers.

The Dove Latin Prizes, founded by Mr. George W. W. Dove, class of 1853, of Andover. The prizes of twenty, fifteen and ten dollars, are awarded for excellence in Latin and are open to Seniors in the Classical Department.

The Committee of Award for the fourteenth competition, May, 1898 were Prof. John K. Lord, Prof. F. G. Moore and Mr. E. G. Ham, all of Dartmouth College.

IN THE CLASSICS

The Valpey Classical Prizes, founded by the late Rev. Thomas G. Valpey, of the class of 1854. Two prizes, of ten dollars each, are awarded, one for excellence in Latin Composition ; one for excellence in Greek Composition. The competition is open to members of the Middle Class. The third competition occurred in June, 1898. Committee of Award, the Classical teachers of the Academy.

IN MATHEMATICS

The Convers Mathematical Prizes, founded by E. B. Convers, Esq., class of 1857, of Englewood, N. J. Three prizes of twenty dollars, twelve dollars and eight dollars, are awarded for excellence in the mathematics of the Classical Department, to be determined by an examination in May of the Senior Year. The Committee of Award for the first competition, May, 1898, were Prof. A. W. Phillips, Yale University, and Mr. George D. Pettee, Andover.

SENIOR HONORS

Class of 1898

CLASSICAL DEPARTMENT

Greek—Arthur Stanley Pease, Harry Alfred Peters,
Hugh Satterlee, Enos Kittredge Sawyer,
Henry Blake Taplin, Arthur Stanley Wheeler.

Latin — Gardner Abbott, Arthur Stanley Pease,
Harry Alfred Peters, Hugh Satterlee,
Enos Kittredge Sawyer.

English—Arthur Stanley Pease, Hugh Satterlee.

French—Hugh Satterlee, Enos Kittredge Sawyer.

German—Hugh Satterlee.

Mathematics—Thomas Parker Hubbard,
Arthur Stanley Pease, Harry Alfred Peters.

Physics—Henry Larned Galpin, Arthur Stanley Pease.
Hugh Satterlee.

SCIENTIFIC DEPARTMENT

Mechanical Drawing—Allen Lansing Appleton.

French—Henry Wilmarth Westcott.
Allen Lansing Appleton.

History—John Baxter Bain.

Mathematics—Allen Lansing Appleton, Barnard Coffin Luce,
Clinton Lowrie Childs, Henry Wilmarth Westcott,
John Hough Wickersham.

ALUMNI ASSOCIATION

PRESIDENT

Talcott Williams, 1869	Philadelphia, Pa.

VICE-PRESIDENTS

Issachar Lefavour, 1838	Beverly
John Thacher, 1849	Attleboro
Henry H. Stebbins, 1858	Rochester, N. Y.
Henry M. Silver, 1868	New York, N. Y.
Charles S. Mills, 1878	Cleveland, O.
William T. Brewster 1888	New York, N. Y.

SECRETARY

George T. Eaton, 1873	Andover

TREASURER

George D. Pettee, 1883	Andover

EXECUTIVE COMMITTEE

George W. W. Dove, 1853	Andover
James H. Ropes, 1885	Cambridge
Fred W. Moore, 1889	Cambridge
Perley F. Gilbert, 1890	Andover

Meetings, with reception and dinner, are held in Boston every even year, 1900, 1902, etc., and at Andover each year, in connection with the graduation exercises. The date, for 1899, will be June 22.

It is desired that correspondence regarding membership and information concerning past members of the Academy be sent to the Secretary.

A copy of the Annual Catalogue will be sent regularly to all past students who may express a desire to receive it, and who furnish their addresses for the purpose. Address Phillips Academy, Andover, Mass.

On the Peter Smith Byers Memorial Foundation

MATTHEW S. McCURDY, M.A., 60 Bartlet Street
Instructor in Mathematics

WILLIAM B. GRAVES, M.A., 9 Salem Street
Professor of Natural Sciences on the George Peabody Foundation

GEORGE T. EATON, M.A., 73 Bartlet Street
Instructor in Mathematics

GEORGE D. PETTEE, M.A., 77 Bartlet Street
Instructor in Mathematics and Registrar

WILLIAM H. TERRILL, M.A., 25 Porter Street
Instructor in Greek and Latin

C. EMERSON STONE, Ph.B., 104 Main Street
Instructor in French

CHARLES H. FORBES, B.A., 25 South Main Street
Professor of Latin on the John C. Phillips Foundation

HENRY W. BOYNTON, M.A., 7 Punchard Avenue
Instructor in English

WALTER R. NEWTON, Ph.D., 169 Main Street
Instructor in German

ARCHIBALD FREEMAN, M.A., Bancroft 8
Instructor in History

ALLEN R. BENNER, B.A., Andover 7
Professor of Greek

JAMES C. GRAHAM, B.S., Taylor 4
Instructor in Chemistry

BERNARD M. ALLEN, B.A., 67 Bartlet Street
Instructor in Latin

JOHN L. PHILLIPS, B.A., 4 Locke Street
Instructor in Latin

HOWARD I. FORD, B.A., Draper 4
Instructor in English

FREDERICK E. NEWTON, PH.B., 28 Salem Street
Instructor in Mathematics

EDWIN T. BREWSTER, M.A., 44 Chestnut Street
Instructor in Natural Sciences

ALFRED E. STEARNS, B.A., 23 Bartlet Hall
Instructor in History and Athletic Director

*PROF. JOHN WESLEY CHURCHILL, D.D., 179 Main Street
Instructor in Elocution

---

*Died April 13, 1900

PHILLIPS ACADEMY

The Phillips Academy was founded at Andover on the twenty-first of April, 1778, by the gifts of Hon. Samuel Phillips and his brother Hon. John Phillips, consisting of about 141 acres of land in Andover purchased for the purpose, and about 200 acres of land in Jaffrey, N. H., together with the sum of one thousand six hundred and fourteen pounds. The deed of gift which is known as the "The Constitution of Phillips Academy" was drawn up, as appears from contemporary documents, largely under the influence of Samuel Phillips, jr., and Eliphalet Pearson, two young men whose friendship in school and college, and whose sympathy in the religious and patriotic movements of the times made them mutually helpful in the project of founding a new institution of learning, and, as it proved, a new type of institution. Dr. Pearson became the first principal, and Judge Phillips fostered the school till his death in 1802 with assiduous devotion.

The main purpose and scope of the school are shown in the opening paragraphs of the constitution, as follows:

> "A short reflection upon the grand design of the great Parent of the Universe in the creation of mankind, and the improvements of which the mind is capable both in knowledge and virtue, as well as upon the prevalence of ignorance and vice, disorder and wickedness, and upon the direct tendency and certain issue of such a course of things, must occasion, in a thoughtful mind, an earnest solicitude to find the source of these evils and their remedy; and a small acquaintance with the qualities of young minds, — how susceptible and tenacious they are of impressions, evidences that youth is the important period, on the improvement or neglect of which depend the most important consequences to individuals themselves and the community.
>
> A serious consideration of the premises, and an observation of the growing neglect of youth, have excited in us a painful anxiety for the event, and determined us to make, in the following Conveyance, a humble dedication to our Heavenly Benefactor of the ability, wherewith he hath blessed us, to lay the foundation of a public free school or academy for the purpose of instructing Youth, not only in English and Latin,

Grammar, Writing, Arithmetic, and those sciences, wherein they are commonly taught; but more especially to learn them the great end and real business of living.

Earnestly wishing that this Institution may grow and flourish; that the advantages of it may be extensive and lasting; that its usefulness may be so manifest, as to lead the way to other establishments on the same principles; and that it may finally prove an eminent means of advancing the Interest of the great Redeemer, to His patronage and blessing we humbly commit.

The first trustees were Samuel Phillips of Andover, John Phillips of Exeter, William Phillips of Boston, Oliver Wendell of Boston, John Lowell of Boston, Rev. Josiah Stearns of Epping, Rev. Elias Smith of Middleton, Rev. William Symmes, Rev. Jonathan French, Samuel Phillips, jr., and Nehemiah Abbot of Andover, — men whose services and benefactions, at Andover and elsewhere, were to become memorable in the history of American education.

Provision having been made for the organization and succession of the trustees, the management of the property, the appointment of teachers and the admission of pupils, the constitution continues:

" It shall ever be considered as the first and principal duty of the Master to regulate the tempers, to enlarge the minds, and form the Morals of the youth, committed to his care.

There shall be taught in this Seminary the English, Latin and Greek Languages, Writing, Arithmetic, Music and the Art of Speaking; also practical Geometry, Logic, and any other of the liberal Arts and Sciences, or Languages, as opportunity and ability may hereafter admit, and as the Trustees shall direct.

The Master is to give special attention to the health of the Scholars, and ever to urge the importance of a habit of industry. But, above all, it is expected, that the Master's attention to the disposition of the Minds and Morals of the Youth under his charge will exceed every other care; well considering that, though goodness without knowledge (as it respects others) is weak and feeble; yet knowledge without goodness is dangerous; and that both united form the noblest character, and lay the surest foundation of usefulness to mankind.

It is therefore required that he most attentively and vigorously guard against the earliest irregularities; that he frequently delineate, in their natural colours, the deformity and odiousness of vice, and the beauty and amiableness of virtue; that he spare no pains, to convince them of their numberless and indispensable obligations to abhor and avoid the former, and to love and practice the latter; of the several great duties they owe to God, their country, their parents, their neighbors and them-

> selves; that he critically and constantly observe the variety of their natural tempers, and solicitously endeavor to bring them under such discipline, as may tend most effectually to promote their own satisfaction and the happiness of others; that he early inure them to contemplate the several connexions and various scenes, incident to human life: furnishing such general maxims of conduct, as may best enable them to pass through all with ease, reputation, and comfort.
>
> And, in order to prevent the smallest subversion of the true intent of this Foundation, it is again declared, that the *first* and *principal* object of this Institution is the promotion of true Piety and Virtue; the *second*, instruction in the English, Latin and Greek languages, together with Writing, Arithmetic, Music, and the Art of Speaking; the *third*, practical Geometry, Logic, and Geography; and the *fourth*, such other of the liberal Arts and Sciences of Languages, as opportunity and ability may hereafter admit, and as the Trustees all direct."

The school was opened for instruction April 30, 1778, with a group of thirteen pupils. On Oct. 4, 1780, it was incorporated in the last act of the "Great and General Court" previous to the organization of the new state government. The powers of the trustees have been enlarged by the legislature from time to time, notable in the acts conferring the power to hold additional funds, and in the act of June 19, 1807, whereby the Trustees were empowered to receive and hold real and personal estate for the purpose of a separate "Theological Institution." The Andover Theological Seminary, the first of the many theological schools, was accordingly established in the following year.

In 1830, the "Teachers Seminary" was established as another distinct school, an anticipation of the normal schools, and to a less degree, of the Scientific schools which have since been planted elsewhere. In 1842 this Seminary was merged into the parent Academy and is the present Scientific Department.

By the generous gifts of numerous benefactors, in sums large and small, the original foundations have been much enlarged. The school has been "equally open to youth, of requisite qualifications, from every quarter." It has done a useful work in the education of boys who have not gone to college, and in its time has prepared boys for colleges and scientific schools in unprecedented numbers.

ANNOUNCEMENT

Gifts received for the year ending April 30, 1900:

J. F. Barnett,	$ 10 00
T. S. Clark,	50 00

Annual Premium, (life policy of R. M. H.)	10 00
H. B. Foster, (prizes)	20 00
Case of Indian Relics, R. M. Levering.	

The prosperity of the school has increased the demands made upon it, and constitutes an appeal for gifts for the maintenance of its efficiency under the demands of "the new education," and for its improvement and advancement in its own appropriate and important field.

The legal name of the corporation is "The Trustees of Phillips Academy," and gifts and bequests should be made to them.

THE ACADEMY

The administrative policy of the school assumes on the part of its students a definite educational purpose and the school traditions stand for moral responsibility, hearty coöperation, and worthy achievement.

The Academy is not a suitable school for boys who are idle, insubordinate, or lacking in self-control, or for such as require the supervision of a teacher and the routine of a school-room in order to enforce industry and fidelity. Students who are found to be unable or unwilling to meet the school requirements, and those whose influence is injurious, must be withdrawn from the school. As maturity is not always to be measured by years, the school makes no specific requirements as to the age of the candidate. It has been found that boys of fourteen are usually able to meet the responsibilities of the academic life.

REQUIREMENTS FOR ADMISSION

Testimonial

Candidates for admission to the Academy are required to present testimonials of good moral character and certificates of standing in the schools most recently attended. These certificates are required not later than the date of the entrance examinations and should be forwarded earlier if possible to the principal of the Academy.

Certificates of scholarship standing in other secondary schools are not accepted for admission to the several classes of the Academy, but records of proficiency and courses of study completed are of service to the school officers. Such certificates furnish valuable collateral evidence of the candidate's attainments and needs, and supplement but do not take the place of the regular entrance examinations.

Entrance Examinations. Senior Class

Harvard and Yale entrance certificates, and other college certificates of equivalent value, are accepted for admission to the Academy in place of the school entrance examinations. Candidates for the Senior class who expect to receive the diploma of the school at the end of one year's study should present certificates of the following value:

HARVARD, 18 POINTS.

Including Elementary Greek, Latin, French or German, English, Algebra, Plane Geometry, or their equivalents.

YALE (COLLEGE), 14 SUBJECTS.

Including Latin Grammar, Caesar and Nepos, Cicero or Vergil, Latin Composition, Greek Grammar, Xenophon, Greek at Sight Greek Composition, Algebra *a* and *b*, Geometry *a* and *b*, French or German, English *a*, or their equivalents.

YALE (SHEFFIELD SCIENTIFIC SCHOOL), 10 SUBJECTS.

Including English Grammar, English Literature *a*, English History, Latin Grammar and Exercises, Caesar, French or German, Algebra *a* and *b*, Plane Geometry, Botany, or their equivalents.

Certificates of fewer subjects, according to their value, may secure provisional admission to the Senior class, but such standing necessitates courses of study with the lower classes and either adds hours per week to the student's schedule of class work, or lengthens the time required for his preparation for college.

Candidates for admission to the Senior classes should indicate in their preliminary correspondence the subjects credited to them in their college examinations. In providing for deficiences in college certificates, subjects pursued with any class in the Academy count as full equivalents for Senior courses already accepted by the college. The course of study given in summary on page 25 shows in part the range of selection open to those who have secured certificates of superior value.

Entrance Examinations. Classes below Senior

Candidates for admission to the Junior, Junior Middle and Middle Classes are examined as follows:

On Friday, June 29, 1900, at 9 o'clock A. M., in Andover, at the Academy building, Room 6, and on the same day at the same hour in New York City, at the rooms of the Young Men's Christian Association, on 23rd St.

Candidates intending to present themselves at these examinations should give seasonable notice to the Registrar of the Academy.

Examinations will be held in other of the larger cities, if the number of candidates in any vicinity is sufficient.

On *Wednesday, September 19, 1900*, at 9.00 A.M., in Andover only, according to a schedule of rooms and hours announced at that time.

On *Thursday, January 3*, and on *Thursday, April 11, 1901*, the first days of the second and third terms. These examinations provide for such candidates as are prepared to join regular school classes.

For examinations held in Andover on these regular dates no fees are charged. For examinations held in New York City, or elsewhere outside of Andover, and for special entrance examinations held at other times than those here given, there is a fee of $5.00.

The subjects upon which entrance examinations will be given in June and September, 1900, are as follows:

FOR ADMISSION TO THE

CLASSICAL DEPARTMENT

JUNIOR CLASS:

Arithmetic, complete, except the Metric System.
English Grammar, elementary.
Reading and Spelling.
Geography, Modern Political.

JUNIOR MIDDLE CLASS:

Arithmetic, complete, including the Metric System.
Algebra, to the subject of Radicals.

Algebra (1901), through Quadratics.
English Grammar, complete.
Latin Grammar and Exercises.
Caesar, Gallic war, Books II and III.

MIDDLE CLASS:

Arithmetic, complete, including the Metric System.
Algebra. complete, including Progressions, Permutations, and Undetermined Coefficients.
English Composition.
Latin Grammar and Exercises.
Caesar, Gallic War, four books.
Nepos, eight lives.
Ovid, 1500 verses.
Greek Grammar and Exercises.
French or German, Exercises and translation, covering a full year's work.
Plane Geometry (1901), four books.

FOR ADMISSION TO THE

SCIENTIFIC DEPARTMENT

JUNIOR CLASS:

Arithmetic, complete.
English Grammar, elementary.
Reading and Spelling.
Geography, Modern Political.

JUNIOR MIDDLE CLASS:

Arithmetic, complete.
Algebra (1901), through Quadratics.
English Grammar, complete.
Latin Grammar and Exercises.
Translation of simple selections from the Latin.

MIDDLE CLASS:

Arithmetic, complete.
Algebra, complete.
English Composition.
Plane Geometry, three books.
Latin Grammar and Exercises.
Caesar, Gallic War, four books.
French or German, Exercises and translation, covering a full year's work.

Registration The school year begins in September, and while new students may be admitted later, by special examination, it is most advisable that they present themselves promptly at the beginning of the Fall Term. The student registers on the first day of each term as announced in the Calendar, reporting first at the Treasurer's office, to make payment for the dues of the term, and, secondly, to his class officer, who will arrange his schedule of work for the term.

Classification Each successful candidate is enrolled in one of the regular classes and is required to pursue the prescribed work of that class. Deficiencies in preparation, and occasionally other considerations, sometimes make it necessary for the student to do some work in other classes than his own; but such arrangements should be considered as temporary and exceptional.

The Academy makes no provision for partial students: nor for special students who are not candidates for graduation from the Academy or for entrance to college. scientific school, or professional school.

When a student, through failure to maintain his regular classification, loses from his schedule eight or more recitation hours per week, he is registered with a lower class.

Examinations and Promotions Written examinations are held in each study at least once a term: but in most courses the term grading is made largely on the basis of daily work. Near the close of the year reviews are held, with special examinations to determine the student's fitness for promotion or graduation. By way of preparation for college tests these examinations are conducted with strict formality. In all the written exercises of the school year the absolute integrity of the student is assumed, and a student may not retain his connection with the school, who fails to comply with so essential a requirement. In addition to completing the

class-room courses, each class is required to pass a satisfactory examination upon a supplementary course of reading. At the close of each term, and at other times when occasion requires, reports of the student's scholarship and attitude toward his work are sent to his parents or guardian.

Class Officers

Each student is by his classification assigned to the special care of one of the eight members of the Faculty who are known as Class Officers. This officer arranges the studies of each member of the class of which he is in charge, keeps particular record of the student's standing and progress, advises him in the choice of his elective studies, conducts correspondence with parents relating to the boy's school life, and exercises general supervision of his welfare, while he remains in the class.

Daily Appointments

Morning Chapel. 7.50 A. M.
Recitation and Study Hours, 8 to 12 A. M., 2 to 4 P. M.
Evening Study Hours begin at 8 P. M.
Sunday Chapel Services. 10.30 A. M.. and 4.30 P. M.
Half holidays. Wednesday and Saturday afternoons.
Anniversary Holidays, 8 A. M., to 7.30 P. M.

Study Hours

During the Recitation and Study Hours, when not engaged in the class-room, students are required to occupy themselves with the preparation of school exercises, or with other literary work.

Absences

All absences from recitation, morning chapel, Sunday service, or from the student's room during study hours, are to be accounted for: and excuses should be secured in advance, whenever the necessity for such absence can be foreseen.

Holiday Excuses

All out-of-town excuses must be obtained from the Principal. Such excuses are granted somewhat freely on half-holidays and on the special holidays to those whose school standing is good. The student who goes out of town without permission, forfeits his connection with the school.

Religious Exercises Students are uniformly required to be present at morning chapel. After the devotional exercises opportunity is given for special announcements, brief school meetings, or other business preliminary to the work of the day. Sunday services for the students are held in the Chapel which is used in common by the Theological Seminary and the Academy. Regular members of the Protestant Episcopal, Baptist, or Roman Catholic congregations may be excused to attend the local churches of these denominations. The Society of Inquiry holds voluntary devotional meetings on Wednesday and Sunday evenings.

EXPENSES

Parents can estimate approximately the necessary expenses of their sons at the school; and it is particularly requested that they do not furnish money beyond what is necessary for ordinary expenses. Pupils who are supplied with much spending money, or who are allowed to make debts, usually accomplish but little in their studies, and are liable to form habits which require their removal from school.

Term Bills The term-bills for tuition are as follows: for the Fall Term, $40.00; for the Winter Term, $30.00; for the Spring Term, $30.00. There is a graduation fee of $7.00. Laboratory fees of $5.00 a term are charged for the fall and winter terms in advanced Chemistry; of $2.50 a term for each term in elementary Chemistry; of $5.00 a term for each term in Physics; and of $2.50 for the Winter Term in Botany. The term-bills are paid in person by the students, or (request to that effect being made) mailed to the parent or guardian. They are payable at the commencement of the term. Checks should be drawn in favor of the Trustees of Phillips Academy.

BOARD AND LODGINGS

I. Private Houses About forty private houses in the vicinity of the Academy, under license from the Trustees, provide board and lodgings for students, and no student may occupy a house not thus sanctioned by the School.

Some of the houses provide furnished rooms only; others provide rooms and board, and some of the latter furnish board for students rooming in neighboring houses.

The price of table board in Commons is $3.00, and in private families from $4.00 to $7.00 per week. The price of furnished rooms, including ordinary service, is from $3.00 to $6.00 per week and upwards.

Engagements for rooms in private families continue to the end of the Academic year. Care should, therefore, be exercised in the selection of rooms. Engagements for table board may, on suitable notice, be terminated at the close of any term.

II. Cottages

By the gifts of Mr. Melville C. Day, class of 1858, Mr. Warren F. Draper, class of 1843, and of many citizens of Andover, aided by a few friends outside of Andover, four small dormitories have been built, called respectively, "The Taylor," "The Andover," "The Draper," "The Eaton," and "The Bancroft." They are built of brick with granite trimmings, and careful attention has been given to the warming, ventilation, water supply, bath and toilet arrangements, and the drainage. Each building contains apartments for a resident teacher. The Taylor and the Draper contain five double suites for students; the Andover has five double suites and three single rooms; the Eaton has four double suites, two single suites, and one single room; The Bancroft contains eighteen double suites. Each suite has separate bedrooms, an open fireplace, ample closet room, and a storage locker in the attic. Table board for students in these dormitories may be secured in Commons at $3.00, or in private families at $4.00, $5.00, $6.00, and $7.00 per week. Students in the Draper are regarded as rooming in Commons.

These accommodations for five teachers and eighty pupils are a partial realization of a plan to replace, as fast as funds are provided for the purpose, the present Latin and English Commons with modern buildings, as favorable as possible to the best student life. The income derived from the fees is applied first to maintenance, second to certain life annuities attached to the deeds of gifts, and third to the aid of deserving students who need pecuniary aid.

Students who use tobacco in any form, occasionally or habitually, must not apply for these rooms. No furniture is supplied by the school. The fees include the charge for heat and for the care of the rooms.

PRICE OF ROOMS FOR 1900–1901

For a double suite in the Taylor, the Andover, the Eaton, or the Bancroft, each student,	$100.00
For a double suite in the Draper (not including service), each student,	$40.00
For a single suite in the Bancroft,	$125.00
For a single room in the Andover or the Eaton,	$50.00

III. Commons

There are thirty rooms in Commons for pupils, and two for teachers. Each room is designed for two persons and has two single bedrooms connected with it. The price of rooms is $5.00 per term for each student. The accomodations provided in Commons are very plain, and intended expressly for those who wish to make their expenses small. The rooms are supplied only with tables and bedsteads for single beds. Bedding is usually brought from home. Stoves and other articles necessary to furnish a room can be obtained here at reasonable prices. Plans of the rooms and other information may be had by addressing the Registrar. Persons who use tobacco, occasionally or habitually, must not apply for rooms in Commons.

Persons who room in Commons are not permitted to pay more than $4.00 per week for table board. Students rooming, without board, in private houses, may board in Commons if there are vacant places. The price of table board by the term is at present $3.00 per week, payable monthly in advance. The rate for the short vacations, and for small fractions of a term, is $4.00 a week. The house opens September 17, 1900.

ENDOWMENT AND SCHOLARSHIPS

Beneficiary Aid

The *Farrar Fund*, a legacy from the late Treasurer Samuel Farrar, Esq., amounts, with additions from income, to Twenty-Two Thousand Dollars.

The *Students' Educational Fund*, begun with a gift of $100 from the Senior Class of 1854, and enlarged by their efforts to $1.800, now amounts to $5,700. The Trustees desire to increase this fund to at least $25,000, in order to meet the opportunity for assisting worthy young men, ambitious to secure a liberal education.

Scholarships

The following scholarships have been established:

The *Clarke Scholarship* of $1,200, established in 1870 in memory of Mrs. Jane Aiken Clarke.

The *Jonathan Taylor Scholarship* of $1000. established in 1878 by the late Edward Taylor. in memory of his father.

The *Peter Smith Byers Scholarship* of $500, established in 1878 by the late John Byers.

The *French Scholarship* of $1000, established in 1879 by the bequest of Hiram W. French.

The *Class of 1878 Scholarship* of $500, established by the Classical class of 1878.

The *Caroline Parker Taylor Scholarship* of $1000, established in 1880 by Mrs. Alpheus Hardy.

The *Gerard Sumner Wiggin Scholarship* of $1000, established in 1882 by the bequest of Lady Elizabeth Sumner Buckley-Mathew Fleming.

The *Richards Scholarship* of $1000, established in 1889 by the late Mrs. Mary A. Richards, in memory of her sons, deceased.

The *Charles L. Flint Scholarship Fund* of $5000, established in 1890 by the bequest of Hon. Charles L. Flint.

The *Emma Lane Smyth Scholarship* of $1000, established in 1890 by the late Ex-Gov. Frederick Smyth.

The *James and Persis Taylor Scholarship* of $1000, established in 1890 by Mrs. Mary E. Fairbanks.

The *Henry P. Haven Scholarship* of $1000, established in 1890 by the estate of Henry P. Haven.

The *Dowe Scholarship Fund* of $3000. established in 1892 by the bequest of John Dowe.

The *John Cornell Scholarship Fund* of $5000. established in 1894 by the bequest of John Cornell.

The *James Calvin Taylor Scholarship* of $1000, established in 1895 by his sister, Mrs. Mary E. Fairbanks.

Scholarship Aid

The income from these scholarships and other endowment funds, available for a limited number of students, is awarded to such as are in need of financial assistance and maintain a high grade of scholarship. The amount of aid most frequently awarded a student is the same as the tuition fee, which is thus remitted. This abatement is possible only after a student has been connected with the school for at least one term, during which time an opportunity is afforded the instructors and the school officers for determining the candidate's scholarship grade. Ordinarily forty scholarships may be awarded. Independently of the abatement of tuition charges, the school is able to award a limited number of small scholarships for excellence in special departments of school work.

Since the endowment funds of the Academy are insufficient to meet the demands even of the most worthy applicants, discrimination in favor of superior achievement is always made and satisfactory evidence must be furnished the Principal that the financial aid is necessary.

Candidates for admission to the Academy, dependent upon their own resources and in need of scholarship aid, should by careful preliminary correspondence indicate their sources of income, or their plans involving self-maintenance.

Endowment

In addition to the early endowments by Hon. Samuel Phillips, Dr. John Phillips, Hon. Wm. Phillips, Lieut.-Gov. Samuel Phillips, His Honor William Phillips, and others, and the Scholarships, Prizes, and Charity-funds mentioned elsewhere, gifts for buildings and for general purposes amounting to $71,000 have been more recently received (1878–00), and endowments have been made as follows: George Peabody Foundation for Natural Sciences (1866), $25,000; Samuel H. Taylor Fund (1871), $3,700; John C. Phillips Foundation of the Latin Department (1878), $25,000; Peter Smith Byers Foundation for the Principalship (1879), $40,000; Alden Educational Fund (1881), $5,000; Stone Educational Fund (1884), $25,000; W. F. Draper Fund (1887), $2,500; James S. Eaton Fund (1895), $500.

Libraries

The "Samuel H. Taylor Memorial Library" contains about 2,500 books, including the valuable classical library of the late Principal, Dr. Taylor, which was presented to the school (1876) by his sister, Mrs. Horace Fairbanks of St. Johnsbury, Vt. The "Associate Library" belongs jointly to the Philomathean Society and the Society of Inquiry, and contains 800 volumes. There are also special libraries in English, Classics, History, and Natural Science. The library of the Theological Seminary, and the Memorial Hall Public Library, aggregating 60,000 volumes, are accessible for consultation daily.

School Organizations

Among the School Organizations, maintained by the students, are the following: RELIGIOUS, The Society of Inquiry; DEBATING, the Philomathean Society, Forum; SCHOOL PAPERS, The Phillipian (semi-weekly), the Mirror (monthly), the Pot Pourri (annual); MUSICAL, the Glee Club, Banjo Club, Mandolin Club: THE ATHLETIC UNION, comprising the Base Ball, Foot Ball, Athletic and Tennis Associations; also the Camera Club, Chess Club, Dramatic Club, Gun Club, Skating Association, etc.

Location, etc.

Andover is a town of six thousand inhabitants, situated on the Western Division of the Boston and Maine Railroad, twenty miles north of Boston. It is the seat of the Andover Theological Seminary, Prof. George F. Moore, D.D., President of the Faculty, and of the Abbot Academy for young ladies, Miss Emily A. Means, Principal. For convenience the following additional addresses are given: John Tyler Kimball, Cashier of the Andover National Bank; John Kimball, Station Agent, Boston and Maine Railroad; E. P. Hitchcock, proprietor of the "Mansion House," the local hotel connected with the institutions; Warren F. Draper, the "Andover Publications;" George A. Higgins & Co., the Andover Bookstore; John N. Cole, *The Townsman*, and the Andover Press.

* Geometry B	2
* Botany B	2

*If alternate or equivalent subjects have been passed in college examinations.

Note.—Seniors arrange their schedules on the basis of the college certificates which they hold. Those studies are selected which best complete the student's preparation for his college or scientific school. The completion of the course, which secures the diploma of the Academy, requires a clear admission to the Senior Year and a schedule of eighteen hours per week of subjects such as ensure full admission to Harvard or Yale Universities.

CLASSICAL DEPARTMENT

The course of study is designed to furnish adequate preparation for any college. It is decidedly advantageous for students to take the entire course in the Academy. The languages are taught with a view to the student's progressive development. In the early study emphasis is laid upon the thorough knowledge of the forms and ordinary usages of the language. Composition work is insisted upon from the beginning. Later, effort is directed toward accuracy and nicety of translation, accompanied by critical study of syntax. In the study of poetry attention is called to the differences between poetic and prose diction. In the higher classes the elements of style and literary criticisms are studied and the student is trained to facility in reading at sight. Throughout the course he is taught to notice and to value thoughts as well as words. An especially selected library affords opportunity for students to acquire the habit of supplementary reading.

Harvard or Yale preliminary certificates, at the discretion of the Faculty, are accepted as equivalents for courses passed. Candidates for the Senior Class must take a college preliminary examination and obtain a certificate.

A variety of optional and extra studies is offered, especially in the Senior year, to meet the wants of students who are fitting for definite college requirements, or are to enter advanced divisions at the colleges, and also to provide for ambitious students who may wish to broaden their preparation. Members of the Senior Class select such subjects as are needed to complete their preparation for college and for the remainder of their schedule may elect any subjects in the Course of Study, of either department, not already completed. The classes in Physics and Chemistry have excellent facilities for practical work in the laboratories.

CLASSICAL COURSE

CLASS IV

JUNIOR

FIRST TERM:

LATIN.—Lessons. 6 hours.

MATHEMATICS.—Algebra, begun. 4 hours. Elementary Geometry. 2 hours.

ENGLISH.—Review of Grammar. Composition. Irving's Sketch Book. 4 hours.

NATURAL SCIENCE.—Physiography. 2 hours.

SECOND TERM:

LATIN.—Lessons, completed. Grammar. Viri Romae, selections, 25 pages. Exercises in writing. 6 hours.

MATHEMATICS.—Algebra, continued. 4 hours. Elementary Geometry. 2 hours.

ENGLISH.—Composition. Lockwood's lessons. American authors. 4 hours.

NATURAL SCIENCE.—Physiography. 2 hours.

THIRD TERM:

LATIN.—Caesar, Gallic War, Books II, III. Composition (Daniell, Part I. § 56–90). 6 hours.

MATHEMATICS.—Algebra, continued. 4 hours. Elementary Geometry. 2 hours.

ENGLISH.—Composition. Study of words. Readings. 4 hours.

NATURAL SCIENCE.—Physiography. 2 hours.

NOTE.—The amount of Latin reading done in the Junior year must be estimated on the basis of six recitations a week, full hour periods, and involving a large amount of drill as well as instruction. The course in Elementary Geometry includes rule and compass practice and constant use of the Metric System. The construction and the measurement of simple geometrical figures are emphasized, rather than the theory of demonstration.

CLASS III

Junior Middle

FIRST TERM:

Latin.—Caesar, Gallic War, Books I, IV and V. Nepos, selections, eight lives. Reading at sight. Composition (Jones, 15 lessons), 4 hours.

Greek.—White's First Greek Book. 4 hours.

Modern Languages.—French or German. 4 hours.

Mathematics.—Algebra. 1 hour. Plane Geometry. 3 hours.

English.—Composition. Readings. 2 hours.

SECOND TERM:

Latin.—Caesar. Nepos. Ovid, begun. Prosody. Composition (Jones, through lesson 35). 4 hours.

Greek.—White's First Greek Book. 4 hours.

Modern Languages.—French or German. 4 hours.

Mathematics.—Algebra. 1 hour. Plane Geometry. 3 hours.

English.—Composition. Midsummer Night's Dream. 2 hours.

THIRD TERM:

Latin.—Ovid, 1,500 verses. Composition (Jones, completed. Collar, 16 lessons). Written Translations. 4 hours.

Greek.—White's First Greek Book. Xenophon, Anabasis, Book I, Chaps. i-v. 4 hours.

Modern Languages.—French or German. 4 hours.

Mathematics.—Algebra. 1 hour. Plane Geometry. 3 hours.

English.—Composition. Twelfth Night. 2 hours

CLASS II

MIDDLE

FIRST TERM:

LATIN.—Cicero. Catiline Orations. Reading at sight. Composition (Collar. 10 lessons. or Moulton. 20 chapters on Cicero). 5 hours.

GREEK.—Xenophon. Anabasis, Book I. Chaps. VI–X, Book II. Composition. 5 hours.

MODERN LANGUAGES.—French or German. 2 hours.

MATHEMATICS.—Algebra. reviewed. 2 hours. Plane Geometry. 1 hour.

ENGLISH.—Readings in Poetry. Themes. 3 hours.

SECOND TERM:

LATIN.—Cicero. Manilian Law. Archias. Marcellus. Written Translations. Composition (Collar. 16 lessons. or Daniell, Part II, 12 written exercises, or Moulton, on Manilian Law and Archias). 5 hours.

GREEK.—Xenophon. Anabasis. Books III. IV. Composition. 5 hrs.

MODERN LANGUAGES.—French or German; prose selections. 2 hours.

MATHEMATICS.—Algebra. 2 hours. Plane Geometry. 1 hour.

ENGLISH.—Readings in Prose Narrative. Themes. 3 hours.

THIRD TERM:

LATIN.—Cicero. Milo. Caesar. Gallic War, reviewed. Nepos. selections at sight. Composition. 5 hours.

GREEK.—Hellenica. selections. Composition. Reviews. 5 hours.

MODERN LANGUAGES.—French or German. prose selections. 2 hours.

MATHEMATICS.—Algebra. 2 hours. Plane Geometry. 1 hour.

ENGLISH.—Readings: the Essay. Themes. 3 hours.

NOTE.—An opportunity is given by an increasing number of colleges to pass a preliminary examination in a part of the subjects required for admission. June examinations. both preliminary and final, are held in Andover, by Harvard. Yale and Princeton colleges.

In order to define the work of the pupil in his last year, it is required that he pass one of these preliminary examinations.

CLASS I

SENIOR

A schedule of not less than eighteen (18) hours per week, selected from the following subjects, according to college requirements. The courses are continuous, throughout the school year:

LATIN I.—Vergil, Æneid. Books I–VI, VIII, IX. Prosody. Roman Antiquities. 4 hours.

LATIN COMPOSITION I.—Advanced course. 1 hour.

GREEK I.—Homer, Iliad and Odyssey, 5000 verses. Greek Antiquities. 4 hours.

GREEK COMPOSITION I.—Advanced course. 1 hour.

HISTORY I.—Greek and Roman History. 5 hours.

PHYSICS I.—Text and Laboratory. 4 hours.

FRENCH A.—Advanced course. 4 hours. FRENCH III. 4 hours.

GERMAN A.—Advanced course. 4 hours. GERMAN III. 4 hours.

CHEMISTRY A.—4 hours. Chemistry C. 4 hours.

ENGLISH A.—Readings in College Requirements. Extempore Composition. 2 hours.

HISTORY A.—United States. 2 hours. HISTORY B.—English. 4 hours. Political Economy A. 2 hours.

MATHEMATICS A. — Trigonometry. 2 hours. Solid Geometry. 2 hours.

MECHANICAL DRAWING A.—2 hours.

BOTANY B.—2 hours.

Any other courses, not previously pursued, in any class, of either department, of the school.

CLASSICAL COURSE—NOTES

GREEK

JUNIOR MIDDLE YEAR.—The first year is devoted mainly to memorizing the forms of the language and fixing a few important principles of syntax. The class is constantly drilled to reproduce paradigms accurately and rapidly, as well as to inflect new words. The importance of review work is emphasized at every recitation. Black-board work occupies much of the time; this work the class is called upon to criticise. By an equal share of oral work the ear is trained to detect inaccuracy in accent or pronunciation. A ready command of the vocabularies is required; to secure this, there is both oral and written work, and writing Greek words at dictation is practiced.

The hours are varied with frequent exercises in translation, English into Greek as well as Greek into English, and occasional talks about Greek life. During the third term a simplified text of the first book of the Anabasis is used.

MIDDLE YEAR.—The second year is occupied with reading Xenophon's Anabasis, Books I–IV, sight reading, translation from English into Greek, and grammar reviews. Great effort is made to secure simple, idiomatic English in both oral and written work. A portion of the following day's lesson is often translated at sight, and towards the end of the year, other works, particularly Xenophon's Hellenica, are used with special reference to sight reading.

Grammar and composition are studied through the year, the method being the same as during the first year; skill in writing Greek is made a chief object of this year's work.

SENIOR YEAR.— The third year is spent mainly in reading selected books from the Iliad and Odyssey. The work of the year is much broader in scope, however, than before. After the dialect is thoroughly mastered, more attention is given to the literary side of the poems; the art of translation is discussed; carefully prepared renderings in prose and metre are made by the class and read aloud. Much attention is paid to the translation of sight passages; in this there is almost daily practice, the object being to acquire ability to read large portions of Homer rapidly and with pleasure.

The study of antiquities and literature introduced during the second and third terms is intended to give a general survey of these subjects and stimulate an interest in further reading.

LATIN

JUNIOR YEAR.— The Latin work of the Junior year consists of strict, unremitting drill in the essentials of the grammar, with the view of securing accuracy and ease in the use of forms. Careful training is given in methods of study. The student is taught from the beginning to grasp the concepts as well as the English equivalents of Latin terms, and to notice the order of thought in sentences. There is daily practice in the writing of Latin.

JUNIOR MIDDLE YEAR.— In the Latin of the Junior Middle year exceptional stress is laid upon a study of the grammatical relation of words in sentences. Case constructions are accurately discriminated and explained; the ordinary uses of the subjunctive and the infinitive are interpreted; and the more common idioms of Caesar are noticed.

MIDDLE YEAR.—In the Middle year the course in Cicero aims towards the mastery of an extended vocabulary, an elementary knowledge of synonyms, an accurate discrimination of grammatical constructions, and facility in reading the Latin. The student is encouraged to notice and appreciate beauty of thought and of expression. In rendering Latin in English carelessness in diction is not tolerated. Special efforts are made to render the student familiar with the chief characteristics of Cicero's oratory and with the history of his time.

The work in prose composition is devoted to connected narrative.

SENIOR YEAR.—In this year the Latin study broadens with the view to promoting a scholarly ease in the reading of the literature prescribed. Poetical constructions and peculiar uses of words are subjects of special study. Practice in reading the hexameter rhythmically forms an essential feature in the study of Vergil. No effort is spared to induce a thorough understanding of the work read, and an appreciation of the literary art involved. Linguistic study is directed towards a wider knowledge of word-formation, and of the principles of syntax. Examinations are set largely from passages not previously seen by the student.

The study of Roman life aims to give a general survey of the subject.

SCIENTIFIC DEPARTMENT

The object of this department, established in 1830, is to afford a substantial course of study, chiefly on the basis of Mathematics and the Natural Sciences, with History, Latin, Modern Languages and Literature.

The Course of Study is designed to furnish thorough preparation for the Lawrence Scientific School of Harvard University, the Sheffield Scientific School of Yale University, the Massachusetts Institute of Technology, and other scientific schools and colleges of the higher grade.

For illustrating the principles of Natural Philosophy the school is provided with excellent apparatus, which is used in lectures given in connection with the text-books. There is a well-equipped Physical Laboratory, for experimental work. An appropriation of $300 is made each year to procure the latest and best instruments.

The Academy is provided with a full set of instruments for courses in practical surveying, consisting of a solar transit, surveyor's compasses, levels, and other appliances.

The Science Building furnishes ample accommodations for the departments of Physics and Chemistry. The building contains, besides recitation rooms, a lecture room, a draughting room, a Physical and a Chemical Laboratory, thoroughly equipped for individual work.

The Newton cabinet contains several thousand specimens of rock, minerals, fossils, insects, shells, and other illustrations of Natural History, and a small collection of coins, stone implements, and other valuable antiquities.

SCIENTIFIC COURSE

CLASS D

JUNIOR

FIRST TERM:

MATHEMATICS.—Elementary Algebra. 4 hours. Elementary Geometry. 2 hours.

LATIN.—Lessons. 6 hours.

ENGLISH.—Review of Grammar. Composition. Irving's Sketch Book. 4 hours.

NATURAL SCIENCE.—Physiography. 2 hours.

SECOND TERM:

MATHEMATICS.—Elementary Algebra. 4 hours. Elementary Geometry. 2 hours.

LATIN.—Lessons, continued. 6 hours.

ENGLISH.—Composition. Lockwood's Lessons. American Authors 4 hours.

NATURAL SCIENCE.—Physiography. 2 hours.

THIRD TERM:

MATHEMATICS.—Elementary Algebra. 4 hours. Elementary Geometry. 2 hours.

LATIN.—Gradatim, selections. Exercises in writing Latin. 6 hours.

ENGLISH.—Composition. Study of words. Readings. 4 hours.

NATURAL SCIENCE.—Physiography. 2 hours.

CLASS C

JUNIOR MIDDLE

FIRST TERM:

MATHEMATICS. — Algebra. 2 hours. Plane Geometry, begun. 2 hours.

MODERN LANGUAGES.—French or German. 4 hours.

LATIN.—Caesar, Gallic War, begun. 4 hours.

NATURAL SCIENCE.—Chemistry. Non-metallic Elements. 4 hours.

ENGLISH.—Readings. Composition and Rhetoric. 2 hours.

SECOND TERM:

MATHEMATICS. — Algebra. 2 hours. Plane Geometry, continued. 2 hours.

MODERN LANGUAGES.—French or German. 4 hours.

LATIN.—Caesar, Gallic War, continued. 4 hours.

NATURAL SCIENCE.—Chemistry, Non-metallic Elements 4 hours.

ENGLISH.—Shakespeare. Composition and Rhetoric. 2 hours.

THIRD TERM:

MATHEMATICS — Algebra, completed. 2 hours. Plane Geometry. 2 hours.

MODERN LANGUAGES.—French or German. 4 hours.

LATIN.—Caesar, Gallic War, continued. 4 hours.

NATURAL SCIENCE.—Chemistry, Non-metallic Elements. 4 hours.

ENGLISH.—Study of words. Readings. 2 hours.

NOTE.—At least four books of the Gallic War are read during the year.

CLASS B

Middle

FIRST TERM:

Mathematics.—Plane Geometry. 2 hours. Algebra, reviewed. 4 hours.

Natural Science.—Physics. 4 hours, or

Latin.—Caesar, Gallic War, reviewed. 2 hours, and

Botany.—2 hours.

Modern Languages.—French or German. 2 hours.

History.—English History. 4 hours.

English.—Literature and Composition. 2 hours.

SECOND TERM:

Mathematics.—Plane Geometry. 2 hours. Algebra. 4 hours.

Natural Science.—Physics. 4 hours, or

Latin.—Caesar, Gallic War, reviewed. Composition. 2 hours, and

Botany.—2 hours.

Modern Languages.—French or German. 2 hours.

History.—English History. 4 hours.

English.—College requirements. Composition. 2 hours.

THIRD TERM:

Mathematics.—Plane Geometry, completed. 2 hours. Algebra to the General Theory of Equations, completed. 4 hours.

Natural Science.—Physics. 4 hours, or

Latin.—Caesar, Gallic War, reviewed. Composition. 2 hours, and

Botany.—2 hours.

Modern Languages.—French or German. 2 hours.

History.—English History. 4 hours.

English.—College Requirements. Composition. 2 hours.

CLASS A

SENIOR

A schedule of not less than eighteen (18) hours per week, selected from the following subjects, according to college requirements. The courses are continuous, throughout the school year :

MATHEMATICS A. — Plane Trigonometry. 2 hours. Solid Geometry. 2 hours.

NATURAL SCIENCE A.—Physics I. 4 hours. Chemistry. Advanced course. 4 hours.

LATIN A.—Cicero, Catiline Orations, Archias. 4 hours.

MODERN LANGUAGE A.—Advanced French. 4 hours. Advanced German. 4 hours.

HISTORY A.—United States. 2 hours. Political Economy. 2 hours.

DRAWING A.—Mechanical. 2 hours.

ENGLISH A.—College Requirements. Themes. 2 hours.

*BOTANY B.—2 hours.

*HISTORY B.—English. 4 hours.

*Algebra B.—4 hours.

*Geometry B.—2 hours.

Any other courses, not previously pursued, in any class, in either department, of the school.

*Courses counting as Senior work only as substitutes for Senior courses already accepted on college examinations.

SUPPLEMENTARY READING

Examinations will be held, at the middle and near the close of each term, upon the following books:

Classes IV and D.

First Term.—Cooper's Last of the Mohicans; Dickens's Cricket on the Hearth.

Second Term.—Hughes's Tom Brown at Rugby; Stevenson's Kidnapped.

Third Term.—Dickens's Nicholas Nickleby.

Classes III and C.

First Term.—Scott's Talisman; Stevenson's New Arabian Nights.

Second Term.—Dickens's David Copperfield.

Third Term.—Irving's Alhambra.

Classes II and B.

First Term.—Dickens's Tale of Two Cities; Longfellow's Tales of a Wayside Inn.

Second Term.—Blackmore's Lorna Doone; Mrs. Jackson's Ramona.

Third Term.—Mitchell's Hugh Wynne.

Classes I and A.

First Term.—Thackeray's Henry Esmond; Barrie's A Window in Thrums.

Second Term.—Hawthorne's Scarlet Letter; Tennyson's Idylls of the King.

Third Term.—Crawford's Roman Singer.

PRIZES

The following prizes are offered annually for proficiency in the work of several of the departments:

IN ENGLISH

The Draper Prizes for *Selected Declamations*, founded by Mr. W. F. Draper, of the class of 1843, of Andover. The first prize is of twenty dollars, the second of twelve dollars, the third of eight dollars. The competition is open to students in either department. A preliminary trial before a committee is held early in May, the final competitors being chosen on the basis of the ten best rendered selections. The thirty-third competition occurred June 21, 1899. The Committee of Award were Hon. Wm. S. Knox, Andover, Hon. Wm. C. Clarke, Manchester, N. H., Henry Macfarland, Washington, D. C.

The Means Prizes for *Original Declamations*, founded by the late Wm. G. Means, of Boston. The first prize is of twenty dollars, the second of twelve dollars, the third of eight dollars. Students in either department may compete. Compositions must be submitted before March 1st. Ten are selected for the final competition, by the same judges who act as committee of award, the prizes being given on the merits of both composition and delivery. The thirty-second competition was held May 8, 1899, the Committee of Award being Albert Poor, B.A., Andover, George E. Johnson, M.A., Andover, Rev. Wm. P. Fisher, Brunswick, Me.

The subjects for the thirty-fourth competition, March 1, 1901, are:

1. The Heroism of Daily Life.
2. The Orator and the Human Will.
3. The Dangers of a Free Press.
4. Partisan and Patriot.
5. The Scholar, the Leader of the Nation.

6. A Day at the Paris Exposition.
7. Social Equality in America—is it disappearing?
8. The Use and Misuse of Popular Music.
9. A Plea for the Preservation of our Forests.
10. The Speech of Achilles to the Envoys of Agamemnon.
    (A metrical translation of Iliad, Book IX, lines 308—426.)

The Harvard-Andover Prizes, sustained by the Harvard-Andover Club. Two prizes are offered, one of fifteen dollars and one of ten dollars, for excellence in Elementary Rhetoric and English Composition. The competition is open to members of the Senior and Middle classes of both departments. The Committee of Award for the eleventh competition, held in June, 1899, were Prof. James H. Ropes, B. D., Harvard University, Prof. Clifford H. Moore, Ph.D., Harvard University.

The Robinson Prizes for *Debate*, sustained by Mr. H. S. Robinson, of Andover, are open to members of the two debating societies, Philo and Forum. The first prize of twelve dollars, the second of eight dollars, are awarded to the students presenting the best arguments, irrespective of the merits of the question. Each society selects three men to represent their society. The fourth competition occurred June 19, 1899. The Committee of Award were Alanson J. Fox, Detroit, Mich., Francis A. Goodhue, Andover, John N. Cole, Andover.

IN THE CLASSICS

The Valpey Classical Prizes, founded by the late Rev. Thomas G. Valpey, of the class of 1854. Two prizes, of ten dollars each, are awarded, one for excellence in Latin Composition; one for excellence in Greek Composition. The competition is open to members of the Middle Class. The fourth competition occurred in June, 1899. Committee of Award, Prof. C. C. Torrey, Ph.D., Andover, and the Classical teachers of the Academy.

IN GREEK

The Joseph Cook Greek Prizes, founded by Dr. Joseph Cook, class of 1857, of Ticonderoga, N. Y. The prizes are fifteen, ten, and five dollars respectively. The special topics included in the twenty-second competition, May, 1901, will be translations at sight.

1. From Homer.
2. From Attic Greek prose.
3. From English into Greek.

The Committee of Award for the twentieth competition, May, 1899, were Prof. Clifford H. Moore, Ph. D., and Mr. William Fenwick Harris.

IN LATIN

The Crane Prizes for *Excellence in Virgil*, the gift of the late Rev. Oliver Crane, D. D., LL.D., of copies of his translation of Virgil. Open to Seniors and Middlers.

The Dove Latin Prizes, founded by Mr. George W. W. Dove, class of 1853, of Andover. The prizes of twenty, fifteen and ten dollars, are awarded for excellence in Latin and are open to Seniors in the Classical Department.

The Committee of Award for the fifteenth competition, May, 1899, were Cecil Kittredge Bancroft, A.B., James W. D. Ingersoll, Ph.D., and Charles S. Ingham, Ph.D., all of Yale University.

IN MATHEMATICS

The Convers Mathematical Prizes, founded by E. B. Convers, Esq., class of 1857, of Englewood, N. J. Three prizes of twenty dollars, fifteen dollars and ten dollars, are awarded for excellence in the mathematics of the Classical Department, to be determined by an examination in May of the Senior Year. The Committee of Award for the second competition, May, 1899, were J. Garner Estill, M.A., and E. Dana Pierce, B.A., both of the Hotchkiss School.

PRIZES AWARDED, 1898–'99

The Draper Prizes	(1) Ralph Winslow Merrill, *Bangor, Me.* (2) Jean Ross Irvine, *Ross, Wyo.* (3) Alan Fox, *Detroit, Mich.*

The Cook Prizes	(1) Charles Edward Starbuck, *Andover* (2) John Joseph Mahoney, *Lawrence* (3) Stuart Blaikie, *Englewood, N. J.*
The Crane Prizes	(1) John Joseph Mahoney, *Lawrence* (2) Alan Fox, *Detroit, Mich.*
The Dove Prizes	(1) John Joseph Mahoney, *Lawrence* (2) Robert Lounsbury Black, *Cincinnati, O.* (3) Not awarded.
The Convers Prizes	(1) Heaton Ridgway Robertson, *New Haven, Conn.* (2) William Morris Houghton, *Brunswick, Me.* (3) John Martin Dreisbach, *Wilkes Barre, Pa.*
The Valpey Prizes	*Greek* { Francis Howard Fobes, *Lexington* Harlan Hogue Ballard, jr., *Pittsfield* *Honorable Mention* Howard Freeman Hart, *Fayetteville, N. Y.* *Latin* Ralph Hill Melczer, *Phoenix, Arizona* *Honorable Mention* Robert Francis Kelly, *Thompsonville, Conn.* John Husfeldt Soehrens, *Andover.*

CLASS OF 1899

The following members of the class of 1899, unless otherwise stated, have entered college as indicated :

Harvard —

- Langdon Albright
- Adelbert Ames, jr. (1898)
- Stuart Blaikie
- Walter Francis Dennison
- William Morris Houghton
- John Joseph Mahoney
- George Augustus Newman
- Peter Butler Olney, jr. (1898)
- Harold Roberts
- Charles Edward Starbuck
- Walter Smith Sugden
- Creighton Worswick Whiting

Harvard (Lawrence Scientific School) —

- Robert Waldo Ruhl (1900)

Harvard (Law School) —

- Charles Nathaniel Kimball

Harvard (Medical School) —

- Daniel Francis Mahoney (1900)

Yale —

- Hugh Archibald
- George Stanleigh Arnold
- Morton Atwater
- Robert Lounsbury Black
- Thomas Marshall Howe Brown
- Robert Grey Bushong
- Kilburn Dickinson Clark (1900)
- Charles Orrin Day, jr.
- Robert Emmet Digney
- John Martin Dreisbach
- John Kuhn Evans
- Robert Hall Ewell
- Peter Elting Farnum, jr.
- Morton Cross Fitch
- James Irving Fowler
- Alan Fox
- Irvine Goddard
- Henry Farrand Griffin
- John George Haas, jr.
- Maurice Fitch Hawks

Albert Hileman
Theodore Edward Hill
Henry Chandler Holt
Norman Churchill Hull
William Poyntell Johnston

Meetings, with reception and dinner, are held in Boston every even year, 1900, 1902, etc., and at Andover each year, in connection with the graduation exercises. The date, for 1900, will be June 27.

It is desired that correspondence regarding membership and information concerning past members of the Academy be sent to the Secretary.

A copy of the Annual Catalogue will be sent regularly to all past students who may express a desire to receive it, and who furnish their addresses for the purpose. Address Phillips Academy, Andover, Mass.

FACULTY

CECIL F. P. BANCROFT, Ph.D., LL.D., L.H.D., Principal, 6 Chapel Avenue
On the Peter Smith Byers Memorial Foundation

MATTHEW S. McCURDY, M.A., 60 Bartlet Street
Instructor in Mathematics

WILLIAM B. GRAVES, M.A., 9 Salem Street
Professor of Natural Sciences on the George Peabody Foundation

GEORGE T. EATON, M.A., 73 Bartlet Street
Instructor in Mathematics

C. EMERSON STONE, Ph.B., 104 Main Street
Instructor in French

CHARLES H. FORBES, B.A., 25 South Main Street
Professor of Latin on the John C. Phillips Foundation

HENRY W. BOYNTON, M.A., 8 Punchard Avenue
Instructor in English

WALTER R. NEWTON, Ph.D., 169 Main Street
Instructor in German

ARCHIBALD FREEMAN, M.A., Eaton 8
Instructor in History

ALLEN R. BENNER, B.A., Andover 7
Professor of Greek

JAMES C. GRAHAM, B.S., Taylor 4
Instructor in Chemistry

BERNARD M. ALLEN, B.A., 67 Bartlet Street
Instructor in Latin

JOHN L. PHILLIPS, B.A., 77 Bartlet Street
Instructor in Latin

HOWARD I. FORD, B.A., Draper 4
Instructor in English

FREDERICK E. NEWTON, PH.B., 28 Salem Street
Instructor in Mathematics

EDWIN T. BREWSTER, M.A., 4 Locke Street
Instructor in Natural Sciences

ALFRED E. STEARNS, B.A., B. D., 6 Chapel Avenue
Registrar, Instructor in History and Elocution

GEORGE C. FISKE, PH. D., Bancroft 9
Instructor in Greek and Latin (Resigned Dec. 19, 1900)

ROGER C. PECK, B. A., Bancroft 1
Instructor in Mathematics and Latin

HAMILTON G. MERRILL, B.A., Bancroft 9
Instructor in Greek

CHARLES PEABODY, PH.D., Cambridge
Honorary Director of the Archaeological Department

WARREN K. MOOREHEAD, M.A.,
Curator of the Archaeological Department

PHILLIPS ACADEMY

The Phillips Academy was founded at Andover on the twenty-first of April, 1778, by the gifts of Hon. Samuel Phillips and his brother Hon. John Phillips, consisting of about 141 acres of land in Andover purchased for the purpose, and about 200 acres of land in Jaffrey, N. H., together with the sum of one thousand six hundred and fourteen pounds. The deed of gift which is known as the "The Constitution of Phillips Academy" was drawn up, as appears from contemporary documents, largely under the influence of Samuel Phillips, jr., and Eliphalet Pearson, two young men whose friendship in school and college, and whose sympathy in the religious and patriotic movements of the times made them mutually helpful in the project of founding a new institution of learning, and, as it proved, a new type of institution. Dr. Pearson became the first principal, and Judge Phillips fostered the school with assiduous devotion till his death in 1802.

The main purpose and scope of the school are shown in the opening paragraphs of the constitution, as follows:

"A short reflection upon the grand design of the great Parent of the Universe in the creation of mankind, and the improvements of which the mind is capable both in knowledge and virtue, as well as upon the prevalence of ignorance and vice, disorder and wickedness, and upon the direct tendency and certain issue of such a course of things, must occasion, in a thoughtful mind, an earnest solicitude to find the source of these evils and their remedy; and a small acquaintance with the qualities of young minds, — how susceptible and tenacious they are of impressions, evidences that youth is the important period, on the improvement or neglect of which depend the most important consequences to individuals themselves and the community.

A serious consideration of the premises, and an observation of the growing neglect of youth, have excited in us a painful anxiety for the event, and determined us to make, in the following Conveyance, a humble dedication to our Heavenly Benefactor of the ability, wherewith he hath blessed us, to lay the foundation of a public free school or academy for the purpose of instructing Youth, not only in English and Latin, Grammar, Writing, Arithmetic, and those sciences, wherein they are commonly taught; but more especially to learn them the great end and real business of living.

Earnestly wishing that this Institution may grow and flourish; that the advantages of it may be extensive and lasting; that its usefulness may be so manifest, as to lead the way to other establishments on the same principles; and that it may finally prove an eminent means of advancing the Interest of the great Redeemer, to His patronage and blessing we humbly commit it.

The first trustees were Samuel Phillips of Andover, John Phillips of Exeter, William Phillips of Boston, Oliver Wendell of Boston, John Lowell of Boston, Rev. Josiah Stearns of Epping, Rev. Elias Smith of Middleton, Rev. William Symmes, Rev. Jonathan French, Samuel Phillips, jr., and Nehemiah Abbot of Andover, — men whose services and benefactions, at Andover and elsewhere, were to become memorable in the history of American education.

Provision having been made for the organization and succession of the trustees, the management of the property, the appointment of teachers and the admission of pupils, the constitution continues:

"It shall ever be considered as the first and principal duty of the Master to regulate the tempers, to enlarge the minds, and form the Morals of the youth, committed to his care.

There shall be taught in this Seminary the English, Latin and Greek Languages, Writing, Arithmetic, Music and the Art of Speaking; also practical Geometry, Logic, and any other of the liberal Arts and Sciences, or Languages, as opportunity and ability may hereafter admit, and as the Trustees shall direct.

The Master is to give special attention to the health of the Scholars, and ever to urge the importance of a habit of industry. But, above all, it is expected, that the Master's attention to the disposition of the Minds and Morals of the Youth under his charge will exceed every other care; well considering that, though goodness without knowledge (as it respects others) is weak and feeble; yet knowledge without goodness is dangerous; and that both united form the noblest character, and lay the surest foundation of usefulness to mankind.

It is therefore required that he most attentively and vigorously guard against the earliest irregularities; that he frequently delineate, in their natural colours, the deformity and odiousness of vice, and the beauty and amiableness of virtue; that he spare no pains, to convince them of their numberless and indispensable obligations to abhor and avoid the former, and to love and practice the latter; of the several great duties they owe to God, their country, their parents, their neighbors and themselves; that he critically and constantly observe the variety of their natural tempers, and solicitously endeavor to bring them under such discipline, as may tend most effectually to promote their own satisfaction and the happiness of others; that he early inure them to contemplate the several connexions and various scenes, incident to human life; furnishing such general maxims of conduct, as may best enable them to pass through all with ease, reputation, and comfort.

And, in order to prevent the smallest subversion of the true intent of this Foundation, it is again declared, that the *first* and *principal* object of this Institution is the promotion of true Piety and Virtue; the *second* instruction in the English, Latin and Greek languages, together with Writing, Arithmetic, Music, and the Art of Speaking; the *third*, practical Geometry, Logic, and Geography; and the *fourth*, such other of the liberal Arts and Sciences or Languages, as opportunity and ability may hereafter admit, and as the Trustees shall direct."

The school was opened for instruction April 30, 1778, with a group of thirteen pupils. On Oct. 4, 1780, it was incorporated in the last act of the "Great and General Court" previous to the organization of the new state government. The powers of the trustees have been enlarged by the legislature from time to time, notably in the acts conferring the power to hold additional funds, and in the act of June 19, 1807, whereby the Trustees were empowered to receive and hold real and personal estate for the purpose of a separate "Theological Institution." The Andover Theological Seminary, the first of the many theological schools, was accordingly established in the following year.

In 1830, the "Teachers Seminary" was established as another distinct school, an anticipation of the normal schools, and to a less degree, of the Scientific schools which have since been planted elsewhere. In 1842 this Seminary was merged into the parent Academy and is the present Scientific Department.

In 1901 two generous friends of the Academy, whose names are withheld for the present in accordance with their request, established the Archaeological Department, providing for it an endowment for instruction, publication, research, and the care and increase of the collections; a building fund; and a large and valuable collection in American Archaeology.

By the generous gifts of numerous benefactors, in sums large and small, the original foundations have been much enlarged. The school has been "equally open to youth, of requisite qualifications, from every quarter." It has done a useful work in the education of boys who have not gone to college, and in its time has prepared boys for colleges and scientific schools in unprecedented numbers.

GIFTS

Received during the year ending April 30, 1901:

J. B. Neale	$ 50 00

Annual Premium, (life policy of R. M. H.)	10 11
William Edwards Park, Collection of papers of Principal Pearson	
Books from U. S. Government and others	
Papers for the Reading Room from *The Evening Transcript* Company and others	

The prosperity of the school has increased the demands made upon it, and constitutes an appeal for gifts for the maintenance of its efficiency under the demands of "the new education," and for its improvement and advancement in its own appropriate and important field.

The legal name of the corporation is "The Trustees of Phillips Academy," and gifts and bequests should be made to them.

THE ACADEMY

The administrative policy of the school assumes on the part of its students a definite educational purpose and the school traditions stand for moral responsibility, hearty coöperation, and worthy achievement.

The Academy is not a suitable school for boys who are idle, insubordinate, or lacking in self-control, or for such as require the supervision of a teacher and the routine of a school-room in order to enforce industry and fidelity. Students who are found to be unable or unwilling to meet the school requirements, and those whose influence is injurious, must be withdrawn from the school. As maturity is not always to be measured by years, the school makes no specific requirements as to the age of the candidate. It has been found that boys of fourteen are usually able to meet the responsibilities of the academic life.

REQUIREMENTS FOR ADMISSION

Testimonial Candidates for admission to the Academy are required to present testimonials of good moral character and certificates of standing in the schools most recently attended. These certificates are required not later than the date of the entrance examinations and should be forwarded earlier if possible to the principal of the Academy.

Certificates of scholarship-standing in other secondary schools are not accepted for admission to the several classes of the Academy, but records of proficiency and courses of study completed are of service to the school officers. Such certificates furnish valuable collateral evidence of the candidate's attainments and needs, and supplement but do not take the place of the regular entrance examinations.

Entrance Examinations. Senior Class Harvard and Yale entrance certificates, and other college certificates of equivalent value, are accepted for admission to the Academy in place of the school entrance examinations. Candidates for the Senior class who expect to receive the diploma of the school at the end of one year's study should present certificates of the following value :

HARVARD, 18 POINTS.

Including Elementary Greek, Latin, French or German, English, Algebra, Plane Geometry, or their equivalents.

YALE (COLLEGE), 14 SUBJECTS.

Including Latin Grammar, Caesar and Nepos, Cicero or Vergil, Latin Composition, Greek Grammar, Xenophon, Greek at Sight Greek Composition, Algebra *a* and *b*, Geometry *a* and *b*, French or German, English *a*, or their equivalents.

YALE (SHEFFIELD SCIENTIFIC SCHOOL), 10 SUBJECTS.

Including English Grammar, English Literature *a*, English History, Latin Grammar and Exercises, Caesar, French or German, Algebra *a* and *b*, Plane Geometry, Botany, or their equivalents.

Certificates of fewer subjects, according to their value, may secure provisional admission to the Senior class, but such standing necessitates courses of study with the lower classes and either adds hours per week to the student's schedule of class work, or lengthens the time required for his preparation for college.

Candidates for admission to the Senior classes should indicate in their preliminary correspondence the subjects credited to them in their college examinations. In completing the preparation for college, subjects pursued with any class in the Academy count as equivalents for Senior courses already accepted by the college. The course of study given in the summary on page 25 shows in part the range of selection open to those who have secured certificates of superior value.

Entrance Examinations. Classes below Senior

Candidates for admission to the Junior, Junior Middle and Middle Classes are examined as follows:

On Friday, June 28, 1901, at 9 o'clock A. M., in Andover, at the Academy building, Room 6, and on the same day at the same hour in New York City, at the rooms of the Young Men's Christian Association, on 23rd St.

Candidates intending to present themselves at these examinations should give seasonable notice to the Registrar of the Academy.

Examinations will be held in other of the larger cities, if the number of candidates in any vicinity is sufficient.

On *Wednesday, September 18, 1901*, at 9.00 A.M., in Andover only, according to a schedule of rooms and hours announced at that time.

On *Thursday, January 2*, and on *Thursday, April 10, 1902*, the first days of the second and third terms. These examinations provide for such candidates as are prepared to join the school classes.

For examinations held in Andover on these regular dates no fees are charged. For examinations held in New York City, or elsewhere outside of Andover, and for special entrance examinations held at other times than those here given, there is a fee of $5.00.

The subjects upon which entrance examinations will be given in June and September, 1901, are as follows:

FOR ADMISSION TO THE

CLASSICAL DEPARTMENT

JUNIOR CLASS:

Arithmetic, complete, except the Metric System.
English Grammar, elementary.
Reading and Spelling.
Geography, Modern Political.

JUNIOR MIDDLE CLASS:

Arithmetic, complete, including the Metric System.
Algebra, through Quadratics.

English Grammar. complete.
Latin Grammar and Exercises.
Caesar. Gallic War, Books II and III.

MIDDLE CLASS:

Arithmetic, complete. including the Metric System.
Algebra. complete. including Progressions. Permutations, and Undetermined Coefficients.
English Composition.
Latin Grammar and Exercises.
Caesar. Gallic War, four books.
Nepos. ten lives.
Greek Grammar and Exercises.
French or German. Exercises and translation, covering a full year's work of four hours per week.
Plane Geometry.

FOR ADMISSION TO THE

SCIENTIFIC DEPARTMENT

JUNIOR CLASS:

Arithmetic, complete.
English Grammar. elementary.
Reading and Spelling.
Geography, Modern Political.

JUNIOR MIDDLE CLASS:

Arithmetic. complete.
Algebra. through Quadratics.
English Grammar. complete.
Latin Grammar and Exercises.
Translation of simple selections from the Latin.

MIDDLE CLASS:

Arithmetic. complete.
Algebra. complete. (To Quadratics in 1901).
English Composition.
Plane Geometry. To Regular Polygons.
Latin Grammar and Exercises.
Caesar, Gallic War. four books.
French or German. Exercises and translation, covering a full year's work of four hours per week.

APPOINTMENTS

Registration The school year begins in September, and while new students may be admitted later, by special examination, it is most advisable that they present themselves promptly at the beginning of the Fall Term. The student registers on the first day of each term as announced in the Calendar, reporting first at the Treasurer's office, to make payment for the dues of the term, and, secondly, to his class officer, who will arrange his schedule of work for the term.

Classification Each successful candidate is enrolled in one of the regular classes and is required to pursue the prescribed work of that class. Deficiencies in preparation, and occasionally other considerations, sometimes make it necessary for the student to do some work in other classes than his own; but such arrangements should be considered as temporary and exceptional.

The Academy makes no provision for partial students; nor for special students who are not candidates for graduation from the Academy or for entrance to college, scientific school, or professional school.

When a student, through failure to maintain his regular classification, loses from his schedule eight or more recitation hours per week, he is registered with a lower class.

Examinations and Promotions Written examinations are held in each study at least once a term; but in most courses the term grading is made largely on the basis of daily work. Near the close of the year reviews are held, with special examinations to determine the student's fitness for promotion or graduation. By way of preparation for college tests these examinations are conducted with strict formality. In all the written exercises of the school year the absolute integrity of the student is assumed, and a student may not retain his connection with the school, who fails to comply with so essential a requirement. In addition to completing the

class-room courses, each class is required to pass a satisfactory examination upon a supplementary course of reading. At the close of each term, and at other times when occasion requires, reports of the student's scholarship and attitude toward his work are sent to his parents or guardian.

Class Officers Each student is by his classification assigned to the special care of one of the eight members of the Faculty who are known as Class Officers. This officer arranges the studies of each member of the class of which he is in charge, keeps particular record of the student's standing and progress, advises him in the choice of his elective studies, conducts correspondence with parents relating to the boy's school life, and exercises general supervision of his welfare, while he remains in the class.

Daily Appointments

Morning Chapel, 7.50 A. M.
Recitation and Study Hours, 8 to 12 A. M., 2 to 4 P. M.
Evening Study Hours begin at 8 P. M.
Sunday Chapel Services, 10.30 A. M., and 4.30 P. M.
Half holidays, Wednesday and Saturday afternoons.
Anniversary Holidays, 8 A. M., to 7.30 P. M.

Study Hours During the Recitation and Study Hours, when not engaged in the class-room, students are required to occupy themselves with the preparation of school exercises, or with other literary work.

Absences All absences from recitation, morning chapel, Sunday service, or from the student's room during study hours, are to be accounted for; and excuses should be secured in advance, whenever the necessity for such absence can be foreseen.

Holiday Excuses All out-of-town excuses must be obtained from the Registrar. Such excuses are granted somewhat freely on half-holidays and on the special holidays to those whose school standing is good. The student who goes out of town without permission, forfeits his connection with the school.

Religious Exercises

Students are uniformly required to be present at morning chapel. After the devotional exercises opportunity is given for special announcements, brief school meetings, or other business preliminary to the work of the day Sunday services for the students are held in the Chapel which is used in common by the Theological Seminary and the Academy. Regular members of the Protestant Episcopal, Baptist, or Roman Catholic congregations may be excused to attend the local churches of these denominations. The Society of Inquiry holds voluntary devotional meetings on Wednesday and Sunday evenings.

EXPENSES

Parents can estimate approximately the necessary expenses of their sons at the school; and it is particularly requested that they do not furnish money beyond what is necessary for ordinary expenses. Pupils who are supplied with much spending money, or who are allowed to make debts, usually accomplish but little in their studies, and are liable to form habits which require their removal from school.

Term Bills

The term-bills for tuition are as follows: for the Fall Term, $40.00; for the Winter Term, $30.00; for the Spring Term, $30.00. There is a graduation fee of $7.00. A laboratory fee of $5.00 is charged for each term in Chemistry and Physics; and of $2.50 for the Winter Term in Botany. The term-bills are paid in person by the students, or are mailed to the parent or guardian upon request. They are payable at the commencement of the term. Checks should be drawn in favor of the Trustees of Phillips Academy.

BOARD AND LODGINGS

I. Private Houses

About forty private houses in the vicinity of the Academy, under license from the Trustees, provide board and lodgings for students, and no student may occupy a house not thus sanctioned by the School.

Some of the houses provide furnished rooms only: others provide rooms and board, and some of the latter furnish board for students rooming in neighboring houses.

The price of table board in Commons is $3.00, and in private families from $4.00 to $7.00 per week. The price of furnished rooms, including ordinary service, is from $3.00 to $6.00 per week and upwards.

Engagements for rooms in private families continue to the end of the Academic year. Care should, therefore, be exercised in the selection of rooms. Engagements for table board may, on suitable notice, be terminated at the close of any term.

II. Cottages

By the gifts of Mr. Melville C. Day, class of 1858, Mr. Warren F. Draper, class of 1843, and of many citizens of Andover, aided by a few friends outside of Andover, five dormitories have been built, called respectively, "The Taylor," "The Andover," "The Draper," "The Eaton," and "The Bancroft." They are built of brick with granite trimmings, and careful attention has been given to the warming, ventilation, water supply, bath and toilet arrangements, and the drainage. Each building contains apartments for a resident teacher. The Taylor and the Draper contain five double suites for students: the Andover has five double suites and three single rooms: the Eaton has four double suites, two single suites, and one single room: The Bancroft contains eighteen double suites. Each suite has separate bedrooms, an open fireplace, closet room, and some have storage lockers in the attic. Table board for students in these dormitories may be secured in Commons at $3.00, or in private families at $4.00, $5.00, $6.00, and $7.00 per week. Students in the Draper are regarded as rooming in Commons.

These accommodations for five teachers and eighty pupils are a partial realization of a plan to replace, as fast as funds are provided for the purpose, the present Latin and English Commons with modern buildings, as favorable as possible to the best student life. The income derived from the fees is applied first to maintenance, second to certain life annuities attached to the deeds of gifts, and third to the aid of deserving students who need pecuniary aid.

Students who use tobacco in any form, occasionally or habitually, must not apply for these rooms. No furniture is supplied by the school. The fees include the charge for heat and for the care of the rooms.

PRICE OF ROOMS FOR 1901–1902

For a double suite in the Taylor, the Andover, the Eaton, or the Bancroft, each student,	$100.00
For a double suite in the Draper, not including service, each student,	$40.00
For a single suite in the Bancroft,	$125.00
For a single room in the Andover or the Eaton,	$50.00

III. Commons

There are thirty rooms in Commons for pupils, and two for teachers. Each room is designed for two persons and has two single bedrooms connected with it. The price of rooms is $5.00 per term for each student. The accommodations provided in Commons are very plain, and intended expressly for those who wish to make their expenses small. The rooms are supplied only with tables and bedsteads for single beds. Bedding is usually brought from home. Stoves and other articles necessary to furnish a room can be obtained here at reasonable prices. Plans of the rooms and other information may be had by addressing the Registrar. Persons who use tobacco, occasionally or habitually, must not apply for rooms in Commons.

Persons who room in Commons are not permitted to board themselves, to pay more than $4.00 per week for table board or to board out of school precincts. Students rooming, without board, in private houses, may board in Commons if there are vacant places. The price of table board by the term is at present $3.00 per week, payable monthly in advance. The rate for the short vacations, and for small fractions of a term, is $4.00 a week. The house opens September 16, 1901.

ENDOWMENT AND SCHOLARSHIPS

Beneficiary Aid

The *Farrar Fund*, a legacy from the late Treasurer Samuel Farrar, Esq., amounts, with additions from income, to Twenty-Two Thousand Dollars.

The *Students Educational Fund*, begun with a gift of $100 from the Senior Class of 1854, and enlarged by their efforts to $1,800, now amounts to $5,700. The Trustees desire to increase this fund to at least $25,000, in order to meet the opportunity for assisting worthy young men, ambitious to secure a liberal education.

Scholarships

The following scholarships have been established:

The *Clarke Scholarship* of $1200, established in 1870 in memory of Mrs. Jane Aiken Clarke.

The *Jonathan Taylor Scholarship* of $1000, established in 1878 by the late Edward Taylor, in memory of his father.

The *Peter Smith Byers Scholarship* of $500, established in 1778 by the late John Byers.

The *French Scholarship* of $1000, established in 1879 by the bequest of Hiram W. French.

The *Class of 1878 Scholarship* of $500, established by the Classical Class of 1878

The *Caroline Parker Taylor Scholarship* of $1000, established in 1880 by Mrs. Alpheus Hardy.

The *Gerard Sumner Wiggin Scholarship* of $1000, established in 1882 by the bequest of Lady Elizabeth Sumner Buckley-Mathew Fleming.

The *Richards Scholarship* of $1000, established in 1889 by the late Mrs. Mary A. Richards. in memory of her sons, deceased.

The *Charles L. Flint Scholarship Fund* of $5000, established in 1890 by the bequest of Hon. Charles L. Flint.

The *Emma Lane Smyth Scholarship* of $1000, established in 1890 by the late Ex-Gov. Frederick Smyth.

The *James and Persis Taylor Scholarship* of $1000, established in 1890 by the late Mrs. Mary E. Fairbanks.

The *Henry P. Haven Scholarship* of $1000, established in 1890 by the estate of Henry P. Haven.

The *Dowe Scholarship Fund* of $3000, established in 1892 by the bequest of John Dowe.

The *John Cornell Scholarship Fund* of $5000, established in 1894 by the bequest of John Cornell.

The *James Calvin Taylor Scholarship* of $1000, founded in 1895 by his sister. the late Mrs. Mary E. Fairbanks.

Scholarship Aid

The income from these scholarships and other endowment funds, available for a limited number of students, is awarded to such as are in need of financial assistance and maintain a high grade of scholarship. The amount of aid most frequently awarded a student is the same as the tuition fee, which is thus remitted. This abatement is possible only after a student has been connected with the school for at least one term, during which time an opportunity is afforded the instructors and the school officers for determining the candidate's scholarship grade. Ordinarily forty scholarships may be awarded. Independently of the abatement of tuition charges, the school is able to award a limited number of small scholarships for excellence in special departments of school work.

Since the endowment funds of the Academy are insufficient to meet the demands even of the most worthy applicants, discrimination in favor of superior achievement is always made and satisfactory evidence must be furnished the Principal that the financial aid is necessary.

Candidates for admission to the Academy, dependent upon their own resources and in need of scholarship aid, should by careful preliminary correspondence indicate their sources of income, or their plans involving self-maintenance.

Endowment

In addition to the early endowments by Hon. Samuel Phillips, Dr. John Phillips, Hon. Wm. Phillips, Lieut.-Gov. Samuel Phillips, His Honor William Phillips, and others, and the Scholarships, Prizes, and Charity-funds mentioned elsewhere, gifts for buildings and for various purposes amounting to $276,000 have been more recently received (1878–1901), and endowments have been made as follows: George Peabody Foundation for Natural Sciences (1866), $25,000; Samuel H. Taylor Fund (1871), $3,700; John C. Phillips Foundation of the Latin Department (1878), $25,000; Peter Smith Byers Foundation for the Principalship (1879), $40,000; Alden Educational Fund (1881), $5,000; Stone Educational Fund (1884), $25,000; W. F. Draper Fund (1887), $2,500; James S. Eaton Fund (1895), $500.

Libraries

The "Samuel H. Taylor Memorial Library" contains about 2,500 books, including the valuable classical library of the late Principal, Dr. Taylor, which was presented to the school (1876) by his sister, Mrs. Horace Fairbanks of St. Johnsbury, Vt. The "Associate Library" belongs jointly to the Philomathean Society and the Society of Inquiry, and contains 800 volumes. There are also special libraries in English, Classics, History, and Natural Science. The library of the Theological Seminary, and the Memorial Hall Public Library, aggregating 60,000 volumes, are accessible for consultation daily.

School Organizations

Among the School Organizations, maintained by the students, are the following: RELIGIOUS, The Society of Inquiry; DEBATING, the Philomathean Society, Forum; SCHOOL PAPERS, The Phillipian (semi-weekly), the Mirror (monthly), the Pot Pourri (annual); MUSICAL, the Glee Club, Banjo Club, Mandolin Club; THE ATHLETIC UNION, comprising the Base Ball, Foot Ball, Athletic and Tennis Associations; also the Camera Club, Chess Club, Dramatic Club, Gun Club, Skating Association, etc.

Location, etc.

Andover is a town of six thousand inhabitants, situated on the Western Division of the Boston and Maine Railroad, twenty miles north of Boston. It is the seat of the Andover Theological Seminary, Prof. Charles Orrin Day, President of the Faculty, and of the Abbot Academy for young ladies, Miss Emily A. Means, Principal. For convenience the following additional addresses are given: John Tyler Kimball, Cashier of the Andover National Bank; Edwin L. Perley, Station Agent, Boston and Maine Railroad; E. P. Hitchcock, manager of the "Mansion House," the local hotel connected with the institutions; Warren F. Draper, the "Andover Publications;" George A. Higgins & Co., the Andover Bookstore; John N. Cole, *The Townsman*, and the Andover Press.

English A	2
Botany A	2
Physics I	4
* Chemistry C	4
* Algebra B	4
* Geometry B	2
American Archaeology A	2

* If alternate or equivalent subjects have been passed in college examinations.

NOTE.—Seniors arrange their schedules on the basis of the college certificates which they hold. Those studies are selected which best complete the student's preparation for his college or scientific school. The completion of the course, which secures the diploma of the Academy, requires a clear admission to the Senior Year and a schedule of eighteen hours per week of subjects such as ensure full admission to Harvard or Yale Universities.

CLASSICAL DEPARTMENT

The course of study is designed to furnish adequate preparation for any college. It is decidedly advantageous for students to take the entire course in the Academy as the languages are taught with a view to the student's progressive development. An especially selected library affords opportunity for students to acquire the habit of supplementary reading.

Harvard or Yale preliminary certificates, at the discretion of the Faculty, are accepted as equivalents for courses passed. Candidates for the Senior Class from other schools must present college preliminary certificates. Middlers in this school are required to take a college preliminary examination.

A variety of optional and extra studies is offered, especially in the Senior year, to meet the wants of students who are fitting for definite college requirements, or are to enter advanced divisions at the colleges, and also to provide for ambitious students who may wish to broaden their preparation. Members of the Senior Class select such subjects as are needed to complete their preparation for college and for the remainder of their schedule may elect any subjects in the Course of Study, of either department, not already completed. The classes in Physics and Chemistry have excellent facilities for practical work in the laboratories.

CLASSICAL COURSE

CLASS IV

JUNIOR

FIRST TERM:

LATIN.—Lessons. 6 hours, strict class-room drill.

MATHEMATICS.—Algebra, through fractions. 4 hours. Elementary Geometry. 2 hours.

ENGLISH.—Review of Grammar. Composition. Irving's Sketch Book. 4 hours.

NATURAL SCIENCE.—Physiography. 2 hours.

SECOND TERM:

LATIN.—Lessons, completed. Grammar. Easy reading. Exercises in writing Latin. 6 hours.

MATHEMATICS.—Algebra, simple equations and square root. 4 hours. Elementary Geometry. 2 hours.

ENGLISH.—Composition. Lockwood's lessons. American authors. 4 hours.

NATURAL SCIENCE.—Physiography. 2 hours.

THIRD TERM:

LATIN.—Caesar, Gallic War, Books II, III. Composition (elementary work). 6 hours.

MATHEMATICS.—Algebra, theory of exponents, radicals and quadratics. 4 hours. Elementary Geometry. 2 hours.

ENGLISH.—Composition. Study of words. Readings. 4 hours.

NATURAL SCIENCE.—Physiography. 2 hours.

NOTE.—The course in Elementary Geometry includes rule and compass practice and constant use of the Metric System. The construction and the measurement of simple geometrical figures are emphasized, rather than the theory of demonstration.

CLASS III

JUNIOR MIDDLE

FIRST TERM:

LATIN.—Caesar, Gallic War, Books I, IV and V. Reading at sight. Composition (Jones, 10 lessons). 4 hours.

GREEK.—White's First Greek Book. 4 hours.

MODERN LANGUAGES.—French or German. 4 hours.

MATHEMATICS.—Algebra. 1 hour. Plane Geometry. 3 hours.

ENGLISH.—Composition. Readings. 2 hours.

SECOND TERM:

LATIN.—Caesar. Nepos. Sight Reading. Composition (Jones, through lesson 25). 4 hours.

GREEK.—White's First Greek Book. 4 hours.

MODERN LANGUAGES.—French or German. 4 hours.

MATHEMATICS.—Algebra. 1 hour. Plane Geometry. 3 hours.

ENGLISH.—Composition. Midsummer Night's Dream. 2 hours.

THIRD TERM:

LATIN.—Nepos. Sight Reading. Composition (Jones, completed). Written Translations. 4 hours.

GREEK.—White's First Greek Book. Translation of easy prose. 4 hours.

MODERN LANGUAGES.—French or German. 4 hours.

MATHEMATICS.—Algebra. 1 hour. Plane Geometry. 3 hours.

ENGLISH.—Composition. Twelfth Night. 2 hours

CLASS II

MIDDLE

FIRST TERM:

Latin.—Cicero, Catiline Orations. Reading at sight. Composition based on the text read. 5 hours.

Greek.—Xenophon, Anabasis, Book I. Composition. 5 hours.

Modern Languages.—French or German. 2 hours.

Mathematics.—Algebra, reviewed. 2 hours. Plane Geometry. 1 hour.

English.—Readings in Poetry. Themes. 3 hours.

SECOND TERM:

Latin.—Cicero, Manilian Law, Archias, Marcellus. Written Translations. Composition, connected narrative. Harvard Candidates pursue the courses prescribed by the Harvard catalogue. 5 hours.

Greek.—Xenophon, Anabasis, Books II, III. Composition. 5 hrs.

Modern Languages.—French or German; prose selections. 2 hours.

Mathematics.—Algebra. 2 hours. Plane Geometry. 1 hour.

English.—Readings in Prose Narrative. Themes. 3 hours.

THIRD TERM:

Latin.—Cicero, Milo. Caesar, Gallic War, selections from Book VII. Nepos, selections at sight. Composition. (Harvard Candidates) Ovid and Vergil. 5 hours.

Greek.—Xenophon, Anabasis, Book IV. Hellenica, selections. Composition. Reviews. 5 hours.

Modern Languages.—French or German, prose selections. 2 hours.

Mathematics.—Algebra. 2 hours. Plane Geometry. 1 hour.

English.—Readings; the Essay. Themes. 3 hours.

Note.—An opportunity is given by an increasing number of colleges to pass a preliminary examination in a part of the subjects required for admission. June examinations, both preliminary and final, are held in Andover, by Harvard, Yale and Princeton colleges.

In order to define the work of the pupil in his last year, it is required that he pass one of these preliminary examinations.

CLASS I

Senior

A schedule of not less than eighteen (18) hours per week, selected from the following subjects, according to college requirements. The courses are continuous, throughout the school year:

Latin I.—Vergil, Æneid. Books I-VI, VIII, IX. Prosody. Cicero. Copious reading at sight. Roman Antiquities. 4 hours.

Latin Composition I.—Advanced course. 1 hour.

Greek I.—Homer, Iliad and Odyssey, 5000 verses. Prosody. Selections from Attic prose writers. 4 hours.

Greek Composition I.—Advanced course. 1 hour.

History I.—Greek and Roman History. 5 hours.

Physics I.—Text and Laboratory. 4 hours.

French A.—Advanced course. 4 hours. French III. 4 hours.

German A.—Advanced course. 4 hours. German III. 4 hours.

Chemistry A.—4 hours. Chemistry C. 4 hours.

English A.—Readings in College Requirements. Extempore Composition. 2 hours.

History A.—United States. 4 hours. History B.—English. 4 hours.

Mathematics A. — Trigonometry. Solid Geometry. 4 hours each a half-year.

Mechanical Drawing A.—2 hours.

Botany A.—2 hours.

American Archaeology A.—2 hours.

Any other courses, not previously pursued, in any class, of either department, of the school.

CLASSICAL COURSE—NOTES

GREEK

JUNIOR MIDDLE YEAR.—The first year is devoted mainly to memorizing the forms of the language and fixing a few important principles of syntax. The class is constantly drilled to reproduce paradigms accurately and rapidly, as well as to inflect new words. The importance of review work is emphasized at every recitation. Black-board work occupies much of the time; this work the class is called upon to criticise. By an equal share of oral work the ear is trained to detect inaccuracy in accent or pronunciation. A ready command of the vocabularies is required; to secure this, there is both oral and written work, and writing Greek words at dictation is practiced.

The hours are varied with frequent exercises in translation, English into Greek as well as Greek into English, and occasional talks about Greek life.

MIDDLE YEAR.—The second year is occupied with reading Xenophon's Anabasis, Books I–IV, sight reading, translation from English into Greek, and grammar reviews. Great effort is made to secure simple, idiomatic English in both oral and written work. A portion of the following day's lesson is often translated at sight, and towards the end of the year, other works, particularly Xenophon's Hellenica, are used with special reference to sight reading.

Grammar and composition are studied through the year, the method being the same as during the first year; skill in writing Greek is made a chief object of this year's work.

SENIOR YEAR. — The third year is spent mainly in reading selected books of the Iliad and Odyssey. The work of the year is much broader in scope, however, than before. After the dialect is thoroughly mastered, more attention is given to the literary side of the poems; the art of translation is discussed; carefully prepared renderings in prose and metre are made by the class and read aloud. Much attention is paid to the translation of sight passages; in this there is almost daily practice, the object being to acquire ability to read large portions of Homer rapidly and with pleasure.

During the second and third terms some time is given to reading selections from Xenophon's Hellenica or Cyropaedia or Memorabilia.

LATIN

JUNIOR YEAR. — The Latin work of the Junior year consists of strict, unremitting drill in the essentials of the grammar, with the view of securing accuracy and ease in the use of forms. Careful training is given in methods of study. The student is taught from the beginning to grasp the concepts as well as the English equivalents of Latin terms, and to notice the order of thought in sentences. There is daily practice in the writing of Latin.

JUNIOR MIDDLE YEAR. — In the Latin of the Junior Middle year exceptional stress is laid upon a study of the grammatical relation of words in sentences. Case constructions are accurately discriminated and explained; the ordinary uses of the subjunctive and the infinitive are interpreted; and the more common idioms of Caesar and Nepos are noticed.

MIDDLE YEAR.—In the Middle year the course in Cicero aims towards the mastery of an extended vocabulary, an elementary knowledge of synonyms, an accurate discrimination of grammatical constructions, and facility in reading the Latin. Understanding of the subject-matter of the speeches is insisted upon and the student is encouraged to notice and to appreciate beauty of thought and of expression. In rendering Latin into English carelessness in diction is not tolerated. Special efforts are made to render the student familiar with the chief characteristics of Cicero's oratory and with the history of his time.

The work in prose composition is devoted to connected narrative.

SENIOR YEAR.—In this year the Latin study broadens with the view to promoting a scholarly ease in the reading of the literature prescribed. Poetical constructions and peculiar uses of words are subjects of special study. Practice in reading the hexameter rhythmically forms an essential feature in the study of Vergil. No effort is spared to induce a thorough understanding of the work read, and an appreciation of the literary art involved. Linguistic study is directed towards a wider knowledge of word-formation, and of the principles of syntax. Examinations are set largely from passages not previously seen by the student.

The study of Roman life aims to give a general survey of the subject

SCIENTIFIC DEPARTMENT

The object of this department, established in 1830, is to afford a substantial course of study, chiefly on the basis of Mathematics and the Natural Sciences, with History, Latin, Modern Languages and Literature.

The Course of Study is designed to furnish thorough preparation for the Lawrence Scientific School of Harvard University, the Sheffield Scientific School of Yale University, the Massachusetts Institute of Technology, and other scientific schools and colleges of the higher grade.

For illustrating the principles of Natural Philosophy the school is provided with excellent apparatus, which is used in lectures given in connection with the text-books. There is a well-equipped Physical Laboratory, for experimental work. An appropriation of $300 is made each year to procure the latest and best instruments.

The Archaeological Department, established in 1901, offers a course of instruction in American Archaeology, illustrated by a collection of forty thousand specimens.

The Academy is provided with a full set of instruments for courses in practical surveying, consisting of a solar transit, surveyor's compasses, levels, and other appliances.

The Science Building furnishes ample accommodations for the departments of Physics and Chemistry. The building contains, besides recitation rooms, a lecture room, a draughting room, a Physical and a Chemical Laboratory, thoroughly equipped for individual work.

The Newton cabinet contains several thousand specimens of rock, minerals, fossils, insects, shells, and other illustrations of Natural History, and a small collection of coins, stone implements, and other valuable antiquities.

SCIENTIFIC COURSE

CLASS D

JUNIOR

FIRST TERM:

MATHEMATICS.—Algebra, through fractions. 4 hours. Elementary Geometry. 2 hours.

LATIN.—Lessons. 6 hours.

ENGLISH.—Review of Grammar. Composition. Irving's Sketch Book. 4 hours.

NATURAL SCIENCE.—Physiography. 2 hours.

SECOND TERM:

MATHEMATICS.—Algebra, simple equations and square root. 4 hours. Elementary Geometry. 2 hours.

LATIN.—Lessons, continued. 6 hours.

ENGLISH.—Composition. Lockwood's Lessons. American Authors. 4 hours.

NATURAL SCIENCE.—Physiography. 2 hours.

THIRD TERM:

MATHEMATICS.—Algebra, theory of exponents, radicals and quadratics. 4 hours. Elementary Geometry. 2 hours.

LATIN.—Gradatim, selections. Exercises in writing Latin. 6 hours.

ENGLISH.—Composition. Study of words. Readings. 4 hours.

NATURAL SCIENCE.—Physiography. 2 hours.

CLASS C

JUNIOR MIDDLE

FIRST TERM:

MATHEMATICS. — Algebra. 2 hours. Plane Geometry, begun. 2 hours.

MODERN LANGUAGES.—French or German. 4 hours.

LATIN.—Caesar, Gallic War, begun. 4 hours.

NATURAL SCIENCE.—Chemistry. 4 hours.

ENGLISH.—Readings. Composition and Rhetoric. 2 hours.

SECOND TERM:

MATHEMATICS. — Algebra. 2 hours. Plane Geometry, continued. 2 hours.

MODERN LANGUAGES.—French or German. 4 hours.

LATIN.—Caesar, Gallic War, continued. 4 hours.

NATURAL SCIENCE.—Chemistry. 4 hours.

ENGLISH.—Shakespeare. Composition and Rhetoric. 2 hours.

THIRD TERM:

MATHEMATICS — Algebra, completed. 2 hours. Plane Geometry, to regular polygons. 2 hours.

MODERN LANGUAGES.—French or German. 4 hours.

LATIN.—Caesar, Gallic War, continued. 4 hours.

NATURAL SCIENCE.—Chemistry. 4 hours.

ENGLISH.—Study of words. Readings. 2 hours.

NOTE.—At least four books of the Gallic War are read during the year.

CLASS B

MIDDLE

FIRST TERM:

MATHEMATICS.—Plane Geometry. 2 hours. Algebra, reviewed. 4 hours.

NATURAL SCIENCE.—Physics. 4 hours, or

LATIN.—Cicero. 4 hours.

MODERN LANGUAGES.—French or German. 2 hours.

HISTORY.—English History. 4 hours.

ENGLISH.—Literature and Composition. 2 hours.

SECOND TERM:

MATHEMATICS.—Plane Geometry. 2 hours. Algebra. 4 hours.

NATURAL SCIENCE.—Physics. 4 hours, or

LATIN.—Cicero. 4 hours.

MODERN LANGUAGES.—French or German. 2 hours.

HISTORY.—English History. 4 hours.

ENGLISH.—College requirements. Composition. 2 hours.

THIRD TERM:

MATHEMATICS.—Plane Geometry, completed. 2 hours. Algebra to the General Theory of Equations, completed. 4 hours.

NATURAL SCIENCE.—Physics. 4 hours, or

LATIN.—Cicero. 4 hours.

MODERN LANGUAGES.—French or German. 2 hours.

HISTORY.—English History. 4 hours.

ENGLISH.—College Requirements. Composition. 2 hours.

CLASS A

SENIOR

A schedule of not less than eighteen (18) hours per week, selected from the following subjects, according to college requirements. The courses are continuous, throughout the school year :

MATHEMATICS A. — Plane Trigonometry. 4 hours for half the year. Solid Geometry. 4 hours for half the year.

SCIENCE A.—Physics I. 4 hours. Chemistry, advanced course. 4 hours.

BOTANY A.—2 hours.

AMERICAN ARCHAEOLOGY A.—2 hours.

LATIN A.—Composition and selected readings. 2 hours.

MODERN LANGUAGE A.—Advanced French. 4 hours. Advanced German. 4 hours.

HISTORY A.—United States. 4 hours.

MECHANICAL DRAWING A.—2 hours.

ENGLISH A.—College Requirements. Themes. 2 hours.

* HISTORY B.—English. 4 hours.

* Algebra B.—4 hours.

* Geometry B.—2 hours.

Any other courses, not previously pursued, in any class, in either department, of the school.

* Courses count as Senior work only as substitutes for Senior courses already accepted on college examinations.

SUPPLEMENTARY READING

Examinations will be held, at the middle and near the close of each term, upon the following books:

CLASSES IV and D.

First Term.—Cooper's Last of the Mohicans; Dickens's Cricket on the Hearth.

Second Term.—Hughes's Tom Brown at Rugby; Stevenson's Kidnapped.

Third Term.—Dickens's Nicholas Nickleby.

CLASSES III and C.

First Term.—Scott's Talisman: Stevenson's New Arabian Nights.

Second Term.—Dickens's David Copperfield.

Third Term.—Irving's Alhambra.

CLASSES II and B.

First Term.—Dickens's Tale of Two Cities; Longfellow's Tales of a Wayside Inn.

Second Term.—Blackmore's Lorna Doone; Mrs. Jackson's Ramona.

Third Term.—Mitchell's Hugh Wynne.

CLASSES I and A.

First Term.—Thackeray's Henry Esmond; Barrie's A Window in Thrums.

Second Term.—Hawthorne's Scarlet Letter; Tennyson's Idylls of the King.

Third Term.—Mrs. Gaskell's Cranford.

PRIZES

The following prizes are offered annually for proficiency in the work of several of the departments:

IN MATHEMATICS

The Convers Mathematical Prizes, founded by E. B. Convers, Esq., class of 1857, of Englewood, N. J. Three prizes of twenty dollars, fifteen dollars and ten dollars, are awarded for excellence in the mathematics of the Classical Department, to be determined by an examination in May of the Middle Year. The Committee of Award for the third competition, May, 1900, were Prin. Perley L. Horne, M. A., Henry J. Wilder, B. A., Melvin T. Holbrooke, B. A., all of Dummer Academy, So. Byfield.

IN ENGLISH

The Draper Prizes for *Selected Declamations*, founded by Mr. W. F. Draper, of the class of 1843, of Andover. The first prize is of twenty dollars, the second of twelve dollars, the third of eight dollars. The competition is open to students in either department. A preliminary trial before a committee is held early in May, the final competitors being chosen on the basis of the ten best rendered selections. The thirty-fourth competition occurred June 26, 1900. The Committee of Award were Harlan Hogue Ballard, B. A., Pittsfield, Rev. Dr. Henry Hamlin Stebbins, Rochester, N. Y., Frank Doremus Somers, Boston.

The Means Prizes for *Original Declamations*, founded by the late Wm. G. Means, of Boston. The first prize is of twenty dollars, the second of twelve dollars, the third of eight dollars. Students in either department may compete. Compositions must be submitted before March 1st. Ten are selected for the final competition, by the same judges who act as committee of award, the prizes being given on the merits of both composition and delivery. The thirty-third competition was held May 17, 1900, the Committee of Award being Prin. James D. Horne, Lawrence, Edward S. Riley, Lawrence, Ernest C. Jewell, Lawrence, Rev. Wm. P. Fisher, Andover.

The subjects for the thirty-fifth competition, March 1, 1902, are:

1. The Influence of the Modern Newspaper.
2. Shylock.—A Character Study.
3. Why Do We Honor the Puritan?
4. The Moral Element in Athletics.
5. Abraham Lincoln, the Typical American.
6. A Ramble in Andover with a Naturalist.
7. "Practical Education."
8. The Fall of Lord Bacon and What It Teaches.
9. Americans as Others See Them.
10. The Hero and His Valet.

The Harvard–Andover Prizes, sustained by the Harvard–Andover Club. Two prizes are offered, one of fifteen dollars and one of ten dollars, for excellence in Elementary Rhetoric and English Composition. The competition is open to members of the Senior and Middle classes of both departments. The Committee of Award for the twelfth competition, held in June, 1900, were the Instructors in English in Phillips Academy.

The Robinson Prizes for *Debate*, sustained by Mr. H. S. Robinson, of Andover, are open to members of the two debating societies, Philo and Forum. The first prize of twelve dollars, the second of eight dollars, are awarded to the students presenting the best arguments, irrespective of the merits of the question. Each society selects three men to represent their society. The fifth competition occurred May 22, 1900. The Committee of Award were Prof. C. C. Torrey, Andover, Rev. F. H. Page, Lawrence, T. Dennie Thomson, Andover.

The Valpey Classical Prizes, founded by the late Rev. Thomas G. Valpey, of the class of 1854. Two prizes, of ten dollars each, are awarded, one for excellence in Latin Composition; one for excellence in Greek Composition. The competition is open to members of the Middle Class. The fifth competition occurred in June, 1900. Committee of Award, W. L. Bartlett, B. A., Newburyport, E. A. Starbuck, B. A., Andover, and the Latin Department of the Academy.

The Foster Classical Prizes, sustained by Herbert B. Foster, Ph.D., of the class of 1892, as offered for 1900:

I. A prize of twelve dollars for excellence in reading Greek prose aloud, both prepared and sight work. The competition is open to the entire school.

II. A prize of eight dollars for excellence in reading Latin prose aloud, both prepared and sight work. The competition is open to the entire school.

The third competition occurred June, 1900. The Committees of Award were I.—W. L. Bartlett, B. A., Newburyport, and E. A. Starbuck, B. A., Andover. II.—Rev. Frederic Palmer and E. A. Starbuck, B. A., both of Andover.

IN GREEK

The Joseph Cook Greek Prizes, founded by Dr. Joseph Cook, class of 1857, of Ticonderoga, N. Y. The prizes are fifteen, ten, and five dollars respectively. The special topics included in the twenty-third competition, May, 1902, will be translations at sight:—

1. From Homer.
2. From Attic Greek prose.
3. From English into Greek.

The Committee of Award for the tweny-first competition, May, 1900, were Prof. Charles D. Adams, Ph.D., and Prof. George D. Lord, M. A., of Dartmouth College.

IN LATIN

The Dove Latin Prizes, founded by Mr. George W. W. Dove, class of 1853, of Andover. The prizes of twenty, fifteen and ten dollars, are awarded for excellence in Latin and are open to Seniors in the Classical Department.

The Committee of Award for the sixteenth competition, May, 1900, were Alfred L. Ripley, M. A., Andover, and John L. Phillips, B. A., Andover.

The Crane Prizes for *Excellence in Vergil*, the gift of the late Rev. Oliver Crane, D. D., LL.D., are copies of his translation of Vergil. Open to Seniors and Middlers.

IN PHYSICS

The Wadsworth Prize, sustained by William S. Wadsworth, M. D., of the class of 1887, is a prize of ten dollars, offered to that member of the Scientific Department who shall obtain the highest rank in Physics for the year. The competition occurred in June, 1900. The Committee of Award was Prof. William B. Graves, M. A., Andover.

PRIZES AWARDED, 1899–1900

The Convers Prizes	(1) Douglas Bannan Green, *Pottsville, Pa.* (2) Robert Lincoln Smitley, *Allegheny, Pa.* (3) Francis Howard Fobes, *Lexington*
The Draper Prizes	(1) Sidney Henry Smith, *London, England* (2) Arthur James Derbyshire, *Lawrence* (3) Gilbert Browning, *Morristown, N. J.*
The Means Prizes	(1) William Johnson Colby, *East Weymouth* (2) Joseph Stowe Seabury, *Wellesley Hills* (3) Fred Lewis Collins, *Andover*
The English Prizes	(1) Charles Tripp Ryder, *Andover* (2) Lansing Parmelee Reed, *Holyoke*
The Robinson Prizes	(1) Francis Howard Fobes, *Lexington* (2) Fred Lewis Collins, *Andover*
The Valpey Prizes	*Greek* Michael Joseph Mann, *Lawrence* *Honorable Mention* Harold Simpson Deming, *South Woodstock*, *Ct.* *Latin* Michael Joseph Mann, *Lawrence* *Honorable Mention* Harold Simpson Deming, *South Woodstock*, *Ct.*
The Foster Prizes	*Greek* Francis Howard Fobes, *Lexington* *Honorable Mention* Albert Hanford Moore, *Andover* *Latin* Francis Howard Fobes, *Lexington* *Honorable Mention* Dicran Barsam Barsamian
The Cook Prizes	(1) Francis Howard Fobes, *Lexington* (2) Harlan Hogue Ballard, jr., *Pittsfield* (3) Brainerd Edwards Smith, *Salem Depot, N. H.*
The Crane Prizes	(1) Francis Howard Fobes, *Lexington* (2) Harlan Hogue Ballard, jr., *Pittsfield*
The Dove Prizes	(1) Francis Howard Fobes, *Lexington* (2) Elbert Henry Dyer, *Lawrence* (3) William Northrop Morse, *Amherst*
The Wadsworth Prize	Carl King, *Lawrence*

CLASS OF 1900

The following members of the class of 1900, unless otherwise stated, have entered college as indicated:

HARVARD —

Emerson Woods Baker
Harlan Hogue Ballard, jr.
Clarence Smith Bodfish
Fred Lewis Collins
William Drinkwater
Elbert Henry Dyer
Nicholas Feld
Francis Howard Fobes
Charles Tuell Hawes
Thorndyke Dudley Howe (1901)
Francis Joseph O'Connor
George Garfield Sheerin
Brainerd Edwards Smith
John Husfeldt Soehrens
William David Wadsworth
Bartlett Walton (1901)

HARVARD (Lawrence Scientific School) —

John Naylor Stevens
Charles Edwards Tirrell

HARVARD (Medical) —

George Lambert Bigelow (1901)
Frank Aloysius Conlon
Roland Stephen Newton (1901)
John Joseph Sullivan (1901)
Merriam McIntyre Thurlow

HARVARD (Dental) —

Charles Bernard Gassett (1902)
William Dimmick Hazen (1901)

HARVARD (Special) —

Joseph Stowe Seabury (1901)

YALE —

George Webster Adams
John Phelps Taylor Armstrong
Lemuel Hastings Arnold, jr.
Louis Horace Arnold
James Ralph Bloomer
Gerald Chittenden
William Darrow Clark
Edward Welch Clucas
Seth Hamilton Moseley, 2nd
Edwin Canfield Northrop
Edward Stetson Paine
George Elton Parks
Lansing Parmelee Reed
Robert John Rich (1900)
Heaton Ridgway Robertson
Robert Percy Schenck

Walter Snell Cross
Howard Drummond
William Brewster Ely
Dwight Thompson Farnham
George Merrill Gelser
Mortimer Reese Goldsmith
Douglas Bannan Green
Bernard Henry Hirsh
James Herron Hopkins, jr. (1901)
Emerson Latting
Robert Lincoln Smitley
Frank Squire, jr.
Henry Hamlin Stebbins, jr.
Thomas Day Thacher
Herbert Franklin Thomas
Leonard Sanford Tyler
Frederick Holme Wiggin, jr.
James Harvey Williams, jr.
Albert Shelley Willis
Burnside Winslow
James Haydon Womelsdorf

YALE (Sheffield Scientific School)

Courtlandt Woodruff Babcock
Edwin Mortimer Barnes (1901)
Perry Dean Gribben
William Henry Harrison (1901)
Julius French Janes (1899)
Herman LaMott Levvy (1902)
Nathan Mears MacKay (1901)
Arthur Josiah Mills
Charles Earl Moore
Theodore Hugh Nevin (1899)
Charles Arthur Norton (1901)
Chauncey O'Neil
Oliver Perin
George Owens Pitzipio
John Benjamin Porteous
Charles Donnelly Rafferty
Alfred Newton Robbins
Bard Stephens (1901)
John Emet Sweet
David Pearson Thompson (1901)
Hiram Kennard Wasson (1901)
Frank Griffith Webster
Louis DeNormandy Willard
Leonard Willets Williams

AMHERST —

William Northrop Morse

BOSTON COLLEGE —

Joseph Peter Donovan (1901)

BROWN —

Howard Farnam Hart

COLUMBIA (Medical) —

Farrand Northrop Benedict
Louis Ammon Gould

COLUMBIA (Scientific) —

Nelson Salathiel Mills Taylor

Cornell —

Olin Fell Derr

Dartmouth —

Charles Macdonald Brown (1900)
Maurice Alphonse Lynch (1901)
Harold Duncan Oliphant
Harry Woolson Taplin

Leland Stanford Junior University —

Orrin Allen Wilson (1901)

Massachusetts Institute of Technology —

Joseph Kittredge Elliot
Carl King
George Landrus
John Josiah Lee
George Chadwick Richards (1899)
Herman Roswell Simmons (1902)

Princeton —

John Cathie Augus (1901)
Thomas Alexander Butkiewicz
Carlyle Garrison
George Moffitt Goldsmith
Welling Sickel Katzenbach
Ernest Robert Rinehart (1901)
Clyde Garfield Stevens (1901)

Princeton (Scientific) —

Seth Catlin (1901)
Ralph Tipton Davis
Harrison Butler Noble

Rhode Island College of Agriculture and Mechanic Arts —

Willard Alger Ballou (1901)

University of Vermont —

Chauncey Sherman Brownell

University of Wisconsin —

Ralph Dexter Brown

Williams —

Alvin Converse Bacon
Dicran Barsam Barsamian
Douglas Gordon Crawford
Willard Cray Kitchel
Henry Longfellow Wadsworth

Worcester Polytechnic Institute —

Frederic Keith Hill (1901)

George W. W. Dove, 1853	Andover
James H. Ropes, 1885	Cambridge
Fred W. Moore, 1889	Cambridge
Perley F. Gilbert, 1890	Andover

Meetings, with reception and dinner, are held in Boston every even year, 1902, 1904, etc., and at Andover each year, in connection with the graduation exercises. The date, for 1901, will be June 26.

It is desired that correspondence regarding membership and information concerning past members of the Academy be sent to the Secretary.

A copy of the Annual Catalogue will be sent regularly to all past students who may express a desire to receive it, and who furnish their addresses for the purpose. Address Phillips Academy, Andover, Mass.

* Died 4 October, 1901

FACULTY

*CECIL F. P. BANCROFT, PH.D., LL.D., L.H.D., PRINCIPAL
On the Peter Smith Byers Memorial Foundation Elected 1873

MATTHEW S. McCURDY, M.A., 60 Bartlet Street
Instructor in Mathematics Elected 1873

WILLIAM B. GRAVES, M.A., 9 Salem Street
ACTING PRINCIPAL Teacher 1866–1869 Reëlected 1881
Professor of Natural Sciences on the George Peabody Foundation

GEORGE T. EATON, M.A., 73 Bartlet Street
Instructor in Mathematics Elected 1880

C. EMERSON STONE, PH.B., 104 Main Street
Instructor in French Elected 1890

CHARLES H. FORBES, B.A., 25 South Main Street
Professor of Latin on the John C. Phillips Foundation Elected 1891

WALTER R. NEWTON, PH.D., 169 Main Street
Instructor in German Elected 1892

ARCHIBALD FREEMAN, M.A., Eaton 8
Instructor in History Elected 1892

ALLEN R. BENNER, B.A., Andover 7
Professor of Greek Elected 1892

JAMES C. GRAHAM, B.S., Taylor 4
Instructor in Chemistry Elected 1892

BERNARD M. ALLEN, B.A., 56 Bartlet Street
Instructor in Latin Elected 1893

---

* DIED 4 OCTOBER, 1901.

JOHN L. PHILLIPS, B.A., *Instructor in Latin*	32 Phillips Street Elected 1894
HOWARD I. FORD, B.A., *Instructor in English*	Draper 4 Elected 1894
FREDERICK E. NEWTON, Ph.B., *Instructor in Mathematics*	28 Salem Street Elected 1895
EDWIN T. BREWSTER, M.A., *Instructor in Natural Sciences*	4 Locke Street Elected 1898
ALFRED E. STEARNS, B.A., B. D., *Registrar and Instructor in History*	18 Chapel Avenue Elected 1899
HAMILTON G. MERRILL, B.A., *Instructor in Greek*	Bancroft 9 Elected 1900
CHARLES PEABODY, Ph.D., *Honorary Director of the Department of American Archaeology*	Cambridge Elected 1901
WARREN K. MOOREHEAD, M.A., *Instructor in Archaeology and Curator*	118 Main Street Elected 1901
WALTER Y. DURAND, M.A., *Instructor in English*	36 Salem Street Elected 1901
JOHN E. LANSING, M.A. *Instructor in Natural Sciences*	Bancroft 1 Elected 1901
LESTER E. LYNDE, B.A., *Instructor in Mathematics*	19 Bartlet Hall Elected 1901
HORACE D. BELLIS, *Instructor in Gymnastics and Director of the Gymnasium*	20 Bartlet Hall Elected 1902

Instruction in Singing has been given by Rossiter Howard

PHILLIPS ACADEMY

The Phillips Academy was founded at Andover on the twenty-first of April, 1778, by the gifts of Hon. Samuel Phillips and his brother Hon. John Phillips, consisting of about 141 acres of land in Andover purchased for the purpose, and about 200 acres of land in Jaffrey, N. H., togther with the sum of one thousand six hundred and fourteen pounds. The deed of gift which is known as "The Constitution of Phillips Academy" was drawn up, as appears from contemporary documents, largely under the influence of Samuel Phillips, jr., and Eliphalet Pearson, two young men whose friendship in school and college, and whose sympathy in the religious and patriotic movements of the times made them mutually helpful in the project of founding a new institution of learning, and, as it proved, a new type of institution. Dr. Pearson became the first principal, and Judge Phillips fostered the school with assiduous devotion till his death in 1802.

The main purpose and scope of the school are shown in the opening paragraphs of the constitution, as follows:

"A short reflection upon the grand design of the great Parent of the Universe in the creation of mankind, and the improvements of which the mind is capable both in knowledge and virtue, as well as upon the prevalence of ignorance and vice, disorder and wickedness, and upon the direct tendency and certain issue of such a course of things, must occasion, in a thoughtful mind, an earnest solicitude to find the source of these evils and their remedy; and a small acquaintance with the qualities of young minds,—how susceptible and tenacious they are of impressions, evidences that youth is the important period, on the improvement or neglect of which depend the most important consequences to individuals themselves and the community.

A serious consideration of the premises, and an observation of the growing neglect of youth, have excited in us a painful anxiety for the event, and determined us to make, in the following Conveyance, a humble dedication to our Heavenly Benefactor of the ability, wherewith he has blessed us, to lay the foundation of a public free school or academy for the purpose of instructing Youth, not only in English and Latin, Grammar, Writing, Arithmetic, and those sciences, wherein they are commonly taught; but more especially to learn them the great end and real business of living.

Earnestly wishing that this Institution may grow and flourish; that the advantages of it may be extensive and lasting; that its usefulness may be so manifest, as to lead the way to other establishments on the same principles: and that it may finally prove an eminent means of advancing the Interest of the great Redeemer, to His patronage and blessing we humbly commit it."

The first trustees were Samuel Phillips of Andover, John Phillips of Exeter, William Phillips of Boston, Oliver Wendell of Boston, John Lowell of Boston, Rev. Josiah Stearns of Epping, Rev. Elias Smith of Middleton, Rev. William Symnes, Rev. Jonathan French, Samuel Phillips, jr., and Nehemiah Abbot of Andover,—men whose services and benefactions, at Andover and elsewhere, were to become memorable in the history of American education.

Provision having been made for the organization and succession of the trustees, the management of the property, the appointment of teachers and the admission of pupils, the constitution continues:

"It shall ever be considered as the first and principal duty of the Master to regulate the tempers, to enlarge the minds, and form the Morals of the youth, committed to his care.

There shall be taught in this Seminary the English, Latin and Greek Languages, Writing, Arithmetic, Music and the Art of Speaking; also practical Geometry, Logic, and any other of the liberal Arts and Sciences, or Languages, as opportunity and ability may hereafter admit, and as the Trustees shall direct.

The Master is to give special attention to the health of the Scholars, and ever to urge the importance of a habit of industry. But, above all, it is expected, that the Master's attention to the disposition of the Minds and Morals of the Youth under his charge will exceed every other care; well considering that, though goodness without knowledge (as it respects others) is weak and feeble; yet knowledge without goodness is dangerous; and that both united form the noblest character, and lay the surest foundation of usefulness to mankind.

It is therefor required that he most attentively and vigorously guard against the earliest irregularities; that he frequently delineate, in their natural colours, the deformity and odiousness of vice, and the beauty and amiableness of virtue; that he spare no pains, to convince them of their numberless and indispensable obligations to abhor and avoid the former, and to love and practice the latter; of the several great duties they owe to God, their country, their parents, their neighbors and themselves; that he critically and constantly observe the variety of their natural tempers, and solicitously endeavor to bring them under such discipline, as may tend most effectually to promote their own satisfaction and the happiness of others; that he early inure them to contemplate the several connexions and various scenes, incident to human life; furnishing such general maxims of conduct, as may best enable them to pass through all with ease, reputation, and comfort.

And, in order to prevent the smallest subversion of the true intent of this Foundation, it is again declared, that the *first* and *principal* object of this Institution is the promotion of true Piety and Virtue; the *second* instruction in the English, Latin and Greek languages, together with Writing, Arithmetic, Music, and the Art of Speaking; the *third*, practical Geometry, Logic, and Geography; and the *fourth*, such other of the liberal Arts and Sciences or Languages, as opportunity and ability may hereafter admit, and as the Trustees shall direct."

The school was opened for instruction April 30, 1778, with a group of thirteen pupils. On Oct. 4, 1780, it was incorporated in the last act of the "Great and General Court" previous to the organization of the new state government. The powers of the trustees have been enlarged by the legislature from time to time, notably in the acts conferring the power to hold additional funds, and in the act of June 19, 1807, whereby the Trustees were empowered to receive and hold real and personal estate for the purpose of a separate "Theological Institution." The Andover Theological Seminary, the first of the many theological schools was accordingly established in the following year.

In 1830, the "Teachers Seminary" was established as another distinct school, an anticipation of the normal schools, and to a less degree, of the Scientific schools which have since been planted elsewhere. In 1842 this Seminary was merged into the parent Academy and is the present Scientific Department.

In 1901 two generous friends of the Academy, whose names are withheld for the present in accordance with their request, established the Archaeological Department, providing for it an endowment for instruction, publication, research, and the care and increase of the collections; a building fund; and a large and valuable collection in American Archaeology.

By the generous gifts of numerous benefactors, in sums large and small, the original foundations have been much enlarged. The school has been "equally open to youth, of requisite qualifications, from every quarter." It has done a useful work in the education of boys who have not gone to college, and in its time has prepared boys for colleges and scientific schools in unprecedented numbers.

GIFTS

Received during the year ending April, 1902:

P. L. Atherton	$ 25 00
J. A. Babbitt	1 00
W. A. Westcott	100 00
C. H. Forbes	50 00
Mrs. C. H. Forbes	50 00
Miss E. C. Snow	50 00
W. W. Brown	500 00
John N. Cole	100 00
R. A. Packwood	4 87
I. H. Chase	10 00
I. K. Stetson	25 00
Nathaniel Stevens	100 00
G. B. Knapp	180 00
T. S. Young, Jr.	50 00
A. Van Rensselaer	100 00

M. C. Gile	50 00
Estate Edward Taylor	500 00
P. S. Abbott	15 00
A. L. Ripley	9 25
Harvard-Andover Club (prizes)	25 00
A. M. Grant (carpet)	$ 67 50
H. S. Robinson (prizes)	30 00
G. W. W. Dove (prizes)	45 00
W. S. Wadsworth (prize)	10 00
Annual Premium (life policy of R. H. M.)	10 02
Oil Painting of Prof. J. W. Churchill (gift of Draper and Means Speakers)	
Gifts for tinting Academy Hall	
Clarence B. Moore, Archaeological Books	
G. B. Knapp, books	
Duke of Loubat, Mexican manuscript	
Azel Ames "The Mayflower and Her Log"	
Papers for the Reading Room from the Evening Transcript Company and others.	

The prosperity of the school has increased the demands made upon it and constitutes an appeal for larger endowments. All gifts and bequests should be made to the "Trustees of Phillips Academy," the legal name of the corporation.

THE ACADEMY

The administrative policy of the school assumes on the part of its students a definite educational purpose and the school traditions stand for moral responsibility, hearty coöperation, and worthy achievement.

The Academy is not a suitable school for boys who are idle, insubordinate, or lacking in self-control; or for such as require the supervision of a teacher and the routine of a school-room in order to enforce industry and fidelity. Students who are found to be unable or unwilling to meet the school requirements, and those whose influence is injurious, must be withdrawn from the school. As maturity is not always to be measured by years, the school makes no specific requirements as to the age of the candidate. It has been found that boys of fourteen are usually able to meet the responsibilities of the academic life.

REQUIREMENTS FOR ADMISSION

Testimonial Candidates for admission to the Academy are required to present testimonials of good moral character and certificates of standing in the schools most recently attended. These certificates are required not later than the date of the entrance examinations and should be forwarded earlier if possible to the principal of the Academy.

Certificates of scholarship-standing in other schools are not accepted for admission to the several classes of the Academy, but records of proficiency and courses of study completed are of service to the school officers. Such certificates furnish valuable collateral evidence of the candidate's attainments and needs but do not take the place of the regular entrance examinations.

Entrance Examinations. Senior Class Harvard and Yale preliminary certificates, and other college certificates of equivalent value, are accepted for admission to the Academy in place of the school entrance examinations. Candidates for the Senior class who expect to receive the diploma of the school at the end of one year's study should present certificates of the following value:

HARVARD, 18 POINTS.

Including Elementary Greek, Latin, French or German, English, Algebra, Plane Geometry, or their equivalents.

YALE (COLLEGE), 14 SUBJECTS.

Including Latin Grammar. Caesar and Nepos, Cicero or Vergil, Latin Composition, Greek Grammar, Xenophon, Greek at Sight, Greek Composition, Algebra *a* and *b*, Geometry *a* and *b*, French or German, English *a*, or their equivalents.

YALE (SHEFFIELD SCIENTIFIC SCHOOL), 10 SUBJECTS.

Including English Grammar, English Literature *a*, English History, Latin Grammar and Exercises, Caesar, French or German, Algebra *a* and *b*, Plane Geometry, Botany, or their equivalents.

Certificates in fewer subjects, according to their value, may secure provisional admission to the Senior class, but such standing necessitates courses of study with the lower classes and either adds hours to the student's schedule, or lengthens the time required for his preparation.

Candidates for admission to the Senior classes should indicate in their preliminary correspondence the subjects credited to them in their college examinations. In completing the preparation for college, subjects pursued with any class in the Academy count as equivalents for Senior courses already accepted by the college. The course of study given in the summary on page 21 shows in part the range of selection open to those who have secured certificates of superior value.

Entrance Examinations. Classes below Senior

Candidates for admission to the Junior. Junior Middle and Middle Classes are examined as follows: *On Friday, June 20, 1902*, at 9 o'clock, A.M., in Andover, at the Academy building, and on Friday, June, 27, 1902, at the same hour in New York City, at the rooms of the Young Men's Christian Association, on 23rd Street.

Examinations will be held in other of the large cities, if the number of candidates in any vicinity is sufficient.

On *Wednesday, September 17, 1902*, at 9.00 A. M., in Andover only, according to a schedule of rooms and hours announced at that time.

On *Thursday, January 1.* and on *Thursday, April 16, 1903*, the first days of the second and third terms. These examinations provide for such candidates as are prepared to join the school classes.

For examinations held in Andover on these regular dates no fees are charged. For examinations held in New York City, or elsewhere outside of Andover, and for special entrance examinations held at other times than those here given, there is a fee of $5.00.

Candidates intending to present themselves at these examinations should give seasonable notice to the Registrar of the Academy.

The subjects upon which entrance examinations will be given in June and September, 1902, are as follows:

FOR ADMISSION TO THE
CLASSICAL DEPARTMENT

Junior Class:

Arithmetic, English Grammar, Reading and Spelling, Geography; these subjects as ordinarily taught in grammar schools.

Junior Middle Class:

Arithmetic, complete, Algebra, to Quadratics, English Grammar, Latin Grammar and Exercises, Caesar, Gallic War, Books II and III.

Middle Class:

Arithmetic, Algebra, through Progressions, English Composition, Latin Grammar and Exercises, Caesar, Gallic War, four books, Nepos, ten lives, Greek Grammar and Exercises, French or German, Exercises and Translation, covering a full year's work of four hours per week, Plane Geometry.

FOR ADMISSION TO THE
SCIENTIFIC DEPARTMENT

Junior Class:

Arithmetic, English Grammar, Reading and Spelling, Geography; these subjects as ordinarily taught in grammar schools.

Junior Middle Class:

Arithmetic, Algebra, to Quadratics, English Grammar, Latin Grammar and Exercises, Translation of simple selections from the Latin.

Middle Class:

Arithmetic, Algebra, through Binomial Theorem with positive integral exponents, English Composition, Plane Geometry to Areas, Latin Grammar and Exercises, Caesar, Gallic War, four books, French or German, Exercises and Translation, covering a full year's work of four hours per week.

APPOINTMENTS

Registration The school year begins in September, and while new students may be admitted later, by special examination, it is most advisable that they present themselves promptly at the beginning of the Fall Term. The student registers on the first day of each term as announced in the Calendar, reporting first at the Treasurer's office, to make payment for the dues of the term. and. secondly. to his class officer, who will arrange his schedule of work for the term.

Classification Each successful candidate is enrolled in one of the regular classes and is required to pursue the prescribed work of that class. Deficiences in preparation. and occasionally other considerations, sometimes make it necessary for the student to do some work in other classes than his own: but such arrangements should be considered as temporary and exceptional.

The Academy makes no provision for partial students: nor for special students who are not candidates for graduation from the Academy. or for entrance to college, scientific school, or professional school.

When a student, through failure to maintain his regular classification. loses from his schedule eight or more recitation hours per week, he is registered with a lower class.

Examinations and Promotions Written examinations are held in each study at least once a term: but in most courses the term grading is made largely on the basis of daily work. Near the close of the year reviews are held, with special examinations to determine the student's fitness for promotion or graduation. By way of preparation for college tests these examinations are conducted with strict formality. In all the written exercises of the school year the absolute integrity of the student is assumed. and the student may not retain his connection with the school, who fails to comply with this essential requirement. In addition to completing the class-room courses, each class is required to pass a satisfactory examination upon a supplementary course of reading. At the close of each term. and at other times when occasion requires. reports of the student's scholarship and attitude toward his work are sent to his parents or guardian.

Class Officers Each student is by his classification assigned to the special care of one of the eight members of the Faculty who are known as Class Officers. This officer arranges the studies of each member of the class of which he is in charge, keeps particular record of the student's standing and progress, advises him in the choice of his elective studies and conducts correspondence with parents relating to the boy's school life and welfare.

Daily Appointments

Morning Chapel, 7.50 A. M.
Recitation and Study Hours, 8 to 12 A. M., 2 to 4 P. M.
Evening Study Hours begin at 8 P. M.
Sunday Chapel Services, 10.30 A. M., and 4.30 P. M.
Half holidays, Wednesday and Saturday afternoons.
Anniversary Holidays, 8 A. M. to 7.30 P. M.

Study Hours During the Recitation and Study Hours, when not engaged in the class-room, students are expected to occupy themselves with their studies or other school work.

Absences All absences from recitation, morning chapel, Sunday service, or from the student's room during study hours, are to be accounted for; and excuses should be secured in advance, whenever the necessity for such absence can be foreseen.

Holiday Excuses All out-of-town excuses must be obtained from the Registrar. Such excuses are granted somewhat freely on half-holidays and on the special holidays to those whose school standing is good. The student who goes out of town without permission forfeits his connection with the school.

Religious Exercises Students are required to be present at morning chapel. After the devotional exercises opportunity is given for special announcements, brief school meetings, or other business preliminary to the work of the day. Sunday services for the students are held in the Chapel, which is used in common by the Theological Seminary and the Academy. Members of the Protestant Episcopal, Baptist, or Roman Catholic congregations may be excused to attend the local churches. The Society of Inquiry holds voluntary devotional meetings on Wednesday and Sunday evenings.

EXPENSES

Parents can estimate approximately the necessary expenses of their sons at the school; and it is particularly requested that they do not furnish money beyond what is necessary for ordinary expenses. Pupils who are supplied with much spending money, or who are allowed to make debts, usually accomplish but little in their studies, and are liable to form habits which require their removal from school.

Term Bills The term-bills for tuition are as follows: for the Fall Term, $60.00; for the Winter Term, $50.00; for the Spring Term, $40.00. There is a graduation fee of $7.00. Students in Chemistry, Physics, and Botany are charged for the supplies which they use. The term-bills are paid in person by the students, or are mailed to the parent or guardian upon request. They are payable at the commencement of the term. Checks should be drawn in favor of the Trustees of Phillips Academy.

BOARD AND LODGINGS

I. Private Houses About forty private houses in the vicinity of the Academy, under license from the Trustees, provide board and lodgings for students, and no student may occupy a house not thus sanctioned by the School. Some of the houses provide furnished rooms only; others provide rooms and board, and some of the latter furnish board for students rooming in neighboring houses. The price of table board in Commons is $3.00, and in private families from $4.00 to $7.00 per week. The price of furnished rooms, including ordinary service, is from $3.00 to $6.00 per week and upwards.

Engagements for rooms in private families continue to the end of the Academic year. Care should, therefore, be exercised in the selection of rooms. Engagements for table board may, on suitable notice, be terminated at the close of any term.

II. Cottages By the gifts of Mr. Melville C. Day, class of 1858, Mr. Warren F. Draper, class of 1843, and of many citizens of Andover, aided by a few friends outside of Andover, five brick dormitories have been built, called respectively, the Taylor, the Andover, the Draper, the Eaton, and the Bancroft. Careful attention has been given to the warming, ventilation, water supply, bath and toilet arrangements, and the drainage. Each building contains apartments for a resident teacher. The Taylor and the Draper contain five double suites for students; the Andover has five double suites and three single rooms; the Eaton has four double suites, two single suites, and one single room; the Bancroft contains eighteen double suites. Each suite has separate bedrooms, an open fireplace, closet room, and some have storage lockers in the attic. Table board for students in these dormitories may be secured in Commons at $3.00, or in private families at $4.00, $5.00, $6.00, and $7.00 per week. Students in the Draper are regarded as rooming in Commons.

These accommodations for five teachers and eighty pupils are a partial realization of a plan to replace, as fast as funds are provided for the purpose, the present Latin and English Commons with modern buildings, as favorable as possible to the best student life. The income derived from these fees is applied first to maintenance, second to certain life annuities attached to the deeds of gifts, and third to the aid of deserving students who need pecuniary aid.

No furniture is supplied by the school. The fees include the charge for heat and for the care of the rooms.

PRICE OF ROOMS FOR 1901–1902

For a double suite in the Taylor, the Andover, The Eaton, or the Bancroft, each student,	$100.00
For a double suite in the Draper, not including service, each student,	$40.00
For a single suite in the Bancroft,	$125.00
For a single room in the Andover or the Eaton,	$50.00

III. Commons

There are thirty rooms in Commons for pupils, and two for teachers. Each room is designed for two persons and has two single bedrooms connected with it. The price of rooms is $5.00 per term for each student. The accomodations provided in Commons are very plain, and intended expressly for those who wish to make their expenses small. The rooms are supplied with tables and bedsteads for single beds. Plans of the rooms and other information may be had by addressing the registrar.

Persons who use tobacco, occasionally or habitually, are not allowed to occupy rooms in Cottages or Commons.

Persons who room in Commons are not permitted to board themselves, to pay more than $4.00 per week for table board, or to board outside the school precincts. Students rooming, without board, in private houses, may board in Commons if there are vacant places. The price of table board by the term is at present $3.00 per week, payable monthly in advance. The rate for the short vacations, and for small fractions of a term, is $4.00 a week. The house opens September 15, 1902.

ENDOWMENT AND SCHOLARSHIPS

Beneficiary Aid

The *Farrar Fund*, a legacy from the late Treasurer, Samuel Farrar, Esq., amounts, with additions from income, to Twenty-two Thousand Dollars.

The *Students' Educational Fund* begun with a gift of $100 from the Senior Class of 1854, and enlarged by their efforts to $1,800, now amounts to $5,700. The Trustees desire to increase this fund to at least $25,000, in order to meet the opportunity for assisting worthy young men, ambitious to secure a liberal education.

Scholarships

The following scholarships have been established:

The *Clarke Scholarship* of $1200, established in 1870 in memory of Mrs. John Aiken Clarke.

The *Jonathan Taylor Scholarship* of $1000, established in 1878 by the late Edward Taylor, in memory of his father.

The *Peter Smith Byers Scholarship* of $500, established in 1778 by the late John Byers.

The *French Scholarship* of $1000, established in 1879 by the bequest of Hiram W. French.

The *Class of 1878 Scholarship* of $500, established by the Classical Class of 1878.

The *Caroline Parker Taylor Scholarship* of $1000, established in 1880 by Mrs. Alpheus Hardy.

The *Gerard Sumner Wiggin Scholarship* of $1000, established in 1881 by the bequest of Lady Elizabeth Sumner Buckley-Mathew Fleming.

The *Richards Scholarship* of $1000, established in 1889 by the late Mrs. Mary A. Richards, in memory of her sons, deceased.

The *Charles L. Flint Scholarship Fund* of $5000, established in 1890 by the bequest of Hon. Charles L. Flint.

The *Emma Lane Smyth Scholarship* of $1000, established in 1890 by the late Ex-Gov. Frederick Smyth.

The *James and Persis Taylor Scholarship* of $1000, established in 1890 by the late Mrs. Mary E. Fairbanks.

The *Henry P. Haven Scholarship* of $1000, established in 1890 by the estate of Henry P. Haven.

The *Dowe Scholarship Fund* of $3000, established in 1892 by the bequest of John Dowe.

The *John Cornell Scholarship Fund* of $5000, established in 1894 by the bequest of John Cornell.

The *James Calvin Taylor Scholarship* of $1000, founded in 1895 by his sister, the late Mrs. Mary E. Fairbanks.

Scholarship Aid

The income from these scholarships and other endowment funds, available for a limited number of students is awarded to such as are in need of financial assistance and maintain a high grade of scholarship. The amount of aid most frequently awarded a student is the same as the tuition fee, which is thus remitted. This abatement is possible only after a student has been connected with the school for at least one term, during which time an opportunity is afforded the instructors and the school officers for determining the candidate's scholarship grade. Ordinarily, forty scholarships are awarded. Independently of the abatement of tuition charges, the school is able to award a limited number of small scholarships for excellence in special departments of school work.

Since the endowment funds of the Academy are insufficient to meet the demands of even the most worthy applicants, discrimination in favor of superior achievement is always made and satisfactory exidence must be furnished the Principal that the financial aid is necessary.

Candidates for admission to the Academy, dependent upon their own resources and in need of scholarship aid, should by careful preliminary correspondence indicate their sources of income, or their plans for self-maintenance.

Endowment

In addition to the early endowments by Hon. Samuel Phillips, Dr. John Phillips, Hon. Wm. Phillips, Lieut.-Gov. Samuel Phillips, His Honor William Phillips, and others, and the Scholarships, Prizes, and Charity-funds mentioned elsewhere, gifts for buildings and for various purposes amounting to $276,000 have been more recently received (1878–1901), and endowments have been made as follows: George Peabody Foundation for Natural Sciences (1866), $25,000; Samuel H. Taylor Fund (1871), $3,700; John C. Phillips Foundation of the Latin Department (1878), $25,000; Peter Smith Byers Foundation for the Principalship (1879), $40,000; Alden Educational Fund (1881), $5,000; Stone Educational Fund (1884), $25.000; W. F. Draper Fund (1887), $2,500; James S. Eaton Fund (1895), $500.

Libraries

The "Samuel H. Taylor Memorial Library" contains about 2,500 books, including the valuable classical library of the late principal, Dr. Taylor, which was presented to the school (1876) by his sister, Mrs. Horace Fairbanks of St. Johnsbury, Vt. The "Associate Library" belongs jointly to the Philomathean Society and the Society of Inquiry, and contains 800 volumes. There are also special libraries in English, Classics, History, and Natural Science. The library of the Theological Seminary, and the Memorial Hall Public Library, aggregating 60,000 volumes, are accessible for consultation daily.

Borden Gymnasium

The Academy has a large and well appointed gymnasium completely equipped with the most modern apparatus. The department of physical culture is under the charge of a competent instructor who gives careful attention to the welfare of each student.

School Organizations Among the School Organizations, maintained by the students, are the following: Religious, the Society of Inquiry; Debating, the Philomathean Society, Forum; School Papers, the Phillipian (semi-weekly), the Mirror, (monthly), the Pot-Pourri (annual); Musical, the Glee Club, Banjo Club, Mandolin Club; The Athletic Union, comprising the Base Ball, Foot Ball, Athletic, and Tennis Associations; also the Camera Club, Chess Club, Dramatic Club, Gun Club, Golf Club, Skating Association, etc.

Location, etc. Andover is a town of six thousand inhabitants, situated on the Western Division of the Boston and Maine Railroad, twenty miles north of Boston. It is the seat of the Andover Theological Seminary, Professor Charles Orrin Day, President of the Faculty; and of the Abbot Academy for young ladies, Miss Emily A. Means, Principal. For convenience the following additional addresses are given: John Tyler Kimball, Cashier of the Andover National Bank; Edward L. Perley, Station Agent, Boston and Maine Railroad; E. P. Hitchcock, manager of the Mansion House, the local hotel connected with the institutions; Warren F. Draper, the "Andover Publications;" George A. Higgins & Co., the Andover Bookstore; John N. Cole, *The Townsman* and the Andover Press.

Class A

American Archaeology A	2

* If alternate or equivalent subjects have been passed in college examinations.

Note.—Seniors arrange their schedules on the basis of the college certificates which they hold. Those studies are selected which best complete the student's preparation for his college or scientific school. The completion of the course, which secures the diploma of the Academy, requires a clear admission to the Senior Year and a schedule of eighteen hours per week of subjects such as ensure full admission to Harvard or Yale Universities.

CLASSICAL DEPARTMENT

The course of study is designed to furnish adequate preparation for any college. It is decidedly advantageous for students to take the entire course in the Academy as the languages are taught with a view to the student's progressive development. An especially selected library affords opportunity for students to acquire the habit of supplementary reading.

Harvard or Yale preliminary certificates, at the discretion of the Faculty, are accepted as equivalents for courses passed. Candidates for the Senior Class from other schools must present college preliminary certificates. Middlers in this school are required to take a college preliminary examination.

A variety of optional and extra studies is offered, especially in the Senior year, to meet the wants of students who are fitting for definite college requirements, or are to enter advanced divisions at the colleges, and also to provide for ambitious students who may wish to broaden their preparation. Members of the Senior Class select such subjects as are needed to complete their preparation for college and for the remainder of their schedule may elect any subjects in the Course of Study, of either department, not already completed. The classes in Physics or Chemistry have excellent facilities for practical work in the laboratory.

CLASSICAL COURSE

CLASS IV

JUNIOR

FIRST TERM:

Latin Lessons. 6 hours, strict class-room drill. Algebra, to fractions. 4 hours. Elementary Geometry. This course includes rule and compass practice and constant use of the Metric System. The construction and the measurement of simple geometrical figures are emphasized, rather than the theory of demonstration. 2 hours. Review of English Grammar. Composition. Irving's Sketch Book. 4 hours. Physiography. 2 hours.

SECOND TERM:

Latin Lessons, completed. Grammar. Easy reading. Exercises in writing Latin. 6 hours. Algebra, fractions and simple equations. 4 hours. Elementary Geometry. 2 hours. English Composition. Lockwood's lessons. American authors. 4 hours. Physiography 2 hours.

THIRD TERM:

Caesar, Gallic War, Books II, III. Composition (elementary work). 6 hours. Algebra, square root, theory of exponents and radicals. 4 hours. Elementary Geometry. 2 hours. English Composition. Study of words. Readings. 4 hours. Physiography. 2 hours.

CLASS III

JUNIOR MIDDLE

FIRST TERM:

Caesar, Gallic War, Books I and IV. Reading at sight. Composition (Jones, 10 lessons). 4 hours. White's First Greek Book. 4 hours. French or German. 4 hours. Algebra, affected quadratics and simultaneous quadratics. 1 hour. Plane Geometry. 3 hours. English Composition. Readings. 2 hours.

SECOND TERM:

Caesar, Gallic War, Book V. Nepos. Sight Reading. Composition (Jones, through lesson 25). 4 hours. White's First Greek Book. 4 hours. French or German. 4 hours. Algebra. theory of quadratic equations, ratio and proportion. 1 hour. Plane Geometry. 3 hours. English Composition. Shakespeare. 2 hours.

THIRD TERM:

Nepos. Sight Reading. Composition (Jones, completed). Written Translations. 4 hours. White's First Greek Book. Translation of easy prose. 4 hours. French or German. 4 hours. Algebra, the progressions and binomial theorem. 1 hour. Plane Geometry. 3 hours. English Composition. Shakespeare. 2 hours.

CLASS II

Middle

FIRST TERM:

Cicero, Catiline Orations. Reading at sight. Composition based on the text read. 5 hours. Xenophon, Anabasis, Book I. Composition. 5 hours. French or German. 2 hours. Algebra, reviewed. 2 hours. Plane Geometry. 1 hour. Readings in English Poetry. Themes. 3 hours.

SECOND TERM:

Cicero, Manilian Law, Archias, Marcellus. Written Translations. Composition, connected narrative. Harvard Candidates pursue the courses prescribed by the Harvard catalogue. 5 hours. Xenophon, Anabasis, Books II, III. Composition. 5 hours. French or German; prose selections. Algebra. 2 hours. Plane Geometry. 1 hour. Readings in English Prose Narrative. Themes. 3 hours.

THIRD TERM:

Cicero, Milo. Caesar, Gallic War, selections from Book VII. Nepos, selections at sight. Composition. (Harvard Candidates) Ovid and Vergil. 5 hours. Xenophon, Anabasis, Book IV. Hellenica, selections. Composition. Reviews. 5 hours. French or German, prose selections. 2 hours. Algebra. 2 hours. Plane Geometry. 1 hour. English Readings: the Essay. Themes. 3 hours.

Note.—An opportunity is given by an increasing number of colleges to pass a preliminary examination in a part of the subjects required for admission. June examinations, both preliminary and final, are held in Andover, by Harvard, Yale and Princeton Colleges.

In order to define the work of the pupil in his last year, it is required that he pass one of these preliminary examinations.

CLASS I

SENIOR

A schedule of not less than eighteen (18) hours per week, selected from the following subjects, according to college requirements. The courses are continuous throughout the school year.

LATIN I.—Vergil, Æneid. Books I–IV, VIII, IX. Prosody. Cicero. Copious reading at sight. Roman Antiquities. Harvard candidates pursue the courses prescribed by the Harvard catalogue. 4 hours.

LATIN COMPOSITION I.—Advanced course. 1 hour.

LATIN I.—Horace. 1 hour.

GREEK I.—Homer, Iliad and Odyssey, 5000 verses. Prosody. Selections from Attic prose writers. 4 hours.

GREEK COMPOSITION I.—Advanced course. 1 hour.

HISTORY I.—Greek and Roman History. 5 hours.

PHYSICS I.—Text, with laboratory work. 4 hours.

FRENCH A.—Advanced course, or FRENCH III. 4 hours.

GERMAN A.—Advanced course, or GERMAN III. 4 hours.

CHEMISTRY A, or CHEMISTRY C. 4 hours.

ENGLISH A.—Readings in College Requirements. Extempore Composition. 2 hours.

HISTORY A.—United States. 4 hours.

HISTORY B.—English. 4 hours.

ADVANCED ALGEBRA I.—Harvard requirements. 2 hours.

PLANE TRIGONOMETRY A.—4 hours for half the year.

SOLID GEOMETRY A.—4 hours for half the year.

MECHANICAL DRAWING A.—2 hours.

BOTANY A.—2 hours.

AMERICAN ARCHAEOLOGY A.—2 hours.

Any other courses, not previously pursued, in any class, of either department, of the school.

CLASSICAL COURSE—NOTES

GREEK

JUNIOR MIDDLE YEAR.—The first year is devoted mainly to memorizing the forms of the language and fixing a few important principles of syntax. The class is constantly drilled to reproduce paradigms accurately and rapidly, as well as to inflect new words. The importance of review work is emphasized at every recitation. Black-board work occupies much of the time; this work the class is called upon to criticise. By an equal share of oral work the ear is trained to detect inaccuracy in accent or pronunciation. A ready command of the vocabularies is required; to secure this, there is both oral and written work, and writing Greek words at dictation is practiced.

The hours are varied with frequent exercises in translation, English into Greek as well as Greek into English, and occasional talks about Greek life.

MIDDLE YEAR.—The second year is occupied with reading Xenophon's Anabasis, Books I–IV, sight reading, translation from English into Greek, and grammar reviews. Great effort is made to secure simple, idiomatic English in both oral and written work. A portion of the following day's lesson is often translated at sight, and towards the end of the year, other works, particularly Xenophon's Hellenica, are used with a special reference to sight reading.

Grammar and composition are studied through the year, the method being the same as during the first year; skill in writing Greek is made a chief object of this year's work.

SENIOR YEAR.—The third year is spent mainly in reading selected books of the Iliad and Odyssey. The work of the year is much broader in scope, however, than before. After the dialect is thoroughly mastered, more attention is given to the literary side of the poems; the art of translation is discussed; carefully prepared renderings in prose and metre are made by the class and read aloud. Much attention is paid to the translation of sight passages; in this there is almost daily practice, the object being to acquire ability to read large portions of Homer rapidly and with pleasure.

During the second and third terms some time is given to reading selections from Xenophon's Hellenica or Cyropaedia or Memorabilia.

LATIN

Junior Year.—The Latin work of the Junior year consists of strict, unremitting drill in the essentials of the grammar, with the view of securing accuracy and ease in the use of forms. Careful training is given in methods of study. The student is taught from the beginning to grasp the concepts as well as the English equivalents of Latin terms, and to notice the order of thought in sentences. There is daily practice in the writing of Latin.

Junior Middle Year.—In the Latin of the Junior Middle year exceptional stress is laid upon a study of the grammatical relation of words in sentences. Case constructions are accurately discriminated and explained; the ordinary uses of the subjunctive and the infinitive are interpreted; and the more common idioms of Caesar and Nepos are noticed.

Middle Year.—In the Middle year the course in Cicero aims towards the mastery of an extended vocabulary, an elementary knowledge of synonyms, an accurate discrimination of grammatical constructions, and facility in reading the Latin. Understanding of the subject-matter of the speeches is insisted upon and the student is encouraged to notice and to appreciate beauty of thought and expression. In rendering Latin into English carelessness in diction is not tolerated. Special efforts are made to render the student familiar with the chief characteristics of Cicero's oratory and with the history of his time.

The work in prose composition is devoted to connected narrative.

Senior Year.—In this year the Latin study broadens with the view to promoting a scholarly ease in the reading of the literature prescribed. Poetical constructions and peculiar uses of words are subjects of special study. Practice in reading the hexameter rhythmically forms an essential feature in the study of Vergil. No effort is spared to induce a thorough understanding of the work read, and an appreciation of the literary art involved. Linguistic study is directed towards a wider knowledge of word-formation, and of the principals of syntax. Examinations are set largely from passages not previously seen by the student.

The study of Roman life aims to give a general survey of the subject.

SCIENTIFIC DEPARTMENT

The object of this department. established in 1830, is to afford a substantial course of study, on the basis of Mathematics and the Natural Sciences. History, Latin. Modern Languages and Literature.

The Course of Study is designed to furnish thorough preparation for the Lawrence Scientific School of Harvard University, the Sheffield Scientific School of Yale University. the Massachusetts Institute of Technology, and other scientific schools and colleges of the higher grade.

For illustrating the principles of Physics and Chemistry the school is provided with excellent apparatus, and with laboratories for experimental work. An appropriation of $300 is made each year to procure the latest and best instruments.

The Archaeological Department, established in 1901, offers a course of instruction in American Archaeology, illustrated by a collection of forty thousand specimens.

The Academy is provided with a full set of instruments for courses in practical surveying. consisting of a solar transit, surveyor's compasses, levels, and other appliances.

The Science Building furnishes ample accommodations for the departments of Physics and Chemistry. The building contains, besides recitation rooms. a lecture room, a draughting room, a Physical and a Chemical Laboratory, thoroughly equipped for individual work.

Junior

FIRST TERM:

Algebra, to fractions. 4 hours. Elementary Geometry. 2 hours. Latin Lessons. 6 hours. Review of English Grammar. Composition. Irving's Sketch Book. 4 hours. Physiography. 2 hours.

SECOND TERM:

Algebra, fractions and simple equations. 4 hours. Elementary Geometry. 2 hours. Latin Lessons, continued. 6 hours. English Composition. Lockwood's Lessons. American Authors. 4 hours. Physiography. 2 hours.

THIRD TERM:

Algebra, square root, theory of exponents and radicals. 4 hours. Elementary Geometry. 2 hours. Latin Gradatim, selections. Exercises in writing Latin. 6 hours. English Composition. Study of words. Readings. 4 hours. Physiography. 2 hours.

CLASS C

JUNIOR MIDDLE

FIRST TERM:

Algebra. 2 hours. Plane Geometry, begun. 2 hours. French or German. 4 hours. Caesar, Gallic War, begun. 4 hours. Chemistry. 4 hours. English Readings. Composition and Rhetoric. 2 hours.

SECOND TERM:

Algebra. 2 hours. Plane Geometry, continued. 2 hours. French or German. 4 hours. Caesar, Gallic War, continued. 4 hours. Chemistry. 4 hours. Composition and Rhetoric. Shakespeare. 2 hours.

THIRD TERM:

Algebra, through binomial theorem with positive integral exponents. 2 hours. Plane Geometry, to areas. 2 hours. French or German. 4 hours. Caesar, Gallic War, continued. 4 hours. Chemistry. 4 hours. Study of English words. Readings. 2 hours.

NOTE.—At least four books of the Gallic War are read during the year.

CLASS B

MIDDLE

FIRST TERM:

Plane Geometry. 2 hours. Algebra, to the general theory of equations. 4 hours. Physics. 4 hours, or Cicero. 4 hours. French or German. 2 hours. English History. 4 hours. English Literature and Composition. 2 hours.

SECOND TERM:

Plane Geometry, completed. 2 hours. Advanced Algebra, of the Sheffield requirements. 4 hours. Physics. 4 hours, or Cicero. 4 hours. French or German, 2 hours. English History. 4 hours. College requirements in English. Composition. 2 hours.

THIRD TERM:

Plane Geometry, reviewed. 2 hours. Algebra reviewed. 4 hours. Physics. 4 hours, or Cicero. 4 hours. French or German. 2 hours. English History. 4 hours. College Requirements in English. Composition. 2 hours.

CLASS A

SENIOR

A schedule of not less than eighteen (18) hours per week, selected from the following subjects, according to college requirements. The courses are continuous, throughout the school year:

PLANE TRIGONOMETRY A.—4 hours for half the year.
SOLID GEOMETRY A.—4 hours for half the year.
ADVANCED ALGEBRA I.—Harvard requirements. 2 hours.
PHYSICS I.—4 hours.
CHEMISTRY A.—Advanced course. 4 hours.
BOTANY A.—2 hours.
AMERICAN ARCHAEOLOGY A.—2 hours.
LATIN A.—Composition and selected readings. 2 hours.
ADVANCED FRENCH A.—4 hours.
ADVANCED GERMAN A.—4 hours.
MECHANICAL DRAWING A.—2 hours.
ENGLISH A.—College Requirements. Themes. 2 hours.
HISTORY A.—United States. 4 hours.
* HISTORY B.—English. 4 hours.

Any other courses, not previously pursued, in any class, in either department, of the school.

* Course counts as Senior work only as substitute for Senior courses already accepted on college examinations.

SUPPLEMENTARY READING

Examinations will be held, at the middle and near the close of each term, upon the following books :

Classes IV and D.

First Term.— Cooper's Deerslayer; Dickens's Cricket on the Hearth.

Second Term.—Hughes's Tom Brown at Rugby; Stevenson's Kidnapped.

Third Term.—Dickens's Nicholas Nickleby.

Classes III and C.

First Term.—Scott's Talisman ; Stevenson's New Arabian Nights.

Second Term.—Dickens's David Copperfield.

Third Term.—Irving's Alhambra.

Classes II and B.

First Term.—Dickens's Tale of Two Cities; Longfellow's Tales of a Wayside Inn.

Second Term.—Blackmore's Lorna Doone; Mrs. Jackson's Ramona.

Third Term.—Mitchell's Hugh Wynne.

Classes I and A.

First Term.—Thackeray's Henry Esmond; Barrie's A Window in Thrums.

Second Term.—Hawthorne's Scarlet Letter; Tennyson's Idylls of the King.

Third Term.—Mrs. Gaskell's Cranford.

PRIZES

The following prizes are offered annually for proficiency in the work of several of the departments:

IN MATHEMATICS

The Convers Mathematical Prizes, founded in 1897, by E. B. Convers, Esq., class of 1857, of Englewood, N. J. Three prizes of twenty dollars, fifteen dollars and ten dollars, are awarded for excellence in the mathematics of the Classical Department, to be determined by an examination in May of the Middle year. The Committee of Award for the fourth competition, May, 1901, were Edward S. Riley, B. S., and Ernest C. Jewell, B. A., both of the Lawrence High School, Lawrence.

IN ENGLISH

The Draper Prizes for *Selected Declamations*, founded in 1866 by Mr. W. F. Draper, of the class of 1843, of Andover. The first prize is of twenty dollars, the second of twelve dollars, the third of eight dollars. The competition is open to students in either department. A preliminary trial before a committee is held early in May, the final competitors being chosen on the basis of the ten best rendered selections. The thirty-fifth competition occurred June 25, 1901. The Committee of Award were Right Rev. Samuel Fallows, D. D., Chicago, Ill., Rev. Nehemiah Boynton, D. D., Detroit, Mich., and William Tenney Brewster, M. A., Columbia University, N. Y.

The Means Prizes for *Original Declamations*, founded in 1867, by the late Wm. G. Means, of Boston. The first prize is of twenty dollars the second of twelve dollars, the third of eight dollars. Students in either department may compete. Compositions must be submitted before March 1st. Ten are selected for the final competition, by the same judges who act as committee of award, the prizes being given on the merits of both composition and delivery. The thirty-fourth competition was held May 14, 1901, the Committee of Award being Supt. A. K. Whitcomb, Cyrus W. Irish, Master of the High School, and Albert L. Bacheller, Master of the Green Grammar School, all of Lowell.

The subjects for the thirty-sixth competition, March 1, 1903, are :

1. Milton's Genius as an Expression of Puritanism.
2. Portraits of Washington in Recent Fiction.
3. Is the Disfranchisement of the Negro Advisable?

4. The Mystery and Significance of the Life of Animals.
5. Modern Advertising.
6. A Walk by the Sea.
8. Walter Raleigh as a Man of His Times.
8. The Higher Uses of Athletics in School Life.
9. Recent Advances in Electrical Science.
10. Reciprocity in Trade.

The Harvard-Andover Prizes, sustained since 1889 by the Harvard-Andover Club. Two prizes are offered, one of fifteen dollars and one of ten dollars, for excellence in Elementary Rhetoric and English Composition. The Competition is open to members of the Senior and Middle classes of both departments. The Committee of award for the thirteenth competition, held in June, 1901, was William Tenney Brewster, M. A., Instructor in English, Columbia University, N. Y.

The Robinson Prizes for *Debate*, sustained since 1896, by Mr. H. S. Robinson, of Andover, are open to members of the two debating societies, Philo and Forum. A prize of thirty dollars is awarded to the representatives of the society presenting the best arguments, irrespective of the merits of the question. Each society selects three men to represent their society. The sixth competition occurred May 3, 1901. The Committee of Award were Rev. Arthur T. Belknap, Mr. Edward Brooks, Dr. H. B. Gray, all of Andover.

IN THE CLASSICS

The Valpey Classical Prizes, founded in 1893, by the late Rev. Thomas G. Valpey, of the class of 1854. Two prizes of ten dollars each, are awarded; one for excellence in Latin composition; one for excellence in Greek Competition. The competition is open to members of the Middle Class. The sixth competition occurred in June, 1901. Committee of Award were Walter L. Bartlett, B. A., of Newburyport for the Greek, and Hamilton G. Merrill, B. A., of the Academy, for the Latin.

IN GREEK

The Joseph Cook Greek Prizes, founded in 1879 by Dr. Joseph Cook, class of 1857, of Ticonderoga, N. Y. The prizes are fifteen, ten and five dollars respectively. The special topics included in the twenty-fourth competition, May, 1903, will be translations at sight:—

1. From Homer.
2. From Attic Greek prose.
3. From English into Greek.

The Committee of Award for the twenty-second competition, May, 1901, were Francis Greenleaf Allison, Ph. D., and George Albert Goulding, A. M., both of Brown University, Providence, R. I.

IN LATIN

The Dove Latin Prizes, founded in 1880 by Mr. George W. W. Dove, class of 1853, of Andover. The prizes of twenty, fifteen and ten dollars, are awarded for excellence in Latin and are open to Seniors in the Classical Department.

The Committee of Award for the seventeenth competition, May, 1901, were Prof. Chas. H. Forbes, B. A., and B. M. Allen, B. A., of Phillips Academy.

The Crane Prizes for Excellence in Vergil, the gift of the late Rev. Oliver Crane, D. D., LL.D., are copies of his translation of Vergil. Open to Seniors and Middlers. Prizes awarded by Prof. C. H. Forbes of the Academy.

IN PHYSICS

The Wadsworth Prize, sustained since 1900 by William S. Wadsworth, M. D., of the class of 1887, is a prize of ten dollars, offered to that member of the Scientific Department who shall obtain the highest rank in Physics for the year. The second competition occurred in June, 1901. The Committee of Award was Prof. William B. Graves, M. A., Andover.

IN ENTRANCE EXAMINATIONS

The Yale–Andover Prizes, sustained by the Yale–Andover Club. One first prize of twenty-five dollars and one second prize of fifteen dollars to those members of the Senior Academic class who have passed with highest average a minimum of ten subjects in the June entrance examinations for Yale College. Likewise one first prize of twenty-five dollars and one second prize of fifteen dollars to those members of the Senior Scientific class who have passed with highest average a minimum of eight subjects in the June entrance examinations for the Sheffield Scientific School.

PRIZES AWARDED, 1900–1901

The Convers Prizes	(1) Harold Bruff, *Brooklyn, N. Y.* (2) Frederick Huntington Day, *Indianapolis, Ind.* (3) Frank O'Brien, *Plattsburg, N. Y.*
The Draper Prizes	(1) Arthur James Derbyshire, *Lawrence* (2) Frederick Sewall Bale, *Asbury Park, N. J.* (3) Sidney Rogers Cook, *South Weymouth*
The Means Prizes	(1) Charles Tripp Ryder, *Andover* (2) Edward Elmer Beals, *Lawrence* (3) Richard Park, *Plymouth, N. H.*
The English Prizes	(1) Claude Carlos Washburn, *Duluth, Minn.* (2) Harold Simpson Deming, *South Woodstock, Conn.* *Honorable Mention* Edward Elmer Beals, *Lawrence* Edward Ford Howard, *Montclair, N. J.*
The Robinson Prizes	(1) Herbert Alexander Welch, *Lake Placid, N. Y.* (2) Charles Tripp Ryder, *Andover*
The Valpey Prizes	*Greek* Frederick Sewall Bale, *Asbury Park, N. J.* *Latin* Edward Washburn Kellogg, *Vineland, N. J.*
The Cook Prizes	(1) Herbert Alexander Welch, *Lake Placid, N. Y.* (2) Horace Whiton Paine, *Andover* (3) Michael Joseph Mann, *Lawrence* *Honorable Mention* Frederick Chase, *Hanover, N. H.* Harold Simpson Deming, *South Woodstock, Conn.* Harold Bruff, *Brooklyn, N. Y.*
The Crane Prizes	(1) Harold Simpson Deming, *South Woodstock, Conn.* (2) Harold Albert Fisher, *Chicago, Ill.*
The Dove Prizes	(1) Harold Simpson Deming, *South Woodstock, Conn.* (2) Frederick Chase, *Hanover, N. H.* (3) Harold Albert Fisher, *Chicago, Ill.*
The Wadsworth Prize	James Evans Barlow, *Lawrence*

CLASS OF 1901

The following members of the class of 1901, unless otherwise stated, have entered College as indicated : —

HARVARD — Julius Norman Braastad (1902), Alden Brooks, Louis Max Cohen, Harold Simpson Deming, Henry Mathew Dick, Walter Cranston Larned, jr., Michael Joseph Mann, William Clarence Matthews, Ralph Winslow Merrill (1900), Albert Hanford Moore, William Anthony Schick, jr., Claude Carlos Washburn, Laurence Haines Whitney.

HARVARD (Lawrence Scientific School) — Stuart Corlies Adams, Danforth Horton Hathaway, Clement Ross Meier.

HARVARD (Special) — Christopher White Chace (1902), Walter Alexander Rembert Hall (1904), Rossiter Howard (1898), Frederick Johnston Sullivan.

YALE — Gilbert Browning, Harold Bruff, Paul Morgan Butterfield, Charles Jarvis Chapman, George Nathaniel Holmes Clement, Albert Merrill Coit, Sidney Rogers Cook (1902), Francis Quinn Cronin, Lawrence Thomas Darr, Frederick Huntington Day, Chester Rhoades De La Vergne, Richard Monroe Fairbanks, Charles Samuel Fallows, Harold Albert Fisher, Guy Patterson Gannett (1902), Harry Alansin Gardner, jr., Otto Ludwig Hellmann, Louis White Johnston, Ethan Wood Judd, Elbert Squire Latimer, Calhoun Mason, Roland William Mersereau, Abel Bennett Palmerton (1902), Gardner Aspinwall Richardson, Edward Power Thaddeus Sharretts, Edward Elbridge Spalding, Russell Sullivan, Abel Cary Thomas (1902), William Bailey Wheeler, jr., Dwight Milton Wishard.

YALE (Sheffield Scientific School) — William Latham Abbott, jr., (1902), Frederick Stanwood Bailey, Lebbeus Farmer Bissell, Frederick William Charles (1902), George Arthur Childs (1902), Carl Coonley (1902), John DeWitt Bachman Cox (1902), Parker Hale Cunningham, Charles Schuveldt Dewey (1902), Albert Hovey Dickinson (1902), John Farson, jr., Edmund Francis Hackett, Reginald Holbrook Hardin (1902), Ralph Waldo Emerson Hasenwinkle, Harold Hodge (1902), Edward Ford Howard (1902), James Perin Kineon, William Edwin Merrill, John Ebsworth Owsley, Walter Valentine Peck, William Handy Reeves, 2nd, (1902), Henry Macdonald Sedley, Louis Burr Sheldon, Harold Townsend, Egbert Elliott Weeks, Frank Kingsbury Woodworth.

YALE LAW SCHOOL — Albert Chester Halpen (1902).

AMHERST — Daniel Wilcox Boynton, Arthur James Derbyshire, Walter Chandler Knapp, Josiah Bridges Woods.

COLUMBIA — Steward Slosson, Herbert Alexander Welch.

CORNELL — Stine Howard Ehrich (1902).

DARTMOUTH — James Stewart Alexander (1902), William H Ashley (1902), Frederick Chase, Daniel Nathan Gage.

DARTMOUTH (Medical School) — Walter Clyde Pulsifer (1902).

HAMILTON — Arthur John Schwab.

LEHIGH — Francis Henry Galvin (1902).

MASSACHUSETTS INSTITUTE OF TECHNOLOGY — James Evans Barlow, Arthur Peterson Gerry, Frank Emmons Guild (1902).

NEW YORK DENTAL — John Clark Stillman.

PRINCETON — Thomas James Burke, Ellery Anderson Man.

PRINCETON (Scientific Special) — Olin Sprague Bishop (1902).

WESLEYAN — Howard Leighton Winslow (1902).

WILLIAMS — Ralph Edward McMillin.

WILLIAMS (Special) — William Johnson Colby (1902).

SCHOLARSHIP HONORS, 1900–1901

HONORS OF THE FIRST GRADE

Nothing lower than B and at least A— in half the number of hours.

SENIORS —

J. E. Barlow	3 terms	M. J. Mann	2 terms
F. Chase	2 terms	A. J. Schwab	1 term
H. S. Deming	3 terms	H. Townsend	1 term
H. A. Fisher	3 terms	Claude C. Washburn	3 terms

MIDDLERS —

F. S. Bale	3 terms	E. N. Jenckes, jr.	2 terms
F. M. Carter, jr.	3 terms	E. W. Kellogg	1 term
A. H. Dickinson	3 terms	F. O'Brien	2 terms

George W. W. Dove, 1853	Andover
James H. Ropes, 1885	Cambridge
Fred W. Moore, 1889	Cambridge
Perley F. Gilbert, 1890	Andover

Meetings, with reception and dinner, are held in Boston every even year, 1904, 1906, etc., and at Andover each year, in connection with the graduation exercises. The date, for 1902, will be June 19.

It is desired that correspondence regarding membership and information concerning past members of the Academy be sent to the Secretary.

A copy of the Annual Catalogue will be sent regularly to all past students who may express a desire to receive it, and who furnish their addresses for the purpose. Address Phillips Academy, Andover, Mass.

Wednesday, September 14, 9.00 A. M.	Entrance examinations
Thursday, September 15, 7.50 A. M.	Recitations begin for the two lower classes
Friday, September 16, 7.50 A. M,	Recitations begin for the two upper classes

FOUNDERS

Hon. SAMUEL PHILLIPS. JOHN PHILLIPS, LL.D.

Constitution and Deeds of Trust signed,	April 21, 1778
Board of Trustees organized,	April 28, 1778
School opened for Instruction,	April 30, 1778
Act of Incorporation passed,	October 4, 1780
Theological Seminary opened,	September 28, 1808
Scientific Department opened,	September 27, 1830
Archaeological Department opened,	May 1, 1901

PRINCIPALS

ELIPHALET PEARSON, LL.D.	1778—1786
EBENEZER PEMBERTON, LL.D.	1786—1793
MARK NEWMAN, M.A.	1795—1810
JOHN ADAMS, LL.D.	1810—1833
OSGOOD JOHNSON, M.A.	1833—1837
SAMUEL H. TAYLOR, LL.D.	1837—1871
FREDERIC W. TILTON, M.A.	1871—1873
CECIL F. P. BANCROFT, LL.D.	1873—1901

TRUSTEES

PRESIDENT

ROBERT R. BISHOP, M.A., Elected 1881	NEWTON CENTRE

CLERK

JAMES HARDY ROPES, B.D., Elected 1898	CAMBRIDGE

TREASURER

JAMES C. SAWYER, B.A., Elected 1900	ANDOVER

THOMAS H. RUSSELL, M.A., Elected 1874	BOSTON
ALEXANDER McKENZIE, D.D., Elected 1876	CAMBRIDGE
WILLIAM H. WILLCOX, D.D., LL.D., Elected 1878	MALDEN
JAMES G. VOSE, D.D., Elected 1886	PROVIDENCE, R. I.
GEORGE BROWN KNAPP, M.A., Elected 1898	BOSTON
CLARENCE MORGAN, B.A., Elected 1900	NEW ROCHELLE, N. Y.
CHARES O. DAY, D.D., Elected 1901	ANDOVER
GEORGE HARRIS, D.D., Elected 1902	AMHERST
CLIFFORD H. MOORE, PH.D., Elected 1902	CAMBRIDGE
ALFRED L. RIPLEY, M.A.,, Elected 1902	ANDOVER

FACULTY

ALFRED E. STEARNS, M.A., B.D., Principal-Elect
18 Chapel Avenue
Elected 1897

MATTHEW S. McCURDY, M.A., 60 Bartlet Street
Instructor in Mathematics Elected 1873

WILLIAM B. GRAVES, M.A., 9 Salem Street
Teacher 1866–1869 Reëlected 1881
Professor of Natural Sciences on the George Peabody Foundation

GEORGE T. EATON, M.A., 73 Bartlet Street
Instructor in Mathematics Elected 1880

C. EMERSON STONE, Ph.B., 104 Main Street
Instructor in French Elected 1890

CHARLES H. FORBES, B.A., 25 South Main Street
Professor of Latin on the John C. Phillips Foundation Elected 1891

WALTER R. NEWTON, Ph.D., 169 Main Street
Instructor in German Elected 1892

ARCHIBALD FREEMAN, M.A., Eaton 8
Instructor in History Elected 1892

ALLEN R. BENNER, B.A., Andover 7
Professor of Greek Elected 1892

JAMES C. GRAHAM, B.S., Taylor 4
Instructor in Chemistry Elected 1892

BERNARD M. ALLEN, B.A., 56 Bartlet Street
Instructor in Latin Elected 1893

JOHN L. PHILLIPS, B.A.,	32 Phillips Street
Instructor in Latin	Elected 1894
FREDERICK E. NEWTON, PH.B.,	28 Salem Street
Instructor in Mathematics and Registrar	Elected 1895
EDWIN T. BREWSTER, M.A.,	20 Abbot Street
Instructor in Mathematics	Elected 1897
CHARLES PEABODY, PH.D ,	197 Brattle Street, Cambridge
Honorary Director of the Department of American Archaeology	Elected 1901
WARREN K. MOOREHEAD, M.A.,	118 Main Street
Instructor in Archaeology and Curator of the Museum of American Archaeology	Elected 1901
WALTER Y. DURAND, M.A.,	153 Main Street
Instructor in English	Elected 1901
JOHN E. LANSING, M.A.,	Bancroft 18
Instructor in Natural Sciences	Elected 1901
LESTER E. LYNDE, B.A.,	Bancroft 9
Instructor in Mathematics	Elected 1901
HORACE M. POYNTER, B.A.,	Bancroft 1
Instructor in Greek and Latin	Elected 1902
HOWARD V. BULLINGER, B.A.,	Draper 4
Instructor in Englih	Elected 1902
PEIRSON STERLING PAGE, M.D.,	221 Main Street
Physical Director	Elected 1902
CHARLES E. MILLS, B.A.,	Clement House
Instructor in French and Latin	Elected 1902

Instruction in Singing has been given by ROSSITER HOWARD.

PHILLIPS ACADEMY

The Phillips Academy was founded at Andover on the twenty-first of April, 1778, by the gifts of Hon. Samuel Phillips and his brother Hon. John Phillips, consisting of about 141 acres of land in Andover purchased for the purpose, and about 200 acres of land in Jaffrey, N. H., together with the sum of one thousand six hundred and fourteen pounds. The deed of gift which is known as "The Constitution of Phillips Academy" was drawn up, as appears from contemporary documents, largely under the influence of Samuel Phillips, jr., and Eliphalet Pearson, two young men whose friendship in school and college, and whose sympathy in the religious and patriotic movements of the times made them mutually helpful in the project of founding a new institution of learning, and, as it proved, a new type of institution. Dr. Pearson became the first principal, and Judge Phillips fostered the school with assiduous devotion till his death in 1802.

The main purpose and scope of the school are shown in the opening paragraphs of the constitution, as follows:

"A short reflection upon the grand design of the great Parent of the Universe in the creation of mankind, and the improvements of which the mind is capable both in knowledge and virtue, as well as upon the prevalence of ignorance and vice, disorder and wickedness, and upon the direct tendency and certain issue of such a course of things, must occasion, in a thoughful mind, an earnest solicitude to find the source of these evils and their remedy; and a small acquaintance with the qualities of young minds,—how susceptible and tenacious they are of impressions, evidences that youth is the important period. on the improvement or neglect of which depend the most important consequences to individuals themselves and the community.

A serious consideration of the premises, and an observation of the growing neglect of youth, have excited in us a painful anxiety for the event, and determined us to make, in the following Conveyance, a humble dedication to our Heavenly Benefactor of the ability, wherewith he has blessed us, to lay the foundation of a public free school or academy for the purpose of instructing Youth, not only in English and Latin, Grammar, Writing, Arithmetic, and those sciences, wherein they are commonly taught; but more especially to learn them the great end and real business of living.

Earnestly wishing that this Institution may grow and flourish; that the advantages of it may be extensive and lasting; that its usefulness may be so manifest, as to lead the way to other establishments on the same principles; and that it may finally prove an eminent means of advancing the Interest of the great Redeemer, to His patronage and blessing we humbly commit it."

The first trustees were Samuel Phillips of Andover, John Phillips of Exeter, William Phillips of Boston, Oliver Wendell of Boston, John Lowell of Boston, Rev. Josiah Stearns of Epping, Rev. Elias Smith of Middleton, Rev. William Symnes, Rev. Jonathan French, Samuel Phillips, jr., and Nehemiah Abbot of Andover,— men whose services and benefactions, at Andover and elsewhere, were to become memorable in the history of American education.

Provision having been made for the organization and succession of the trustees, the management of the property, the appointment of teachers and the admission of pupils, the constitution continues:

"It shall ever be considered as the first and principal duty of the Master to regulate the tempers, to enlarge the minds, and form the Morals of the youth committed to his care.

There shall be taught in this Seminary the English, Latin and Greek Languages, Writing, Arithmetic, Music and the Art of Speaking; also practical Geometry, Logic, and any other of the liberal Arts and Sciences, or Languages, as opportunity and ability may hereafter admit, and as the Trustees shall direct.

The Master is to give special attention to the health of the Scholars, and ever to urge the importance of a habit of industry. But, above all, it is expected, that the Master's attention to the disposition of the Minds and Morals of the Youth under his charge will exceed every other care; well considering that, though goodness without knowledge (as it respects others) is weak and feeble: yet knowledge without goodness is dangerous; and that both united form the noblest character, and lay the surest foundation of usefulness to mankind.

It is therefore required that he most attentively and vigorously guard against the earliest irregularities; that he frequently delineate, in their natural colours, the deformity and odiousness of vice, and the beauty and amiableness of virtue; that he spare no pains, to convince them of their numberless and indispensable obligations to abhor and avoid the former, and to love and practice the latter; of the several great duties they owe to God, their country, their parents, their neighbors and themselves; that he critically and constantly observe the variety of their natural tempers, and solicitously endeavor to bring them under such discipline, as may tend most effectually to promote their own satisfaction and the happiness of others: that he early inure them to contemplate the several connexions and various scenes, incident to human life; furnishing such general maxims of conduct, as may best enable them to pass through all with ease, reputation and comfort.

And, in order to prevent the smallest subversion of the true intent of this Foundation, it is again declared, that the *first* and *principal* object of this Institution is the promotion of true Piety and Virtue; the *second* instruction in the English, Latin and Greek languages, together with Writing, Arithmetic, Music, and the Art of Speaking; the *third*, practical Geometry, Logic, and Geography; and the *fourth*, such other of the liberal Arts and Sciences or Languages, as opportunity and ability may hereafter admit, and as the Trustees shall direct."

The school was opened for instruction April 30, 1778, with a group of thirteen pupils. On Oct. 4, 1780, it was incorporated in the last act of the "Great and General Court" previous to the organization of the new state government. The powers of the trustees have been enlarged by the legislature from time to time, notably in the acts conferring the power to hold additional funds, and in the act of June 19, 1807, whereby the Trustees were empowered to receive and hold real and personal estate for the purpose of a separate "Theological Institution." The Andover Theological Seminary, the first of the many theological schools, was accordingly established in the following year.

In 1830, the "Teachers' Seminary" was established as another distinct school, an anticipation of the normal schools, and to a less degree, of the Scientific schools which have since been planted elsewhere. In 1842, this Seminary was merged into the parent Academy and is the present Scientific Department.

In 1901, two generous friends of the Academy, whose names are withheld for the present in accordance with their request, established the Archaeological Department, providing for it an endowment for instruction, publication, research, and the care and increase of the collections; a building fund; and a large and valuable collection in American Archaeology.

By the generous gifts of numerous benefactors, in sums large and small, the original foundations have been much enlarged. The school has been "equally open to youth, of requisite qualifications, from every quarter." It has done a useful work in the education of boys who have not gone to college, and in its time has prepared boys for colleges and scientific schools in unprecedented numbers.

GIFTS

The prosperity of the school has increased the demands made upon it and constitutes an appeal for larger endowments. All gifts and bequests should be made to the Trustees of Phillips Academy, the legal name of the corporation.

Received during the year ending April 1, 1903:

THE ACADEMY

The administrative policy of the school assumes on the part of its students a definite educational purpose and the school traditions stand for moral responsibility, hearty coöperation, and worthy achievement.

The Academy is not a suitable school for boys who are idle, insubordinate, or lacking in self-control; or for such as require the supervision of a teacher and the routine of a school-room in order to enforce industry and fidelity. Students who are found to be unable or unwilling to meet the school requirements, and those whose influence is injurious, must be withdrawn from the school. As maturity is not always to be measured by years, the school makes no specific requirements as to the age of the candidate. It has been found that boys of fourteen are usually able to meet the responsibilities of life in the Academy.

REQUIREMENTS FOR ADMISSION

Testimonial Candidates for admission to the Academy are required to present testimonials of good moral character and certificates of standing in the schools most recently attended. These certificates are required not later than the date of the entrance examinations and should be forwarded earlier if possible to the Principal of the Academy.

Certificates of scholarship-standing in other schools are not accepted for admission to the several classes of the Academy, but records of proficiency and courses of study completed are of service to the school officers. Such certificates furnish valuable collateral evidence of the candidate's attainments and needs but do not take the place of the regular entrance examinations.

Entrance Examinations. Senior Class Harvard and Yale preliminary certificates, and other college certificates of equivalent value, are accepted for admission to the Academy in place of the school entrance examinations. Candidates for the Senior classes who expect to receive the diploma of the school at the end of one year's study should present certificates of the following value:

HARVARD, 18 POINTS—

Including Elementary Greek, Latin, French or German, English, Algebra, Plane Geometry, or their equivalents.

YALE (COLLEGE), 13 SUBJECTS—

Including Latin Grammar, Caesar and Nepos, Cicero or Vergil, Latin Composition, Greek Grammar, Xenophon, Greek Composition, Algebra *a* and *b*, Geometry *a* and *b*, French or German, English *a*, or their equivalents.

YALE (SHEFFIELD SCIENTIFIC SCHOOL), 10 SUBJECTS—

Including English Grammar, English Literature *a*, English History, Caesar, Cicero. Latin Grammar and Composition, French or German, Algebra *a* and *b*, Plane Geometry, or their equivalents.

Certificates in fewer subjects, according to their value, may secure provisional admission to the Senior classes, but such standing necessitates courses of study with the lower classes and either adds hours to the student's schedule; or lengthens the time required for his preparation. Students are not admitted to the Senior classes later than the beginning of the Winter Term.

Candidates for admission to the Senior classes should indicate in their preliminary correspondence the subjects credited to them in their college examinations. Seniors arrange their schedules on the basis of the college certificates which they hold. Those studies are selected which best complete the student's preparation for his college or scientific school. The completion of the course, which secures the diploma of the Academy, requires a clear admission to the Senior year and a schedule of eighteen hours per week of subjects such as ensure full admission to Harvard or Yale University. The course of study given in the summary on page 25 shows in part the range of selection open to those who have secured certificates of superior value.

Entrance Examinations. Classes below Senior

Candidates for admission to the Junior. Junior Middle and Middle classes are examined as follows:

On *Friday, June 19, 1903*, at 8.30, A. M., in Andover, at the Academy building, and in Chicago at Hurd Hall, Northwestern University, corner Lake and Dearborn Streets; and on Friday, June 26, 1903, at the same hour in New York City, at the rooms of the Young Men's Christian Association, on 23rd Street.

Examinations will be held in other of the large cities, if the number of candidates in any vicinity is sufficient.

On *Wednesday, September 16, 1903*, at 9.00 A. M., in Andover only, according to a schedule of rooms and hours announced at that time.

On *Tuesday, January 5*, and on *Thursday, April 14, 1904*, the first days of the second and third terms.

On *Friday, June 17, 1904*, at 8.30, A. M., in Andover, at the Academy building, and at the same hour in New York City, at the rooms of the Young Men's Christian Association, on 23d Street; and also in Chicago.

For examinations held in Andover on these regular dates no fees are charged. For examinations held in New York City, Chicago, or elsewhere outside of Andover, and for special entrance examinations held at other times than those here given, there is a fee of $5.00.

Candidates intending to present themselves at these examinations should give seasonable notice to the Registrar of the Academy.

The subjects upon which entrance examinations will be given in June and September, 1903, are as follows:

FOR ADMISSION TO THE

CLASSICAL DEPARTMENT

JUNIOR CLASS:

Arithmetic; English Grammar; Elementary Composition; Reading and Spelling; Geography: — these subjects as ordinarily taught in grammar schools.

JUNIOR MIDDLE CLASS:

Arithmetic, complete; Algebra, to quadratics; English Grammar; Spelling; Elementary Composition; American Authors; Latin, grammar and exercises; Caesar, *Gallic War*, Books II and III.

MIDDLE CLASS:

Arithmetic; Algebra, through progressions; English Grammar; Spelling; Composition; Shakespeare's *Julius Caesar*, *The Ancient Mariner*, *The Vision of Sir Launfal*, *Silas Marner;* Elementary Rhetoric; Latin, grammar and exercises; Caesar, *Gallic War*, four books; Nepos, ten lives; Greek, grammar and exercises; French or German, exercises and translation, covering a full year's work of four hours per week; Plane Geometry.

FOR ADMISSION TO THE

SCIENTIFIC DEPARTMENT

JUNIOR CLASS:

Arithmetic; English Grammar; Elementary Composition; Reading and Spelling; Geography: — these subjects as ordinarily taught in grammar schools.

JUNIOR MIDDLE CLASS:

Arithmetic; Algebra, to quadratics: English Grammar; Spelling: Elementary Composition: American Authors; Latin, grammar and exercises, translation of simple selections from the Latin.

MIDDLE CLASS:

Arithmetic; Algebra, through binomial theorem with positive integral exponents; English Grammar; Spelling; Composition; Shakespeare's *Julius Caesar*, *The Ancient Mariner*, *The Vision of Sir Launfal*, *Silas Marner*; Elementery Rhetoric; Plane Geometry to areas; Latin, grammar and exercises; Caesar, *Gallic War*, four books; French or German, exercises and translation, covering a full year's work of four hours per week.

APPOINTMENTS

Registration The school year begins in September, and while new students may be admitted later, by special examination, it is most advisable that they present themselves promptly at the beginning of the Fall Term. The student registers at Chapel exercises on the first day of each term as announced in the calendar, and then reports to his class officer, who will arrange his schedule of work for the term.

Classification Each successful candidate is enrolled in one of the regular classes and is required to pursue the prescribed work of that class. Deficiences in preparation, and occasionally other considerations, sometimes make it necessary for the student to do some work in other classes than his own. Such an arrangement is, however, undesirable, since it may involve the carrying of extra hours or the loss of the school diploma.

The Academy makes no provision for partial students: nor for special students who are not candidates for graduation from the Academy, or for entrance to college, scientific school, or professional school.

When a student, for any cause, loses eight or more recitation hours per week from the regular schedule of his class, he is registered with a lower class.

Examinations and Promotions Written examinations are held in each study at least once a term; but in most courses the term grading is made largely on the basis of daily work. Near the close of the year reviews are held, with special examinations to determine the student's fitness for promotion or graduation. By way of preparation for college tests these examinations are conducted with strict formality. In all the written exercises of the school year the absolute integrity of the student is assumed, and the student who fails to comply with this essential requirement may not retain his connection with the school. At the close of each term, reports of the student's scholarship and attitude toward his work are sent to his parents or guardian. Monthly reports are sent for all students whose work is below the passing grade.

Class Officers Each student is assigned to the special care of one of the seven members of the Faculty who are known as Class Officers. This officer arranges the studies of each member of the class of which he has charge, keeps particular record of the student's standing and progress, advises him in the choice of his elective studies and conducts correspondence with parents relating to the boy's school life and welfare.

Daily Appointments

Morning Chapel, 7.50 A. M.
Recitation and Study Hours, 8 to 12 A. M., 2 to 4 P. M.
Evening Study Hours begin at 8 P. M.
Sunday Chapel Services, 10.30 A. M., and 4.30 P. M.
Half Holidays, Wednesday and Saturday afternoons.
Anniversary Holidays, 8 A. M. to 7.30 P. M.

Study Hours During the recitation and study hours, when not engaged in the class-room, students are expected to occupy themselves with their studies or other school work.

Absences Every absence of the student from recitation, morning chapel, Sunday service, or from his room during study hours, is to be accounted for; and excuse should be secured in advance, whenever the necessity for such absence can be foreseen. In all cases of illness, notice must be sent at once to the Registrar's office. Cases not requiring the attendance of a local physician are investigated by the Physical Director of the school.

Holiday Excuses All out-of-town excuses must be obtained from the Principal. Such excuses are granted somewhat freely on half-holidays and on the special holidays to those whose school standing is good. The student who goes out of town without permission forfeits his connection with the school.

Religious Exercises Students are required to be present at morning chapel. After the devotional exercises opportunity is given for special announcements, brief school meetings, or other business preliminary to the work of the day. Sunday services for the students are held in the Chapel, which is used in common by the Theological Seminary and the Academy. Upon written request from their parents, members of the Protestant Episcopal, Baptist, or Roman Catholic congregations may be excused to attend the local churches. The Society of Inquiry holds voluntary meetings on Wednesday and Sunday evenings.

EXPENSES

Parents can estimate approximately the necessary expenses of their sons at the school; and it is particularly requested that they do not furnish money beyond what is necessary for ordinary expenses. Pupils who are supplied with much spending money, or who are allowed to make debts, usually accomplish but little in their studies, and are likely to form habits which require their removal from school.

Term Bills The term-bills for tuition are as follows: for the Fall Term, $60.00; for the Winter Term, $50.00; for the Spring Term, $40.00. There is a graduation fee of $7.00. Students in Chemistry, Physics, and Botany are charged for the supplies which they use. The term-bills are paid in person by the students, or are mailed to the parents or guardians upon request and must be paid within one week of the beginning of the term. Tuition will not be refunded when a student is dismissed or withdrawn during the term. Checks should be drawn in favor of the Trustees of Phillips Academy.

BOARD AND LODGINGS

I. Private Houses About forty private houses in the vicinity of the Academy, under license from the Trustees, provide board and lodgings for students, and no student may occupy a house not thus sanctioned by the School. Some of the houses provide furnished rooms only; others provide rooms and board, and some of the latter furnish board for students rooming in neighboring houses. The price of table board is from $4.00 to $7.00 per week. Students rooming in private families may, if they desire, board at the Dining Hall. The price of furnished rooms, including ordinary service, is from $3.00 to $6.00 per week and upwards.

Engagements for rooms in private families continue to the end of the Academic year. Therefore care should be exercised in the selection of rooms. Engagements for table board may, on suitable notice, be terminated at the close of any term.

II. Cottages

By the gifts of Mr. Melville C. Day, class of 1858, Mr. Warren F. Draper, class of 1843, and of many citizens of Andover, aided by a few friends outside of Andover, five brick dormitories have been built, called respectively, the Taylor, the Andover, the Draper, the Eaton, and the Bancroft. Careful attention has been given to the heating, ventilation, water supply, bath and toilet arrangements, and the drainage. Each building contains apartments for a resident teacher. The Taylor and the Draper contain five double suites for students; the Andover has five double suites and three single rooms; the Eaton has four double suites, two single suites, and one single room; the Bancroft contains eighteen double suites. Each suite has separate bedrooms, an open fireplace, closet room, and some have storage lockers in the attic. Table board for students in these dormitories may be secured at the Dining Hall at $4.00, or in private families at $4.00, $5.00, $6.00, and $7.00 per week.

These accommodations for teachers and eighty pupils are a partial realization of a plan to replace, as fast as funds are provided for the purpose, the present Commons with modern buildings, as favorable as possible to the best student life. The income derived from these fees is applied first to maintenance, second to certain life annuities attached to the deeds of gifts, and third to the aid of deserving students who need pecuniary aid.

No furniture is supplied by the school. The fees include the charge for heat and for the care of the rooms, except in the Draper.

PRICES OF ROOMS FOR 1903–1904

For a double suite in the Taylor, the Andover, the Eaton, or the Bancroft, each student,	$100.00
For a double suite in the Draper, not including service, each student,	$40.00
For a single suite in the Eaton,	$125.00
For a single room in the Andover or the Eaton,	$50.00

III. Special Provision for Young Boys

So far as possible boys under sixteen years of age will be placed in houses with surroundings specially adapted to their years. These houses will be in charge of members of the Faculty.

IV. Commons

There are thirty-six rooms in Commons for pupils and two for teachers. Most of these rooms are designed each for two persons and have two single bedrooms connected with them. The price of rooms is $5.00 per term for each student, with an extra charge where heat is furnished. The accommodations provided in Commons are very plain, and intended expressly for those who wish to make their expenses small. The rooms are supplied with tables and bedsteads for single beds. Plans of the rooms and other information may be had by addressing the Registrar.

The use of tobacco in any form is forbidden in the Cottages and Commons.

Students who room in Commons are not permitted to board themselves, to pay more than $4.00 per week for table board, or to board outside the school precincts. Students in the Draper are regarded as rooming in Commons.

V. Dining Hall A commodious and well-appointed Dining Hall has recently been added to the equipment of the Academy. Accommodations are provided for two hundred and fifty boys. The Dining Hall is in charge of a competent chef and is controlled by a committee composed of one member of the Board of Trustees, one member of the Faculty, and three members of the student body elected annually by the school The regular price of board is $4.00 per week, payable monthly in advance. Extras may also be ordered when desired, though in such cases cash payments are required.

ENDOWMENT AND SCHOLARSHIPS

Beneficiary Aid The *Farrar Fund*, a legacy from the late Treasurer, Samuel Farrar, Esq., amounts, with additions from income, to $22,000.

The *Students' Educational Fund* begun with a gift of $100 from the Senior Class of 1854, and enlarged by their efforts to $1,800, now amounts to $5,700. The Trustees desire to increase this fund to at least $25,000, in order to meet the opportunity for assisting worthy young men, ambitious to secure a liberal education.

Scholarships The following scholarships have been established:

The *Clarke Scholarship* of $1200, established in 1870 in memory of Mrs. John Aiken Clarke.

The *Jonathan Taylor Scholarship* of $1000, established in 1878 by the late Edward Taylor, in memory of his father.

The *Peter Smith Byers Scholarship* of $500, established in 1878 by the late John Byers.

The *French Scholarship* of $1000, established in 1879 by the bequest of Hiram W. French.

The *Class of 1878 Scholarship* of $500, established by the Classical Class of 1878.

The *Caroline Parker Taylor Scholarship* of $1000, established in 1880 by Mrs. Alpheus Hardy.

The *Gerard Sumner Wiggin Scholarship* of $1000, established in 1881 by the bequest of Lady Elizabeth Sumner Buckley-Mathew Fleming.

The *Richards Scholarship* of $1000. established in 1889 by the late Mrs. Mary A. Richards, in memory of her sons, deceased.

The *Charles L. Flint Scholarship Fund* of $5000, established in 1890 by the bequest of Hon. Charles L. Flint.

The *Emma Lane Smyth Scholarship* of $1000, established in 1890 by the late Ex-Gov. Frederick Smyth.

The *James and Persis Taylor Scholarship* of $1000, established in 1890 by the late Mrs. Mary E. Fairbanks.

The *Henry P. Haven Scholarship* of $1000, established in 1890 by the estate of Henry P. Haven.

The *Dowe Scholarship Fund* of $3000, established in 1892 by the bequest of John Dowe.

The *John Cornell Scholarship Fund* of $5000, established in 1894 by the bequest of John Cornell.

The *James Calvin Taylor Scholarship* of $1000, founded in 1895 by his sister, the late Mrs. Mary E. Fairbanks.

Scholarship Aid

The income from these scholarships and other endowment funds, available for a limited number of students is awarded to such as are in need of financial assistance and maintain a high grade of scholarship. The amount of aid most frequently awarded a student is the same as the tuition fee, which is thus remitted. This abatement is possible only after a student has been connected with the school for at least one term, during which time an opportunity is afforded the instructors and the school officers for determining the candidate's scholarship grade. Ordinarily, forty scholarships are awarded. Independently of the abatement of tuition charges, the school is able to award a limited number of small scholarships for excellence in special departments of school work.

Since the endowment funds of the Academy are insufficient to meet the demands of even the most worthy applicants, discrimination in favor of superior achievement is always made and satisfactory evidence must be furnished the Principal that the financial aid is necessary.

Candidates for admission to the Academy, dependent upon their own resources and in need of scholarship aid, should by careful preliminary correspondence indicate their sources of income, or their plans for self-maintenance.

Endowment In addition to the early endowments by Hon. Samuel Phillips, Dr. John Phillips, Hon. Wm. Phillips, Lieut.-Gov. Samuel Phillips, His Honor William Phillips, and others, and the Scholarships, Prizes, and Charity-funds mentioned elsewhere, gifts for buildings and for various purposes amounting to $276,000 have been more recently received (1878–1901), and endowments have been made as follows: George Peabody Foundation for Natural Sciences (1866), $25,000; Samuel H. Taylor Fund (1871), $3,700; John C. Phillips Foundation of the Latin Department (1878), $25,000; Peter Smith Byers Foundation for the Principalship (1879), $40,000; Alden Educational Fund (1881), $5,000; Stone Educational Fund (1884), $25,000; W. F. Draper Fund (1887), $2,500; James S. Eaton Fund (1895), $500.

Libraries The Samuel H. Taylor Memorial Library contains about 2,500 books, including the valuable classical library of the late principal, Dr. Taylor, which was presented to the school (1876) by his sister, Mrs. Horace Fairbanks of St. Johnsbury, Vt. The Associate Library belongs jointly to the Philomathean Society and the Society of Inquiry, and contains 800 volumes. There are also special libraries in English, The Classics, History, and Natural Science. The library of the Theological Seminary, and the Memorial Hall Public Library, aggregating 60,000 volumes, are accessible for consultation daily.

Borden Gymnasium The Academy has a large and well appointed gymnasium completely equipped with the most modern apparatus. The department of physical culture is under the charge of a competent instructor who gives careful attention to the welfare of each student. Students of all classes are required to take regular gymasium work.

Archaeological Building The Archaeological Building contains rooms for the collection of the department, a Lecture Room, and a well equipped Reading Room. There are additional rooms for the editors of *The Phillipian* and *The Mirror*, the managers of the athletic organizations, the Camera Club, the Chess Club, and for social purposes.

School Organizations Among the School Organizations, maintained by the students, are the following: RELIGIOUS, the Society of Inquiry; DEBATING, the Philomathean Society, Forum; SCHOOL PAPERS, the Phillipian (semi-weekly), the Mirror (monthly), the Pot-Pourri (annual); MUSICAL, the Glee Club, Banjo Club, Mandolin Club; THE ATHLETIC ASSOCIATION, comprising the Base Ball, Foot Ball, Track, Tennis and Hockey Associations; also the Camera Club, Chess Club, Dramatic Club, Gun Club, Golf Club and Basket Ball Team.

Location, etc. Andover is a town of six thousand inhabitants, situated on the Western Division of the Boston and Maine Railroad, twenty miles north of Boston. It is the seat of the Andover Theological Seminary, Professor Charles Orrin Day, President of the Faculty; and of the Abbot Academy for young ladies, Miss Emily A. Means, Principal. For convenience the following additional addresses are given: John Tyler Kimball, Cashier of the Andover National Bank; Edward L. Perley, Station Agent, Boston and Maine Railroad; C. T. Ripley, manager of the Phillips Inn, the local hotel connected with the institutions; Warren F. Draper, the "Andover Publications;" George A. Higgins & Co., the Andover Bookstore; John N. Cole, *The Townsman* and the Andover Press.

* When a Senior's schedule completes the requirements for admission to his chosen college, courses not previously pursued in any class in any department of the school may be taken and counted as Senior work.

CLASSICAL DEPARTMENT

The course of study is designed to furnish adequate preparation for any college. It is decidedly advantageous for students to take the entire course in the Academy as the languages are taught with a view to the student's progressive development. An especially selected library affords opportunity for students to acquire the habit of supplementary reading.

Harvard or Yale preliminary certificates, at the discretion of the Faculty, are accepted as equivalents for courses passed. Candidates for the Senior Class from other schools must present college preliminary certificates and Middlers in this school are required to take a college preliminary examination.

A variety of optional and extra studies is offered, especially in the Senior year, to meet the wants of students who are fitting for definite college requirements, or are to enter advanced divisions at the colleges, and also to provide for ambitious students who may wish to broaden their preparation. Members of the Senior Class select such subjects as are needed to complete their preparation for college and for the remainder of their schedule may elect any subjects not already completed in the Course of Study, of any department. The classes in Physics and Chemistry have excellent facilities for practical work in the laboratory.

CLASSICAL COURSE

CLASS IV

JUNIOR

FIRST TERM:

Latin Lessons, strict class-room drill,—6 hours. Algebra, to fractions, —4 hours. Elementary Geometry,—2 hours. Review of English Grammar; dictation, punctuation; selections from Irving, Hawthorne and other authors,—4 hours. Physiography,—2 hours.

SECOND TERM:

Latin Lessons. completed: grammar: easy reading: exercises in writing Latin,—6 hours. Algebra, fractions and simple equations,—4 hours. Elementary Geometry,—2 hours. Elementary English Composition; exercises in grammar; selections from Bryant, Longfellow, Whittier, and other American authors,—4 hours. Physiography,—2 hours.

THIRD TERM:

Caesar, *Gallic War*. Books II, III: composition (elementary work), —6 hours. Algebra, square root. theory of exponents and radicals,—4 hours. Elementary Geometry,—2 hours. Elementary English Composition; study of words; *The Lady of the Lake*, *Lays of Ancient Rome*, and other readings,—4 hours. Physiography,—2 hours.

CLASS III

JUNIOR MIDDLE

FIRST TERM:

Caesar, *Gallic War*, Books I and IV; reading at sight; composition (Jones, 10 lessons),—4 hours. White's First Greek Book,—4 hours. French or German,—4 hours. Algebra, affected quadratics and theory of quadratics,—1 hour. Plane Geometry, Book I with originals, — 3 hours. English Composition; personal conferences;* Shakespeare's *Julius Caesar*, and other readings.—2 hours.

---

* In addition to the regular recitations each student spends fifteen minutes once a month in discussing his theme with the instructor.

SECOND TERM:

Caesar, *Gallic War*, Book V; Nepos; sight reading; composition (Jones, through lesson 25), — 4 hours. White's First Greek Book, —4 hours. French or German,—4 hours. Algebra, simultaneous quadratics, ratio and proportion,—1 hour. Plane Geometry, Books II and III with originals,—3 hours. English Composition; personal conferences; *The Ancient Mariner*, *The Vision of Sir Launfal*, and other readings,—2 hours.

THIRD TERM:

Nepos; sight reading; composition (Jones, completed); written translations,—4 hours. White's First Greek Book; translation of easy prose,—4 hours. French or German,—4 hours. Algebra, the progressions and binomial theorem,—1 hour. Plane Geometry, Books IV and V with originals,—3 hours. English Composition; personal conferences; *Silas Marner*, and other readings,—2 hours.

CLASS II

Middle

FIRST TERM:

Cicero, *Catiline Orations*; reading at sight; composition based on the text read,—5 hours. Xenophon, *Anabasis*, Book I; composition, —5 hours. French or German,—2 hours. Algebra, reviewed through fractions,—2 hours. Plane Geometry: Harvard candidates, 1 hour; Yale candidates, 2 hours. Readings in English Literature (college requirements); composition; personal conferences; Elementary Rhetoric,—2 hours. For Harvard candidates: Readings and studies in English Literature (college requirements); composition; personal conferences,—3 hours.

SECOND TERM:

Cicero, *Manilian Law*, *Archias*, *Marcellus*; written translations; composition; connected narrative. Harvard candidates pursue the courses prescribed in the Harvard catalogue,—5 hours. Xenophon, *Anabasis*, Books II, III; composition,—5 hours. French or German; prose selections,—2 hours. Algebra through simultaneous quadratics, —2 hours. Plane Geometry: Harvard candidates, 1 hour; Yale candidates, 2 hours. English [continuation of work of first term].

THIRD TERM:

Cicero, *Milo*; Caesar, *Gallic War*, selections from Book VII; Nepos, selections at sight; composition; Ovid and Vergil (Harvard candidates). — 5 hours. Xenophon. *Anabasis*, Book IV *Hellenica*, selections; composition; reviews.—5 hours. French or German, prose selections,—2 hours. Algebra through the binomial theorum,—2 hours. Plane Geometry: Harvard candidates, 1 hour; Yale candidates, 2 hours. English [continuation of work of first term].

NOTE.—An opportunity is given by an increasing number of colleges to pass a preliminary examination in a part of the subjects required for admission. June examinations, both preliminary and final, are held in Andover, by Harvard, Yale and Princeton Colleges.

In order to define the work of the pupil in his last year, it is required that he take the preliminary examinations of some college.

CLASS I

SENIOR

A schedule of not less than eighteen (18) hours per week, selected from the following subjects, according to college requirements. The courses are continuous throughout the school year.

LATIN I.—Vergil, *Æneid*, Books I-VI, VIII, IX; prosody; Cicero; copious reading at sight; Roman private life. Harvard candidates pursue the courses prescribed in the Harvard catalogue.—4 hours.

LATIN COMPOSITION I.—Advanced course.—1 hour.

LATIN I.—Horace,—1 hour.

GREEK I.— Homer, *Iliad* and *Odyssey*, 5000 verses; prosody; selections from Attic prose writers,—4 hours.

GREEK COMPOSITION I.—Advanced course.—1 hour.

HISTORY I.—Greece and Rome.—5 hours.

PHYSICS I.—Text, with laboratory work.—4 hours.

FRENCH A.—Advanced course.—4 hours.

GERMAN A.—Advanced course,—4 hours.

* FRENCH III.— 4 hours.

* GERMAN III.— 4 hours.

CHEMISTRY A. 4 hours.

ENGLISH I. — Studies in English Literature (College requirements); extempore composition; personal conferences,—2 hours.

HISTORY A.—United States.—4 hours.

* HISTORY B.—England.—4 hours.

ADVANCED ALGEBRA I.—Harvard requirements.—2 hours.

PLANE TRIGONOMETRY A.— Fall term, 4 hours; spring term, 2 hours.

Solid Geometry A.—Winter term, 4 hours; spring term, 2 hours.

Mechanical Drawing A.—2 hours.

Botany A.—2 hours.

American Archaeology A.—2 hours.

* Other courses in lower classes may be counted as Senior work when substituted for regular Senior courses already accepted on college preliminary certificates.

SCIENTIFIC DEPARTMENT

The object of this department, established in 1830, is to afford a substantial course of study, on the basis of Mathematics and the Natural Sciences, History, Latin, Modern Languages and Literature.

The Course of Study is designed to furnish thorough preparation for the Lawrence Scientific School of Harvard University, the Sheffield Scientific School of Yale University, the Massachusetts Institute of Technology, and other scientific schools and colleges of the higher grade.

For illustrating the principles of Physics and Chemistry the school is provided with excellent apparatus, and with laboratories for experimental work. An appropriation of $300 is made each year to procure the latest and best instruments.

The Archaeological Department, established in 1901, offers a course of instruction in American Archaeology, illustrated by a collection of forty thousand specimens.

The Academy is provided with a full set of instruments for courses in practical surveying, consisting of a solar transit, surveyor's compasses, levels, and other appliances.

The Science Building furnishes ample accommodations for the departments of Physics and Chemistry. The building contains, besides recitation rooms, a lecture room, a draughting room, a Physical and a Chemical Laboratory, thoroughly equipped for individual work.

SCIENTIFIC COURSE

CLASS D

JUNIOR

FIRST TERM:

Algebra, to fractions,—4 hours. Elementary Geometry,—2 hours. Latin Lessons,—6 hours. English, as for Class IV,—4 hours. Physiography,—2 hours.

SECOND TERM:

Algebra, fractions and simple equations,—4 hours. Elementary Geometry,—2 hours. Latin Lessons, continued,—6 hours. English, as for Class IV,—4 hours. Physiography,—2 hours.

THIRD TERM:

Algebra, square root, theory of exponents and radicals,—4 hours. Elementary Geometry, — 2 hours. Latin Gradatim, selections; exercises in writing Latin,—6 hours. English, as for Class IV,—4 hours. Physiography,—2 hours.

CLASS C

JUNIOR MIDDLE

FIRST TERM:

Algebra, quadratic equations, equations solved like quadratics, simultaneous equations of the second and higher degrees (begun), and problems,—2 hours. Plane Geometry, propositions of Book I with original work,—2 hours. French or German,—4 hours. Caesar, *Gallic War*, Books II and III; composition,—5 hours. Chemistry,—3 hours. English, as for Class III,—2 hours.

SECOND TERM:

Algebra, simultaneous equations completed, inequalities, ratio and proportion, variation, binomial theorem for positive integral exponents, — 2 hours. Plane Geometry, originals of Book I completed and Book II with originals,—2 hours. French or German,—4 hours. Caesar, *Gallic War*, Book IV and first half of Book I; composition, —5 hours. Chemistry,—3 hours. English, as for Class III,— 2 hours.

THIRD TERM:

Algebra, the progressions and a review of more elementary Algebra, —2 hours. Plane Geometry, Book III with originals, omitting computation formulae, — 2 hours. French or German, — 4 hours. Caesar, *Gallic War*, second half of Book I; composition,—5 hours. Chemistry,—3 hours. English, as for Class III,—2 hours.

CLASS B

MIDDLE

FIRST TERM:

Plane Geometry, Book IV including a large number of originals,—2 hours. Algebra, review of quadratic equations, inequalities, ratio and proportion, variation and the progressions; and advance covering undetermined coefficients, binominal theorem, logarithms, permutations and combinations, and continued fractions, — 4 hours. Physics,—4 hours,—or Cicero, *Catiline Orations* I and II,—4 hours. French or German,—2 hours. English History,—4 hours. English, as for Class II (omitting statement for Harvard candidates),—2 hours.

SECOND TERM:

Plane Geometry, completed,—2 hours. Algebra, general theory of equations as called for in the syllabus of the Sheffield Scientific School, —4 hours. Physics,—4 hours,—or Cicero, *Manilian Law*,—4 hours. French or German,—2 hours. English History,—4 hours. English, as for Class II (omitting statement for Harvard candidates),—2 hours.

THIRD TERM:

Plane Geometry, reviewed,—2 hours. Algebra, general review preparatory to college and scientific school examinations, — 4 hours. Physics,—4 hours,—or Cicero, *Catiline Oration* III and reviews,—4 hours. French or German,—2 hours. English History, —4 hours. English, as for Class II (omitting statement for Harvard candidates); English Grammar, reviewed,—2 hours.

CLASS A

SENIOR

A schedule of not less than eighteen (18) hours per week, selected from the following subjects, according to college requirements. The courses are continuous, throughout the school year:

PLANE TRIGONOMETRY A.—Fall term, 4 hours; spring term, 2 hours.

SOLID GEOMETRY A.—Winter term, 4 hours; spring term, 2 hours.

PHYSICS I.—4 hours.

CHEMISTRY A.—Advanced course,—4 hours.
BOTANY A.—2 hours.
AMERICAN ARCHAEOLOGY A.—2 hours.
ADVANCED FRENCH A.—4 hours.
ADVANCED GERMAN A.—4 hours.
* GERMAN C.—4 hours.
* FRENCH C.—4 hours.
MECHANICAL DRAWING A.—2 hours.
ENGLISH A.—[See Class I.],—2 hours.
HISTORY A.—United States,—4 hours.
* HISTORY B.—English,—4 hours.

* Other courses in lower classes may be counted as Senior work when substituted for regular Senior courses already accepted on college preliminary certificates.

SUPPLEMENTARY STATEMENTS OF COURSES

GREEK

The first year is devoted mainly to memorizing the forms of the language and fixing a few important principles of syntax. The class is constantly drilled to reproduce paradigms accurately and rapidly, as well as to inflect new words. The importance of review work is emphasized at every recitation. Black-board work occupies much of the time; this work the class is called upon to criticise. By an equal share of oral work the ear is trained to detect inaccuracy in accent or pronunciation. A ready command of the vocabularies is required; to secure this, there is both oral and written work, and writing Greek words at dictation is practiced.

The hours are varied with frequent exercises in translation, English into Greek as well as Greek into English, and occasional talks about Greek life.

The second year is occupied with reading Xenophon's *Anabasis*, Books I–IV, sight reading, translation from English into Greek, and grammar reviews. Great effort is made to secure simple, idiomatic English in both oral and written work. A portion of the following day's lesson is often translated at sight, and towards the end of the year, other works, particularly Xenophon's *Hellenica*, are used with a special reference to sight reading.

Grammar and composition are studied through the year, the method being the same as during the first year; skill in writing Greek is made a chief object of this year's work.

The third year is spent mainly in reading selected books of the *Iliad* and *Odyssey*. The work of the year is much broader in scope, however, than before. After the dialect is thoroughly mastered, more attention is given to the literary side of the poems; the art of translation is discussed; carefully prepared renderings in prose and metre are made by the class and read aloud. Much attention is paid to the translation of sight passages; in this there is almost daily practice, the object being to acquire ability to read large portions of Homer rapidly and with pleasure.

During the second and third terms some time is given to reading selections from Xenophon's *Hellenica* or *Cyropaedia* or *Memorabilia*.

LATIN—CLASSICAL COURSE

The Latin work of the Junior year consists of strict, unremitting drill in the essentials of the grammar, with the view of securing accuracy and ease in the use of forms. Careful training is given in methods of study. The student is taught from the beginning to grasp the concepts as well as the English equivalents of Latin terms, and to notice the order of thought in sentences. There is daily practice in the writing of Latin.

In the Latin of the Junior Middle Year exceptional stress is laid upon a study of the grammatical relation of words in sentences. Case constructions are accurately discriminated and explained; the ordinary uses of the subjunctive and the infinitive are interpreted; and the more common idioms of Caesar and Nepos are noticed.

In the Middle year the course in Cicero aims toward the mastery of an extended vocabulary, an elementary knowledge of synonyms, an accurate discrimination of grammatical constructions, and facility in reading the Latin. Understanding of the subject matter of the speeches is insisted upon, and the student is encouraged to notice and to appreciate beauty of thought and expression. In rendering Latin into English carelessness in diction is not tolerated. Special efforts are made to render the student familiar with the chief characteristics of Cicero's oratory and with the history of his time.

The work in prose composition is devoted to connected narrative.

In the Senior year the Latin study broadens with a view to promote a scholarly ease in the reading of the literature prescribed. Poetical constructions and peculiar uses of words are subjects of special study. Practice in reading the hexameter rhythmically forms an essential feature in the study of Vergil. No effort is spared to induce a thorough understanding of the work read, and an appreciation of the literary art displayed. Linguistic study is directed toward a wider knowledge of word-formation, and of the principles of syntax. Examinations are set largely from passages not previously seen by the student.

The study of Roman life aims to give a general survey of the subject.

LATIN — SCIENTIFIC COURSE

The Latin work of the Junior year includes a most careful and thorough drill in the essentials of grammar such as are generally found in a first Latin book, an exact knowledge of forms, and the reading of a limited amount of easy Latin selections.

In the Junior Middle year, in connection with the first four books of Caesar, a course in Latin composition is given, which will prepare for the examination in that subject given by the Sheffield Scientific School and other schools with a similar requirement.

In the Middle year, in the translation of Cicero, special emphasis is placed on the differences between English and Latin idioms. and on a careful choice between words and phrases of similar meaning; and an idiomatic English translation is required. The dependence of the English vocabulary upon the Latin is emphasized, and a limited amount of elementary instruction given in regard to cognate and derived words.

GEOMETRY

The study of Geometry is begun in the Junior year in an elementary course having two recitations a week throughout the year. The aim of the course is to acquaint the student with the fundamental space conceptions and their elementary relations. Very little demonstrative work is attempted, but considerable time is given to the accurate drawing with straight-edge and compass of problems in construction and to the solution of a great variety of numerical problems involving the use of simple formulae and algebraic processes. Constant use is made of the metric system and its English equivalents.

Demonstrative Plane Geometry is taken up in the Junior Middle year. In the work of this year the chief aim of the instruction is to develop in each student the ability to reason clearly and logically. Accuracy, clearness, and completeness of statement are insisted upon. To develope originality and independence of thought as much time as possible (from one-third to one-half) is devoted to the solution of exercises of gradually increasing difficulty. The examinations for admission to the Middle classes test not only the candidate's knowledge of the usual propositions, but also his ability to solve exercises of moderate difficulty.

During the Middle year the same objects of instruction are sought, more time is given to original work (from one-half to three-quarters), reviews are taken, and special preparations made to meet the diverse requirements of the leading colleges and scientific schools.

ENGLISH

The course in English aims to help the student attain an appreciative knowledge of the books read, to cultivate his taste for good reading, and more especially to develop his ability to write and speak clear and forcible English. By a system of monthly conferences each member of the various composition classes receives the personal attention of the instructor, and is encouraged to discuss frankly with him the individual problems and difficulties encountered in theme-writing. Rhetoric is taught with special view to the practical needs of the student in his composition work.

The works studied in class, beginning with the Junior Middle year, include all the books on the regular list of entrance requirements in English for the principal colleges.

In addition to the books studied in the regular course a number of books — novels, short stories, studies, and poems — are taken up for supplementary reading. These books are chosen mostly for their own interest and value, though a few are chosen for their direct bearing on the works studied in class, as for example Professor Dowden's *Shakespeare Primer*. In the Junior year the choice of short and especially interesting stories and narrative poems makes for the developing of a boy's love of reading early in the course. Part of the readings in this year are myths, folk tales, and ballads, which appeal especially to the imagination of the young. In the later years of the course novels of characterization, together with shorter stories, poems, and an occasional essay are read, the selection being made largely with a view to variety and interest. Throughout the reading course both classic writers and those of more recent days are drawn upon for material.

PHYSICS

The instruction in Physics is given by use of text book, and by practical work in the laboratory. The text is accompanied with numerical examples, and by qualitative experiments, designed to illustrate physical laws and their application to practical life.

Forty or more quantitative laboratory experiments are required of each pupil. A careful record of the steps and results of these exercises is kept in a note book, which must be submitted to the instructor for approval. The object of the laboratory course is to give some familiarity with methods of physical measurements, and "to train the eye and hand in the direction of precision and skill".

The laboratory is commodious and furnished with all the apparatus and conveniences for the required work.

The collection of apparatus for lecture-room experiments is large, and nearly complete, and much of it of the finest quality.

BOTANY

The course in Botany covers the work required for admission to Sheffield Scientific School. It is restricted almost entirely to phanerogamic botany, Gray, Bailey and similar books being the text books used. Subjects not very fully treated of in these books (classification, evolution, nourishment, growth, etc.,) are amplified by lectures. About forty hours are spent in laboratory work illustrative of the text and lectures.

CHEMISTRY.

The Junior Middle course in Chemistry is not intended to meet any college entrance requirement. Its purpose is rather to give an introduction to scientific methods and theories, especial emphasis being laid upon quantitative relations. The work is almost exclusively confined to the study of the non-metallic elements, since they are better adapted for illustrating the general laws of Chemistry. About half of the time is spent in the laboratory.

The Senior course in Chemistry prepares for admission into practically all colleges and scientific schools. During the first two terms the work is mostly done in the laboratory, the class meeting in one section. During the third term the class is divided so that the men going to different institutions may be better prepared to meet their special requirements.

FRENCH

The first year's work consists of the first part of Elementary French Grammar, with the irregular verbs; the principles of pronunciation; the committing to memory of short selections of prose or verse; the translating into French of simple English sentences throughout the year; and the translation of from 350–400 pages of French into English, — LaBoulaye's *Contes Bleus*; Malot's *Sans Famille*; Erck mann Chatrian's *M'me Theérèse*; Daudet's *Contes* or similar texts.

The course of the second year includes one hour a week of composition, with a review of the irregular verbs and the Elementary Grammar; also one hour a week of reading texts like Hugo's *Notre Dame de Paris*; Gautier's *Jettatura*; Balzac's *Cinq Scènes de la Comédie Humaine*; Mérimée's *Colomba*,—about 200–300 pages.

During the third year one hour a week is given to advanced composition; three hours a week of translation (about 800–1000 pages) from texts like Corneille's *Horace*, *Cid*, *Polyeucte*; Racine's *Andromaque*, *Les Plaideurs*; Molière's *Les Précieuses Ridicules*, *L'Avare*, *Le Bourgeois Gentilhomme*, *Le Misanthrope*; Hugo's *Ruy Blas*, *Hernani*; Dumas' *Question d'Argent*, etc.

GERMAN

The first year's work in German includes the principles of pronunciation, the mastering of inflections and of the meaning and principal parts of the strong verbs, the turning of simple English sentences into German, the memorizing of a few easy German poems and the translation into English of one hundred and fifty or two hundred pages of easy German prose.

Of the two hours a week given to this subject the second year, one is used for German composition, the other for the translation of the intermediate German texts, the number of pages read being about the same as in the first year.

In the Advanced German of the Senior year the German classics are read: One of Schiller's dramas, Lessing's *Minna von Barnhelm*, Heine's *Harzreise*, Goethe's *Hermann und Dorothea* or selections from his prose writings, and occasionally a more recent work, like Sudermann's *Frau Sorge*. One hour a week is given to the translating into German of connected English discourse. Five hundred pages of German–English and fifty pages of English–German would be an approximate estimate of the amount covered in this year's course.

PRIZES

The following prizes are offered annually for proficiency in the work of several of the departments:

IN MATHEMATICS

The Convers Mathematical Prizes, founded in 1897, by E. B. Convers, Esq., class of 1857, of Englewood, N. J. Three prizes of twenty dollars, fifteen dollars and ten dollars, are awarded for excellence in the mathematics of the Classical Department, to be determined by an examination in May of the Middle year. The Committee of Award for the fifth competition, May 1902, were William Gallagher, M. A., Ph. D., head master of Thayer Academy, South Braintree, Mass.; Charles Alfred Pitkin, M. A., Ph. D., master in Thayer Academy.

IN ENGLISH

The Draper Prizes for Selected Declamations, founded in 1866 by Mr. W. F. Draper, of the class of 1843, of Andover. The first prize is of twenty dollars, the second of twelve dollars, the third of eight dollars. The competition is open to students in either department. A preliminary trial before a committee is held early in May, the final competitors being chosen on the basis of the ten best rendered selections. The thirty sixth competition occurred June 18, 1902. The Committee of Award were Bernadotte Perrin, Ph. D., LL. D., Yale University, John Winthrop Platner, D. D., Andover, and Rev. Frank Ilsley Paradise Medford.

The Means Prizes for Original Declamations, founded in 1867, by the late Wm. G. Means, of Boston. The first prize is of twenty dollars, the second of twelve dollars, the third of eight dollars. Students in either department may compete. Compositions must be submitted before March 1st. Ten are selected for the final competition, by the same judges who act as committee of award, the prizes being given on the merits of both composition and delivery. The thirty fifth competition was held in May 1902, the Committee of Award being Rev. Calvin M. Clark, Haverhill; Everett S. Stackpole, D. D., Bradford; Clarence E. Kelley, B. A., Haverhill.

The subjects for the thirty-seventh competition, March 1, 1904, are:

1. The Revival of Handicrafts.
2. What is Proper School Spirit?

3. Macbeth in Success and in Ruin.
4. A Sea Fight.
5. Are the People Reading too Much?
6. The Contemplative Life.
7. Portia, The Lady of Belmont.
8. The Future of Irrigation in the West.
9. The Calling of the Civil Engineer.
10. The Value of Classical Studies in the Preparatory School.

The Harvard-Andover Prizes, sustained since 1889 by the Harvard-Andover Club. Two prizes are offered, one of fifteen dollars and one of ten dollars, for excellence in English Literature and Composition, including the more practical topics of Elementary Rhetoric. The competition is open to members of the Senior and Middle classes of both departments.

The Robinson Prizes for Debate, sustained since 1896, by Mr. H. S. Robinson, of Andover, are open to members of the two debating societies, Philo and Forum. A prize of thirty dollars is awarded to the representatives of the society presenting the best argument, irrespective of the merits of the question. Each society selects three men to represent it in the debate. The seventh competition occurred in May 1902. The Committee of Award were George H. Poor, Esq., Andover; Charles O. Day, D. D., Andover, and John L. Brewster, M. A., Andover.

IN THE CLASSICS

The Valpey Classical Prizes, founded in 1893, by the late Rev. Thomas G. Valpey, of the class of 1854. Two prizes of ten dollars each are awarded; one for excellence in Latin composition, one for excellence in Greek composition. The competition is open to members of the Middle Class. The seventh competition occurred in June 1902. The Committee of Award were George Rappell Noyes, Ph. D., University of California, for the Greek, and Charles H. Forbes, B. A., and John L. Phillips, B. A., of the Academy, for the Latin.

IN GREEK

The Joseph Cook Greek Prizes, founded in 1879 by the late Dr. Joseph Cook, class of 1857. The prizes are fifteen, ten and five dollars respectively. The special topics included in the twenty-fifth competition, May 1904, will be translations at sight: —

1. From Homer.
2. From Attic Greek prose.
3. From English into Greek.

The Committee of Award for the twenty-third competition, May 1902, were Edward Kennard Rand, Ph. D., and George Henry Chase, Ph. D., both of Harvard University, Cambridge, Mass.

IN LATIN

The Dove Latin Prizes, founded in 1880 by Mr. George W. W. Dove, class of 1853, of Andover. The prizes of twenty, fifteen and ten dollars, are awarded for excellence in Latin and are open to Seniors in the Classical Department.

The Committee of Award for the eighteenth competition, May 1902, were Charles H. Forbes, B. A., of Phillips Academy, and Clarence E. Kelley, B. A., of Haverhill.

The Crane Prizes for Excellence in Vergil, the gift of the late Rev. Oliver Crane, D. D., LL.D., are copies of his translation of Vergil. The competition is open to Seniors and Middlers.

IN PHYSICS

The Wadsworth Prize, sustained since 1900 by William S. Wadsworth, M. D., of the class of 1887, is a prize of ten dollars, offered to that member of the Scientific Department who shall obtain the highest rank in Physics for the year. The third competition occurred in June 1902. The Committee of Award was Edwin T. Brewster, M. A., of the Academy.

IN ENTRANCE EXAMINATIONS

The Yale–Andover Prizes, sustained by the Yale–Andover Club. One first prize of twenty-five dollars and one second prize of fifteen dollars to those members of the Senior Academic class who have passed with highest average a minimum of ten subjects in the June entrance examinations for Yale College. Likewise one first prize of twenty-five dollars and one second prize of fifteen dollars to those members of the Senior Scientific class who have passed with highest average a minimum of eight subjects in the June entrance examinations for the Sheffield Scientific School.

AWARD OF PRIZES, 1901–1902.

The Convers Prizes	(1) Edward Washburn Kellogg, *Vineland, N. J.* (2) Cornelius Francis Sullivan, *Lawrence* (3) John Francis Stimson, *Plainfield, N. J.*
The Draper Prizes	(1) Frederick Sewall Bale, *Asbury Park, N. J.* (2) Joseph Augustine O'Connor, *Lawrence* (3) Henry Bartlett Stimson, *New York, N. Y.*
The Means Prizes	(1) Lee James Perrin, *New Haven, Conn.* (2) Alexander William Bannwart. *Boston* (3) Robert Lincoln Clark, *Ansonia, Conn.*
The Robinson Prizes	(1) Robert Lincoln Clark, *Ansonia, Conn.* (2) William Wentworth Thayer, *Concord, N. H.* (3) Henry Bartlett Stimson, *New York, N. Y.*
The Valpey Prizes	*Greek* Charles Pomeroy Otis, *Andover* *Latin* Cornelius Francis Sullivan, *Lawrence* *Honorable Mention* William Thompson Bacon, *Derby, Conn.*
The Cook Prizes	(1) Fred Russell Nason, *Somerville* (2) William Wentworth Thayer, *Concord, N. H.* (3) Robert Lincoln Clark, *Ansonia, Conn.*
The Dove Prizes	(1) Charles Pomeroy Otis, *Andover* (2) Lester Clement Barton, *Chicago, Ill.* (3) Frederick Sewall Bale, *Asbury Park, N. J.*
The Wadsworth Prize	John Joseph Donovan, *North Andover*
The Yale–Andover Prizes	*Yale College* (1) John Glen Benbow, *Fort Madison, Iowa* (2) Edward Barton Chapin, *Andover* *Sheffield Scientific School* (1) Robert Harris McCurdy, *Youngstown, Ohio* (2) Ernest Wittenau, *Cheyenne, Wyo.*

CLASS OF 1902

The following, members of the class of 1902 unless otherwise stated, have entered college as indicated :

Harvard — Wendell Pease Abbott, William Isaac Cohn, Thomas Yost Cooper, Maurice Joseph Dorgan, Francis Abbot Goodhue, jr., Theodore Munroe Hall, Edward Nathaniel Jenckes, jr,, Jay Roy Lewis (1903), Charles Mitchell (1903), Henry Julian Mullen, William Josiah Nutter, Horace Whiton Paine, Charles Tripp Ryder, Harold Alexander Taylor, William Wentworth Thayer, Harry Marshall Trieber (1903), Roger Merril Hobbs Wilcox.

Harvard (Lawrence Scientific School) — Edmund de Forest Curtis, Clarence Engelbert Ebert.

Harvard (Special) — Charles Julian O'Sullivan (1903).

Yale — Austin Warmington Andrews (1903), John Ezra Ayers, William Thompson Bacon, Howard Mead Bartlett, Lester Clement Barton, Robert Robinson Chase, Robert Lincoln Clark, Louis Dousman, John Gilmore Dunlap, Horace Ferry, Benjamin Fitzpatrick (1903), Irving Kent Fulton, John Nesmith Greely, Melville Brooks Gurley, William Hugh Harris, Frank Edwin Harwi, Gustave Maurice Heckscher, Eugene Leavens Mersereau, William Disney Nichols, Frank O'Brien, Herbert Paul Onasch, Richard Park, Andrew Parker, Lee James Perrin, John Case Phelps, Miles Bradley Riggs, William Henry Francis Clapp Robertson, William Patten Shoemaker, Philip Chapin Smith, jr. (1903), Guy Thomas Stetson, John Francis Stimson, James Albert Toole, William Van Antwerp Waterman, Edwin White, Jere Raymond Wickwire, Frank Eugene Wilson.

Yale (Sheffield Scientific School) — Fred Gerhard Becker (1903), Harold Patterson Bogart, Stanley Buffington, Fred Mortimer Carter, jr., Sydney Hobart Carter, Bruce Cartwright, jr. (1903), Stewart Hancock Elliott (1903), Frederick Berthold Ewing, Kenneth Percy Grant, Leslie George Howard, Edmund Clark Johnston, Tilghman Erwin Johnston, Walter Edmond Keach (1903), Ralph Parsons Kinney, John Wallace Leavenworth, Robert Lindenberg, Edgar Drewry Lynch, Ward McLanahan, Bernard Gilpin Marshall, Daniel H Moon, Charles Hayward Murphy, Charles Clarke Perkins, Charles Custer Rockafellow, Douglas Satterlee Schenck (1903), Harold Neeves Scott, Charles Harvey Scribner, William Maddock Silleck, Joseph Irving Simmons, Charles Howard Smith, Earll Tappan Stannard, Fred Bowers Taylor, (1903), Ralph Arthur Voigt, Joseph Edwin Washington, jr, Chester Nathan Whitney, Frederic Ross Wickwire, Frank Edward Wilhelm (1903).

AMHERST — Frederick Sewall Bale.

BOWDOIN — James Austin Bartlett.

CORNELL — William Duke, jr., Percy Bowman Ingham.

DARTMOUTH — Louis Richards Dwyer, Wilder Percival Montgomery (1903), John Phelps Slack, Hervey Foss Whittemore.

MASSACHUSETTS INSTITUTE OF TECHNOLOGY — Arthur DeWitt Clark (1903), John Joseph Donovan (1903), Hunter Ulrich Light, William Henry Prentiss Wright.

OHIO STATE UNIVERSITY — Leo Lindenberg.

PRINCETON — Alexander William Bannwart, Philip Gillett Cole (1904), Edward Washburn Kellogg, Fred Russell Nason (1903).

PRINCETON (Scientific) — Ogden Dutcher, Joseph Roy Vetterlein (1905).

PRINCETON (Scientific Special) — Harold Sydney Edwards.

RUTGERS — Louis Bevier, jr.

TUFTS (Medical College) — Malcolm Bodwell McTernen (1904), George Stewart Miller.

UNIVERSITY OF CALIFORNIA — Roger Gaythorne Edwards.

UNIVERSITY OF MAINE — Ralph Butler Bird.

UNIVERSITY OF MINNESOTA — Matthew Hobson Murphy, jr., (1904).

UNIVERSITY OF PENNSYLVANIA — Ellwood Sherwood Thomas (1904).

UNIVERSITY OF VIRGINIA — Churchill Humphrey (1903).

WILLIAMS — Francis LeBaron Robbins, jr. (1903).

WORCESTER POLYTECHNIC INSTITUTE — Clifford Sherman Kilburn (1903).

SCHOLARSHIP HONORS, 1901-1902

HONORS OF THE FIRST GRADE

Nothing lower than B and at least A— in half the number of hours.

SENIORS —

W. T. Bacon	3 terms	F. O'Brien	1 term
L. C. Barton	1 term	H. W. Paine	1 term
F. M. Carter	2 terms	R. Park	2 terms
R. L. Clark	3 terms	C. T. Ryder,	1 term
P. W. Foster	2 terms	C. H. Scribner	2 terms
F. A. Goodhue, jr.,	2 terms	E. T. Stannard	1 term
M. B. Gurley	1 term	W. W. Thayer	3 terms

MIDDLERS —

R. R. Bradford	3 terms	F. R. Nason	2 terms
E. B. Chapin	1 term	C. P. Otis	3 terms
J. J. Donovan	1 term	C. F. Sullivan	3 terms

JUNIOR MIDDLERS —

J. G. Benbow	1 term	J. A. Kydd,	1 term
T. Eaton	3 terms	T. Lynn	1 term
A. G. Kahn	2 terms	R. P. Mathews	3 terms

JUNIORS —

J. F. Burch	2 terms	G. W. Oliphant	3 terms
A. L. Loomis	1 term		

HONORS OF THE SECOND GRADE

An average of B and nothing lower than C—.

SENIORS —

F. S. Bale	2 terms	E. N. Jenckes, jr.	2 terms
L. C. Barton	1 term	E. W. Kellogg	2 terms
R. J. Campbell	2 terms	F. O'Brien	1 term
F. M. Carter, jr.	1 term	H. W. Paine	1 term
W. Duke, jr.,	1 term	R. Park	1 term
P. W. Foster	1 term	A. A. Peters	1 term
F. A. Goodhue, jr.,	1 term	C. T. Ryder	2 terms
M. B. Gurley	2 terms	E. T. Stannard	2 terms
G. M. Heckscher	1 term	G. T. Stetson	2 terms
		W. V. A. Waterman	1 term

Middlers —

E. B. Chapin	2 terms	C. Mitchell	1 term
A. D. Clark	1 term	F. N. Nason	1 term
J. J. Donovan	2 terms	R. N. Paterson	1 term
J. G. Fuller	1 term	A. S. S. Pollock	1 term
A. G. Kahn	1 term	J. G. Stetson	1 term
R. D. Marshall	2 terms		

Junior Middlers —

J. G. Benbow	1 term	P. L. Lariver	2 terms
W. B. Binnian	1 term	T. Lynn	1 term
E. J. Garabedian	1 term	J. E. Madero	2 terms
J. A. Kydd	2 terms	W. Richardson	3 terms

Jnnior —

D. E. Bigwood	2 terms	A. F. Kitchel	1 term
J. F. Burch	1 term	A. L. Loomis	2 terms
J. Clough	1 term		

SENIOR HONORS

Class of 1902

CLASSICAL DEPARTMENT

Greek — Edward Nathaniel Jenckes, jr. William Wentworth Thayer

English — Robert Lincoln Clark William Wentworth Thayer

French — William Wentworth Thayer

PHILLIPS ACADEMY, ANDOVER, MASS.

The statistical blank, upon the reverse of this sheet, calls for items of information which assist the school officers to determine the previous attainments and the present needs of candidates for admission to the Academy. Minute and accurate answers to the several questions are necessary. All new students will take the entrance examinations, as scheduled on page 16 of the annual catalogue, in subjects already pursued by the class which they purpose to enter. These examinations are waived only in the case of subjects already passed by examination for admission to college, and at the discretion of the instructors in charge of the various departments. Candidates are required to furnish certificates of standing in their last schools, and also testimonials that they sustain a good moral character. These records and testimonials should, if possible, accompany this application blank, and are in all cases required before the candidate is admitted to the Academy.

Name, in full, including middle name

Date of birth Place of birth

Candidate for the Class, of the Department

Father's (or Guardian's) Name

Residence
